LACKAWANNA'S SHORT ROUTE

PROPOSED LINE AS VIEWED BY AN EXPERT.

A Prosperous Country Would Contribute Business to the Line Which May Run Through Bradford County Farming Districts—Opinion of the Scheme from Mr. Ira Finch.

Special to The Scranton Tribune.

Towanda, Oct. 20.—The latest idea as to the proposed branch of the Delaware, Lackawanna and Western railroad is given by Mr. Ira Finch, of Williamsport, one of the most able financiers of Bradford County. He forwards to the reporter of The Tribune, with a request to be published, the following:

I noticed that the proposed branch of the Delaware, Lackawanna and Western railroad from Nichols, N. Y., to LeRayville, Pa., was again being agitated, and that the high road would be contemplated passing over the proposed route at their earliest convenience. Said route to follow from Nichols on the main Wappaning creek to Little Wappaning, thence up the little Wappaning and down the Wycox creek to Gillet bridge, thence up John creek to LeRayville, a distance of 28 miles. From LeRayville develop a rich valley, as stated in your paper, and, we might add, very much in need of a railroad, yet it is questionable with people familiar with the proposed route and also with a more direct route, whether the direct route should not be passed over as well as the proposed one. The short route would run up the Wappaning creek from Nichols and continue up the straight branch of said creek through the Carby swamp and on to LeRayville, a distance of 18 miles. While the direct route would leave out the enterprising village of Rome, it would take in the prosperous town of Warren Centre.

A trunk line or direct line would make a run of thirty-two miles, with a moderate grade the whole distance, and the line so direct that there could be air lines for quite distances with the proposed route would run a heavy grade from Nichols to the Shoemaker summit, then down to a lower point than Nichols, then make the grade again from the summit of the Wappaning creek, thence up the Wappaning, passing by or near Springville to Nicholson on the Tunkhannock creek in Wyoming county, Pa., would shorten the run from New York west, something over twenty miles, besides continuing to develop an inland and

productive country. The milk freight the entire distance would be immense; it would be difficult to estimate the number of creameries along the route and in close proximity to it. It is claimed by some that the Tunkhannock hill from Nicholson cannot be made on to Springville. Having traveled over the road I never noticed anything serious to contend with, as the route makes down the Tunkhannock creek from Nicholson, and it is evident that the Delaware, Lackawanna and Western could make Springville by running down the Tunkhannock, when the Montrose railroad makes Springville, running up Tunkhannock from Tunkhannock village.

A survey of the proposed road will be begun at once between LeRayville and Nichols, N. Y. Surveyor Dunning, of Scranton, will be in charge of the work, and will commence at Gillet's bridge, near Rome. It is being done preparatory to the examination of President Trustees of the Delaware, Lackawanna and Western company. The project seems to be brightening to a large extent by those interested.

PIKE COUNTY COURTS.
Judge Purdy on the Bench—Case of Mrs. Quick.

Special to The Scranton Tribune.
Milford, Pa., Oct. 20.—The regular October session of the Pike county court was possibly one of the shortest ever held in its history. It only lasted a few hours. Hon. George S. Purdy, of Honesdale, president judge, and his associates were on the bench. The cases were on the bench. The contestants of the various cases, with the exception of George T. Smith, of Porter township, made their usual reports to the court. The viewers, who were appointed at the last session of the court to change the public road in Westport townships, along the farm of Prof. Charles S. Pierce, reported that they had laid out a road. Upon motion of C. W. Bull, esq., Captain John B. Williams, a prominent Stroudsburg attorney, was admitted to practice in the courts of this county.

There was an interesting case in which Mrs. Elmir, the plaintiff, was charged in Lackawanna township, with the defendant, who is her son, with non-support. The old lady, who is very feeble, took the stand and told the court that her son had entered into an agreement with her in January, 1897, to pay her \$2.50 per month during the remainder of her natural life, and showed a paper to that effect. The small monthly stipend had been paid regularly until August, 1898. Mrs. Quick said she asked nothing outrageous of her son, inasmuch as she is a widow when he was only five years of age and she had supported him by getting out railroad ties, hewing fenceposts, cutting wood and like labor. She stated that her son was married and had a wife and one child. He is employed on the Erie railroad and is receiving \$40 and \$50 per month. Mrs. Quick had no counsel. Her son was represented by Attorney Marvin, of Matamoras, and he made a statement to the court that his client did not deny the allegation, but attempted to prove that she above mentioned have been very much under the influence of liquor when she signed the agreement. The court thought the defendant ought to be willing to pay \$2.50 per month and continued the case until December term of court, hoping that the parties would unblock the difficulty by that time. Quick entered into bond on his own recognizance for appearance at the next term of court.

UNDERGROUND TROLLEY.
System That Is Being Tested at Towanda.

Special to The Scranton Tribune.
Towanda, Oct. 20.—A complete short line of 500 feet of the new system of the underground trolley is a sure venture at this place. Ground has been secured near the station of the Barclay railroad and donated by Manager O. A. Halwin, who also gives the use of the rails. It is merely an experimental line to show the qualities of the Campbell patent.

A full sized electric car has been ordered and the trolley and mechanism of the new system of full size is now being constructed. The members of the company are: Inventor George L. Campbell, Dushore; president, N. N. Betts; vice-president, E. P. Kizer; secretary and treasurer, J. H. Dean; manager, M. Paul.

BIG GAME PRESERVE.
Philadelphians Utilize the Wilds of Monroe County.

Special to The Scranton Tribune.
Stroudsburg, Oct. 20.—The Pohnonahs fish association, composed of wealthy Philadelphians, in addition to its very fine fish preserves at Pohnonahs is also to have a large game preserve connected, so that its members cannot only be sure of large trout, but eat pheasants as well. The association has leased from farmers and others in Chestnut Hill and Jackson townships, over 5,000 acres of land, which is to be made into a huge hunting preserve. The farmers are allowed to shoot all the rabbits they desire and

on certain set dates will be allowed to shoot at the birds. It is the intention of the association to erect a hatchery for birds and will erect extensively into the breeding of game birds. A number of English pheasants have already been imported for that purpose. Application will shortly be made to amend the present charter in order to include game.

MODERN MIRACLE.
Remarkable Faith Cure of Mrs. Andrew Ryan.

Special to The Scranton Tribune.
Susquehanna, Oct. 20.—The age of miracles has evidently not passed away. For the last two years or more, Mrs. Andrew Ryan, wife of the proprietor of the Hotel Ryan, Main street, and a highly respected lady, has been a great sufferer from rheumatism. She has been treated at Scranton hospital and by numerous physicians, without receiving permanent help. Much of the time she has been in bed, and she has not been able to walk without crutches. Her arm has been so drawn and contracted that she has been unable to raise her hand to her head.

She had made up her mind that she would be a helpless and suffering cripple for life. All medical aid was of no avail. Some six months since she ceased taking medicine and commenced to pray many times daily for her recovery. She had firm faith that she would receive Divine help. Last evening she walked upon two crutches to the supper table, two of her sons assisting her. While at the table, she suddenly felt a peculiar sickening sensation in her foot, followed by a similar feeling throughout her body. She immediately arose and walked about the room and with the use of all her limbs, wholly free from pain. Later she walked down stairs, the first time she has done so without the aid of crutches in two years. The joy and astonishment and gratitude of herself and family may be imagined. The strange and sudden deliverance is the talk of the entire community.

FIRE AT FOREST CITY.
Two Houses in the Vicinity of "Blazing Stump" Destroyed.

Special to The Scranton Tribune.
Forest City, Oct. 20.—At 1 o'clock this afternoon fire broke out in the house owned and occupied by Adam Buscha, situated at the "Blazing Stump," and in a very short time the whole structure was a mass of flames. Owing to the inadequacy of any water supply, nothing could be done to save the building and the wind fanned the flames so fiercely that a second house situated on the lower end of the lot and owned by the same person, soon caught fire and in less than a half hour the place was a mass of ruins. Both houses were new and just completed, one of the buildings was not rented as yet.

The origin of the fire is unknown, as Mr. Buscha was at work and Mrs. Buscha is in town shopping. It is thought, however, an overheated stove started it. About all the household goods were destroyed, and there was only a small insurance.

HE CARRIED STAMPS.
A Tramp Picked Up at Pittston Is Held for Investigation.

Special to The Scranton Tribune.
Pittston, Oct. 20.—What may prove to be an important arrest was made today by Chief of Police Richards, of West Pittston. A tramp who was seen to arrive in town on a Delaware, Lackawanna and Western freight was summoned and finally placed in the borough lockup. Over \$20 worth of postage stamps were found on his person, and money was found in one of his shoes. He gave the name of Dolan and said he hailed from New York. It is thought he may know something of the numerous robberies which have taken place in this part of the state recently.

The matter was reported to United States Marshal Lowery, of Scranton, for investigation.

THE MARKETS.

Wall Street Review.

New York, Oct. 20.—The points of greatest interest in today's stock market was the active speculation in Pullman, which was rushed up after yesterday's sharp reaction and extreme 94 points to 207 1/2, a record price. The motive was the official confirmation of the merging of the Pullman and Wagner Palace Car companies, which the stock tape has clearly foreshadowed for some time past. The published assertion that the Vanderbilts are to get the Pullman holdings of Boston and Albany and Boston and Maine stocks as an incident to the deal and that New York Central would thus gain control of New England railroad affairs, gave the bulls an opportunity for an active speculation in New York Central. Total sales, 44,569.

The activity in bonds was somewhat decreased and there was weakness at 280 for Liberty Bells, while the 5 per cent U. S. bonds declined in bid quotations. The range of today's prices for the active stocks of the New York stock market are given below. The quotations are furnished by The Tribune by J. A. RUSSELL & CO., members of the Consolidated Stock Exchange, 40 and 41 Canal street, Jersey City, N. J.
