**HORSE FELL INTO A TRENCH.**

Italian Laborer Who Was at Work  
Had a Narrow Escape.

A horse belonging to William Mc-  
Ehrle fell down a five foot trench on  
Washington street yesterday. The animal  
was attached to a carriage and  
shying at a pile of bricks on the side-  
walk jumped into the excavation.  
An Italian laborer was working in  
the trench at the time, but fortunately  
he was not injured.  
The horse, which was extricated by  
the use of a derrick also escaped injury.

**REAL ESTATE TRANSFERS.**

**Hunt Residence and Elm Park Tri-  
angle Change Hands.**

A real estate deal of considerable  
importance was recently concluded by  
which Frank M. Vandling became the  
owner of the beautiful home built and  
occupied by A. E. Hunt, at the corner  
of Jefferson avenue and Pine street.  
The house is one of the most attrac-  
tive in the city and has been built  
but a few years. Mr. Vandling pro-  
poses to make a number of changes  
in the property and will probably take  
possession about the first of the year.  
The consideration for this fine prop-  
erty is not made public, but it is sup-  
posed to be somewhere in the neigh-  
borhood of \$25,000. It is understood  
that Mr. Hunt intends continuing in  
his own name the business conducted  
for some years as the firm of Hunt &  
Connell.

Another real estate affair which will  
interest a large number of people is  
the acquisition of the triangle adjoin-  
ing Elm Park church by Messrs. Charles  
Schlager, John T. Porter, C. D.  
Jones and G. F. Reynolds.  
That particular spot of ground,  
though not large, has been the source  
of much concern to many residents  
of the city, who have feared that the  
beautiful property would be marred by  
some unsightly building if the church  
did not secure possession of it.

In fact, plans were drawn by one  
set of owners to build a caravansary-  
like structure to be used as a place for  
the rest of the church. For some reason  
the arrangements were not completed  
and now all suspense will be at end,  
as the property is in hands of mem-  
bers of that congregation.  
It is not yet made public as to  
whether the church will purchase the  
land, which would make such an at-  
tractive addition to that fine site.  
There was a time but a few years ago  
when it could have been bought for  
\$5,000, and not a few members of the  
official board regret that such a step  
was not then taken. The recent own-  
ers, Dr. L. M. Bates and J. W. Brown-  
ing, paid \$10,000 for the small bit of  
land and it is understood have made  
but little on its sale.

**CAUSE OF THE DROUGHT.**

Weathermen Clarke, of Binghamton,  
and Paine of This City Inter-  
viewed on the Dry Spell.

The long-continued drought and the  
particular dense fogs which have  
visited this city and valley within the  
last few years are becoming topics of  
general conversation and great con-  
cern is being manifested as to the  
probable duration of the former.

United States Weather Observer F.  
H. Clarke, who is stationed in Bingham-  
ton, and well known among National  
at the request of Willis Moore, chief of  
the weather bureau, and consulted  
with Secretary D. B. Atherton, of the  
board of trade, in regard to the fur-  
nishing of weather maps and reports  
to those in this city who may desire  
them.

In speaking of the drought Mr.  
Clarke said that it was general  
throughout the entire country and  
that in this particular vicinity there  
is no hope for any relief in the shape  
of a heavy rainstorm for the present,  
at least. He said the absence of rain  
was caused by the deflection of storms  
originating in the northwest at the  
great lakes. These storms generally  
come east, but for some unknown  
reason they have stopped at the Great  
lakes for some time past. Mr. Clarke  
said that a fog coming on at 8 o'clock  
in the evening, as the one Wednesday  
night did, is an especially peculiar  
freak of nature, and he offered no ex-  
planation for its cause, stating that he  
was ignorant of local conditions.

H. E. Paine, the local weather ob-  
server, when seen yesterday, said that  
he thought the fogs were caused by  
the late autumn moisture which  
has been in the air for the past few  
days and which was quickly con-  
densed by a sudden slight drop in the  
temperature. Mr. Paine also stated  
that there was no immediate prospect  
of rain.

The weather maps which Mr. Clarke  
makes are issued daily and give up to  
midnight on the day previous the high-  
est maximum and lowest minimum  
temperature of all places in the United  
States where there are weather sta-  
tions. They also give the velocity of  
the wind and the amount of rainfall  
in these areas, not only this, but the  
general state of the weather in all  
of these points at 8 o'clock in the  
morning of the day on which the re-  
port is issued is also shown.

The map is made from these reports  
at a single glance shows the tem-  
perature of the entire country. These  
maps and reports will be sent from  
Binghamton on the train leaving  
there at 11:02 p. m. and arriving here  
shortly before 1 o'clock. Any business  
man desiring one may have one mailed  
to him every day free by communicat-  
ing with Secretary Atherton and  
agreeing to display them in a promi-  
nent place.

These reports and maps are of in-  
calculable benefit to wholesale mer-  
chants and shippers of perishable goods,  
showing them whether the climatic  
conditions which their shipments  
would have to pass through were fa-  
vorable or not.

**SPECIAL MASS MEETING.**

Interesting Services Will Be Held at  
the R. R. Y. M. C. A.

On Sunday at 3:45 p. m. the Railroad  
Young Men's Christian association will  
hold a special mass meeting at their  
rooms. The speaker will be H. O. Wil-  
liams, of Richmond, Va., one of the  
international railroad secretaries and  
a good speaker.  
Two selections will be rendered by  
the Orpheus club, which will also play  
for the singing. Tom Beynon of the  
Schubert quartette, will sing by re-  
quest, "If With All Your Heart," from  
"Elijah." All are cordially invited to  
attend.

**CAVE-IN OF SEWER TRENCH.**

Edward McManus, of Pittston, Al-  
most Buried Alive.

Edward McManus, of Pittston, was  
digging a trench yesterday morning  
on Bennett street, and was about ten  
feet below the surface when suddenly  
the earth on both sides caved in, and  
buried him beneath it. He was for-  
tunately, able to keep his head above  
the dirt and was removed by his fel-  
low workmen.  
He was removed to his home on Un-  
ion street and on examination by a  
physician he was found to be badly  
injured.

**FOG INTERFERED  
WITH THE GOLFERS**

**NEARLY NOON BEFORE IT WAS  
POSSIBLE TO START.**

Interesting Contest Between Travis,  
the New York Crack, and A. Z.  
Huntington—Three Scranton Men  
Fell Down in the First Round.  
Four Locals, However, Succeeded  
in Winning a Place in the Semi-  
Finals—One Golfer Got Mixed Up  
in the Fog and Bramble Buses.

The second day of the golf tourna-  
ment was not a day at all until about  
noon. For all practical purposes to the  
golfer it might as well have been mid-  
night and he might far better have  
stayed in his little white bed and in  
sleep gained additional strength and  
endurance for the contest as the fog  
was so dense that it was possible to  
see at a distance of fifty yards. The  
pine trees loomed up gigantic in size  
through their blanket-like swathings,  
and the disconsolate golfers wandered  
round losing themselves in the dull  
gray mist and wondering why some  
smart person had not invented a phos-  
phorescent ball which could be distin-  
guished from the all pervading  
chaos. There was something extremely  
depressing about that fog and it  
made the visitors think of various  
somedays they had left at home who  
would be a comfort if they were here  
and had a tendency to cause all the  
restless golfers to sit down by the fire  
and tell ghost stories more suited to  
All Hallows' eve than the great day of  
a tournament.

At about half past eleven the sun  
began to dispel the gloom and the play-  
ers started off. It is a wonder that  
some of them or some of the eager  
spectators haven't been killed, for in  
that fog it was impossible to see where  
a ball would land or to dodge its track  
if it happened to go wild. In many  
respects the rounds of Wednesday and  
yesterday were a game of blindfold  
buff, but splendid golf was played,  
notwithstanding the disadvantages.  
Notwithstanding the disadvantages.

**BOTH PLAYED WELL.**

Much interest centered in Mr. Travis  
and his contest with A. Z. Huntington.  
It was one of the most beautiful  
matches ever seen on any links. Both  
played magnificently. It was such an  
even game that they halved the four-  
teenth hole but after that Mr. Hunt-  
ington began to lose. The round was won  
by Mr. Travis by two strokes only.  
Today he will play with Mr. Blair in  
the semi-finals while Captain Brooks  
plays against Mr. Taylor. With all  
due deference to the excellent game  
put up by the latter it is confidently  
expected that the final tomorrow will  
be between Mr. Travis and the popular  
captain of the Scranton golf team. If  
good wishes and the utmost anxiety  
on the part of a multitude of friends  
can help John Brooks to win there  
can be no doubt that the Scranton club  
cup will be kept at home.

Mr. Travis is a man of fine physique  
and a face whose firm set lines indi-  
cate determination and courage. He  
probably possesses an outfit of more  
cut glass and silver than the most for-  
tunate bride beneath the grade of a  
princess. He gathered in spoils last  
year to the amount of fifty or more  
"cups" and when it is remembered that  
a "cup" means anything from a plain  
two handled affair on an ebony stand-  
ard, to a glorified punch bowl, or a re-  
splendent repoussé tankard two or  
three feet high the antickness of the  
Travis treasure vaults may be im-  
agined.

**LOCAL PLAYERS OUT.**

In the first round yesterday three  
Scranton men fell down. They were  
Messrs. Shafer, T. R. Brooks and W. J.  
Torrey. But four local players, Messrs.  
T. H. Watkins, J. H. Brooks, James  
Blair, Jr., and P. C. Fuller, won. The  
result of the championship first round  
was as follows: Kilmer defeated W. J.  
Torrey 2 up, 2 to play; Travis defeated  
Huntington 2 up, 2 to play; Blair de-  
feated Johnson 4 up, 3 to play; Young  
defeated Platt 4 up, 3 to play; Kirk-  
patrick defeated S. H. Kingsbury 2 up,  
1 to play; Price defeated Atherton 2 up,  
1 to play.

In the third round yesterday after-  
noon, Travis defeated Kilmer 3 up, 1  
to play; Blair defeated Johnson 2 up, 1  
to play; Brooks defeated Fuller 4 up, 3  
to play; Taylor defeated Watkins 3 up,  
2 to play.  
The consolation match was also deep-  
ly interesting.

Mr. J. H. Torrey won by default, his  
opponent, Mr. Farnham, of Wilkes-  
Barre, being unable to play, owing to  
a business engagement which detained  
him at home.  
Parsons defeated Turner 5 up, 4 to  
play; Hudnut defeated Storrs 1 up on  
the nineteenth hole; Law Watkins de-  
feated G. W. S. Fuller 9 up, 8 to play;  
Greene defeated Jermyn 1 up; Hunt  
defeated Platt 4 up, 3 to play; Kirk-  
patrick defeated S. H. Kingsbury 2 up,  
1 to play; Price defeated Atherton 2 up,  
1 to play.

**ORDERED THE WORK STOPPED.**

South Side Sewer Operations Are  
Again Interrupted.

City Engineer Phillips visited the  
scene of the construction of the Seven-  
teenth district main sewer at South  
Scranton, yesterday, and ordered Con-  
tractor Coons to suspend work until he  
gave him permission to resume.  
The cause of Mr. Phillips' action was  
due to many complaints which have  
been made to him, that Coons is using  
on the work sand that is taken from  
the dirt excavated along the line of  
the sewer.

This allegation, Mr. Coons stated to  
a Tribune reporter last night, was un-  
true. He says the sand used is pro-  
cured from Pittston and Harrisburg,  
and has met the approval of the city  
engineer.

Work will be again resumed this  
morning, Mr. Coons stated. Mr. Phil-  
lips having made an examination of  
the sand and became satisfied that it  
was up to the standard, and that the  
complaints made to him were not well  
grounded.
