London, Oct. 24.-No news yet re ceived tends to dispel the apprehension caused by Lord Wolseley's brief summary of the situation.

A Pietremaritzburg dispatch says that the censor now permits no messages to be sent from the front. Other dispatches represent the Boers as not compet them to face the possibility boasting that Dundee is absolutely cut of giving active support to the enemy. off, and assert that despite the British victories, the situation is still uncer-

The Pretoria dispatch giving the report of General Joubert to the government evidently refers to the first battle at Glencoe and the reasons why Commandant Erasmus failed to come to the assistance of Commandant Meyer cannot be fathomed. Had he done so, I tion of the government to the need of the British victory might have been still more dearly bought. Probably Commandant Meyer, having arrived at the rendezvous first, thought to get all the glory of wiping out the Britishers himself and opened attack without waiting for the others. If so, the Boers suffered badly because of his hastiness It appears certain, however, that the brilliant victory at Elandslaagte was productive of no effect for the relief of Glencoe, and the very reticence and brevity of Lord Wolseley's communications are only too ominous. It seems to be worded to prepare the public for d news and it is only too likely that General Yule has been compelled to abandon the wounded and the prison. ers at Dundee because his force is too weak to hold the four and a half miles

It is quite evident that the war office has news which has been withheld from the public

A dispatch to the Times from Coleslang, Cape Colony, says:

"The situation today (Monday) is grave. The Boers are 350 strong and will be reinforced from Driekop. No. defence is possible. The town guard will retire to Nanwuport on the appearance of the enemy."
