CHARGED WITH LIBEL.

Justice Barry, of Luzerne Borough, Held in \$500 Bail for Appearance at Court

Wilkes-Barre, Oct. 26,-William F. Barry, a justice of Luzerne, was before Alderman Donohue last evening charged with furnishing false news to a local paper. The suit was brought by Miss Mary Campbell, of Edwardsville, under the act of assembly of 1893. The suit grew out of an article which appeared in the Leader in September, headed "Fought for Love," which gave

an account of a supposed fight between two of Miss Campbell's admirers who decided to setle their difference in a fistic contest, the winner to be acknowledged as the young lady's accepted lover, the loser to withdraw his attentions. The article also stated the young lady acquiesced in this arrangement and witnessed the fight, which was fought in a field on the West Side. At the hearing last evening the young lady stated that at the time the supposed fight took place she was not within a mile of the place mentioned, but, on the contrary, was attending church with her sister. Several others witnesses, Michael Burns, Thomas Murphy and J. J. Monohan bore out the young lady's testimony.

City Editor Risdale testified that the article in question had been published in the Leader, that it had been sent to the paper through the regular corsrespondent, Mr. Barry, and was printed in good faith; that if he had any suspcion the article was untrue he would not have printed it.

After hearing the testimony the alderman severely scored Barry for his act of writing such an article. He said; "A lot of you scribblers, or would-be newspaper men make a practice of writing up respectable people and through false items hold them up to the contempt and ridicule of their neighbors, as in this case, by writing untruths which you send to respectable newspapers, thus misleading them. There is no respectable newspaper in existence which would libel a person maliciously. But at times they are imposed upon by such men as you. Such articles, however, do a great injury to the person whose name is mentioned which cannot be repaired. You, no doubt, thought it was a great joke, but we have one which we think is a better one, and that is that you enter ball in the sum of \$500 for your appearance at court to answer the charge."

Burgess Donnelly, of Luzerne, qualified as Barry's bondsman. Attorney Salsburg appeared for the plaintiff and D. B. Gildea for the defendant.

#### MEANING OF "MINER'S TON."

# In a Coal Lease Causes a Suit Which

May Involve \$20,000. Wilkes-Barre, Oct. 26.-An important coal suit which involves over \$20, 000 was argued before Referee S. J. Strauss in the latter's office this nf-The case is that of M. W. ternoon. Morris, I. Everett, George K. Drake, Thomas Drake against John Jermyn Joseph J. Jermyn, R. D. Laboe and Jeremiah B. Shiffer.

The plaintiffs made a lease of certain coal lands in Lackawanna township practically to the defendants upon a royalty of 10 cents per ton miners' The lease was made in 1865 weight. and the controversy involves the meaning of the clause, "miners" veight," in the lease.

The plaintiffs contend that the miners' weight was 2,464 pounds to the ton of such material that came from the mines, acceptable under the rules of mining in vogue at the time, for

which the employer paid the miner. The defendants claim a miners' weight ton was such coal and refuse that came from the mines and was accepted from the men, as would make a ton of prepared coal; also, that the question involved in this case was settled in a former suit in which the supreme court rendered a decision which was final and conclusive and prevents the plaintiffs in the present case from securing a judgment.

strength in yesterday's stock market attracted quite a large buying interest this morning and the market during the first hour took the upward course, with very active trading. The demand showed, however, a marked falling off during the rest of the day and the isolated points of strength which developed from time to time had a tendency to sustain prices, but the drift was down until the close, which was very generally at a low period of the day. The market during the first hour was conspicuous for the great breadth of the demand, the number of stocks being no less than 125. The aggregate number of shares dealt was also very large. Broadly speaking, the market was a reversal of that of yesterday in that railroads generally were inclined to re-act, while the industrial stocks moved upward. The evidences of profit taking in the coalers, which were manifest even it the opening dealings, prompted selling to realize in the railroad list.
