Scranton Store, 124-126 Wyoming Avenue.

Friday's Great Sale

The banner bargain event of the week. The only sacrifice of its kind in Scranton. These bargains are for all day Friday, and are cut so low in price that you will find it one of the greatest opportunities of the present season. Every item advertised here is a bargain in price as well as quality. Most of them are staple goods that you all know the value of. Further comment is unnecessary. Our quotations speak for themselves. We intend to make this the biggest Friday of the year. Come early.

- For Cotton Tape—We offer for Friday 5,000 pieces white cotton tape that generally sells for 3 cents apiece, all
- For Hooks and Eyes, for Friday only. Full card of two dozen best hooks and eyes, with hump.
- For 5c Kitchen Crash, fifty pieces for Friday's sale, seventeen inches wide, regular price is 5c. Only ten yards
- For 5c Cabinet Hair Pins, 500 boxes for Friday's special sale at less than half the customary price. Only five to a
- For 6c Apron Gingham, 5,000 yards for Friday's sale 22C and only ten yards to a customer. Come early and avoid
- For 5c paper of pins—the regular 5c quality of pins—at about one-half price on Friday, and only ten papers to a
- For pard wide unbleached muslin, regular 5e quality, only 2,000 yards at this price during our great Friday sale.
- For 8c linen crash, guaranteed pure linen, in checks and plain unbleached. Equal values impossible anywhere for ess than 8c the yard.
- For 10c apron lawns, twenty pieces for Friday's sale. Lace bordered apron lawns, of the 10c quality.
- For 12c book fold cheviot, very suitable for men's shirts. Positively the greatest value ever offered at such a price.
- For yard wide prints-best quality shirting prints, 36 inches wide, worth 10c a yard. Friday, only ten yards
- For 123/2c, sateen—this is a lot that we wish to close out quickly, so have made the price less than half actual cost.

THE COMMISSION MAKES REPORTS

[Concluded from Page 1.]

ficient corps of native policemen was on duty and a system of public schools in which English was taught had been established. Favorable progress is also spoken of at other points.

Efforts at Conciliation.

The efforts at concilation with Aguinaldo and his various commissions are set forth in detail. These commissioners were assured of the beneficient purposes of the United States and the president's readiness to grant the Filipinos as large a measure of home rule and as ample liberty as consistent with the ends of government, "subject only to the recognition of the sovereignty of the United States"-a point which, being established, the commission invariably refused even to discuss.

The commission adds that nothing came of negotiations, as Aguinaldo's emissaries were without powers and merely came and came again, for information.

The commission say the primary object of Aguinaldo's struggle is not, as is pretended, the liberty of the Filipino peoples, but the continuance of his own arbitrary and despotic power,

The chapter devoted to "capacity for self government" is the result the report states, of diligent inquiry for several months of the course of which a great number of witnesses were examined of all shades of political thought and varieties of occupation, tribe and locality. The most striking and perhaps the most significant fact in the entire situation is the multiplicity of tribes inhabiting the archipelago, the diversity of their languages (which are mutually unintelligible) and the multifarious phases of civilizationranging all the way from the highest to the lowest. As to this the report.

"The Filipinos are not a nation, but a variegated assemblage of different tribes and peoples; and their loyalty is still of the tribal type."

Intellectual Capacities.

Concerning their intellectual capaciies, the commission says:

'As to the general intellectual capteitles of the Filipmos, the commission s disposed to rate them high, but exsepting in a limited number of persons hese capacities have not been develmed by education or experience. That ntelligent public opinion on which sopular government reals does not exat in the Philippines. Affi it cannot exist until education has elevated the masses, broadened their intellectual horizon, and disciplined their faculty of judgment. And even then the power of self government cannot be assumed without considerable previous training and experience under the guidance and tutelage of an enlightened and liberal sovereign power. For the baid fate is that the Filipinos have never had any

experience in governing themselves." The report shows that this inability for self government is due to the oid Spanish reigime, which gave the Filipinos little or no part in governing themselves. The most that can be expected of them is to co-operate with the Americans in the administration of general affairs from Mantla as a centra and to undertake, subject to American control or guidance (as may be found | pany

necessary) the administration of provincial and municipal affairs

Anarchy Threatened.

"Should our power by any fatality be withdrawn, the commission believes that the government of the Philippines yould speedily lapse into anarchy, which would excuse, if it did not necessitate, the intervention of other powers and the eventual division of the islands among them. Only true American occupation, therefore, is the idea of a free, self-governing and united Philippine commonwealth at all con-

The commission witnessed some of the many brave deeds of our soldiers, and they declare that all that skill, ourage, and a patient endurance can do, has been done in the Philippines.

They dismiss the reports of the desecration of churches, the murdering of prisoners and the committing of unmentionable crimes, and say they are glad to express the belief that a war was never more humanely conducted, saying:

"If churches were occupied, it was only as a military necessity, and frequently after their use as forts by the insurgents had made it necessary to rain our artillery upon them."

The commission gives a general view of the value of the islands, their richness in agricultural and forest products, their mineral wealth, and their commanding geographical position. They state that the Fillpine islands should soon become one of the great centres of the east.

The report concludes: "Our control means to the inhabitants of the Philippines internal peace and order, a guarantee against foreign aggression and against the dismemberment of their country, commercial and industrial prosperity and as large a share of the affairs of government as they shall prove fit to take. When peace and prosperity shall have been established throughout the archipelago, when education shall have become general, then in the language of a leading Filipino. his people will, under our guidance, become more American than the Americans themselves."

The report is signed by J. G. Schurman, George Dewey, Charles Denby, Dean C. Worcester.

BIDS FOR THE NEW CRUISERS.

Board of Construction to Consider Them Before Awards Are Made

Washington, Oct. 2 .- The blds for the six new crulsers opened at the navy department yesterday have been turned over to the board of construction, which will pass on the merits of the offers before the awards are made. That may take perhaps two weeks.

The low price of some of the bids was rather a surprise to the department in view of the advance in the price of material. It was said, however, that as the vessels are not to be completed for almost three years the bidders were relying on a reduction in the price of

It is said in the department that probably not more than one boat is to be allotted to any one bidder, as that is the present policy of the department.

Corporations Not in It.

New York, Nov. 2.—Officials of the Western Union and Postal Telegraph empanies deny those corporations are in graph and cable company, which will soon be launched with a capital of \$50,-100,500 to fight the Bell Telephone com-

REFORMS DISCUSSED AT WOMEN'S CLUB

HOUSEHOLD ECONOMICS WAS THE TOPIC OF THE DAY.

Addresses Delivered by Mrs. Mary A. Jones, of Philadelphia; Mayor James Moir, Dr. J. E. O'Brien and Dr. Fred Van Sickle-The principal Talk of the Afternoon Was Assigned to Mrs. Jones, Who Is President of the State Sanitary League. Suggestions She Made.

The Women's club, of Green Ridge, s making considerable stir in that portion of the city and the agitation s spreading faster even than the contagious diseases which frequently

originate in that vicinity. Yesterday the section of Household Economics held a field day. The afternoon was spent in hearing remarks which alternated between descriptions of the horrible sanitary condition of Philadelphia, the perfectly sweet and wholesome state of Scranton and its perfectly vile and abominable plight. There was a wide range of opinions from which to choose and white at times the listeners formed intentions of going home patting themselves on the head because of the nice things said about their city, there were other times when their noses went up in the air and they imagined a densicating factory must be in the vicinity.

Mrs. C. P. Davidson presided over the meeting with admirable grace, At her left was Mrs. Mary A. Jones, of Philadelphia, in a fascinating blue waist adorned with real lace. At the right gathered around for mutual protection were Mayor Moir, Dr. J. E. O'Erien and Dr. Fred van Sickle. The remainder of the persons present consisted of indies, with the exception of Rev. Dr. I. J. Lansing, who was hidden away in a far corner and nearly escaped observation until he made a telling address as a finale.

MAYOR MOIR SPOKE.

Mayor Moir was first introduced and gave some interesting facts. According to his point of view everything that a reasonable city can possibly require is going to fall to Scranton's lot in the near future. He spoae of the from the Susquehanna river. recent decision of the supreme court which states that the city must pay a certain percentage of the cost of a main sewer system and also told of the ordinance now to be presented to the common council authorizing bonding the city for \$240,000 to provide for an improved sewerage. He wished to contradict the statement sometimes heard that Scranton is on the verge of bankruptcy. No city of its size is in better financial condition.

The question of appropriating more money to the sewerage system is to be submitted to the public at the polls in February and he urged the interests of this aggressive body of women in its behalf. As to the water supply he was much interested in that, since he drinks nothing else. He admitted that the Providence water was not as good as it might be.

Mrs. Jones, president of the Sanitary league, of Philadelphia, and also of the State league, was introduced ************************************** nd spoke for a half hour on many of conditions in Philadelphia struck | mestic consumption. the audience as appalling. It seemed Please take notice that, dating from not generally realized that 10,000 cases of typhoid fever have flourished in Charles Hotel will be charged for at the 2.000 have died all as the result of a leakage in a great and costly inter-She told with humorcepting sewer. ous effect of the appeals to the mayor and the political influence which had prevented applying the appropriation of \$3,000,000 which had been previously made toward the improvement of the system.

TO FILTER WATER.

Experts have now submitted recommendations for a filtering process costing \$12,000,000, which will be submitted to a popular vote on Tuesday next It is not decided what system of filtration may be adopted. The idea of conveying water from the Delaware Water Gap is not considered possible at present. In the course of her remarks Mrs.

Jones suggested that the vast water supply of Scranton, of which she heard so much, does not necessarily imply that the water is pure. Quality, not quantity, is the requisite.

Official inspection is what the sanitary league recommends for the sources of all water systems, cesspools, pig sties and out-houses on the banks of tributary streams are the menaces to good health.

Other work taken up by the women is that of protesting against issuing slate pencils in schools for use in comand also against the general drinking cup. Cellar inspections, the official inspection of public laundries, inadequate seating capacity and heating apparatus in street cars and expectorations in public places are other branches of work occupying the at-

tention of the women's organizations. She protested against the masculing method of house-cleaning as exemplified in the streets, where the next day after these have been swept the ashman proceeds to go about scattering paper far and wide, or the street cleaning brigade collects heaps of dirt. and then leaves the same to be distributed by the wind.

WOMEN URGE REPORMS. The women of Philadelphia are enleavoring to recure legislation to order the separation of waste paper from the ashes. Carelessness regardbeen caused by contagious diseases and in the use of school and library books in infected homes was depre-

cated. Finally, was recommended individual study and agitation of the sanitary uestion. After being told that the tarough of Dunmore was responsible or the open sewerage in the vicinity the library. Mrs. Jones emphatiscally remarked: "Worry them, ladies! Remember the importunate widow and egitate, educate. Gentlemen are galhant. They will accede to your perbrient demands."

Dr. Frederick Van Sickle, president of the associated board of health of

tenth that in Philadelphia by typhoid fever from the pollution of the water supply. He then declared Scranton to be a health resort, with the best water supply in the United States, a monument to one man's energy, and gave Jocular reminiscenses of his own experience as health officer during epidemies of cerebro-spinal meningitis, smallpox and other unpleasant thirgs of the past. As a result of his efforts in preventing the spread of smallpox over the county he was the only health officer who could not be reelected.

WORK OF VACCINATION,

At his suggestion the doctors here vaccinated 7,000 cases that winter, at a cost of about two or three cents Recently in Pittsburg and Philadelphia the board of health boasted of its cleverness in vaccinating 1,800 cases at a dollar each.

He spoke of the first state hospital for consumptives just established in Massachusetts as an indication of progress, and closed with the declaration that women should have a vote in municipal and state affairs.

Rev. Dr. Lansing then made bright address in which he severely denounced the Providence water supply and told some things about the epidemie of diphtheria last year and what he termed the subsequent whitewashing process observed in the investigation. . He considered the condition of Philadelphia a national disgrace and entirely approved of the idea of official inspection of water sup-

As to the city government, he be-lieved that it is usually what the people want-no better, no worse. When they demand improved legislation they get It. We ought to have the best and we can have it if we use individual

FOR NEW WATER WORKS.

Select Councilman Melvin Takes Steps to Put the City in Fighting Trim-Cause of His Action.

Much conjecture was occasioned in select council last night by Mr. Melvin's introduction of the following: Resolved. That the mayor is hereby reuested to confer with the officials of the Lackawanna Iron and Steel company to ascertain at what price it will transfer

to the city, its surveys, mans and fran-chises for bringing water into the city It appears that some years ago, when a fight was on between the Lackawanna Iron and Coal company and the Scranton Gas and Water company, the former projected an independent water service and went so far as to survey and map a route for a pipe line to tap

chises for establishing and operating Mr. Melvin is now desirous that the city should possess these. He feels that the time may come when the city will need an independent supply as a protection against any grasping propensities that might be engendered by the Scranton company's knowledge of its

the Susquehanna and to secure fran-

monopoly. This was suggested to Mr. Melvin's mind by the receipt of the following

The Scranton Gas and Water Co. Scranton, Pa., Oct. 31, 1899,

T. C. Melvin, Esq.

Dear Sir: On account of the excessive subjects of sanitation which these societies are taking up. Her description meters on lerge consumers outside of do-

regular meter rates of this compa copy of which we herewith enclose, Jos. Joffrey, And't, Sec'y,

The "meter rates enclosed" are as

For dally average per month of 10,000 illons or loss, 20 cents per 1,000 gallons. For dally average per month of 10,000 to 20,000 gallons, 15 cents per 1,000 gallons, For daily average per month of 20,000 to 50,000 gallons, 19 cents per 1,000 gallons. For daily average per month of 30,000 o 19,000 gallons, 8 cents per 1,000 gallons. For daily average per month of 53,000 lons or more, 5 cents per 1 (30 guillons, Index of meters will be taken monthly, and all daily averages will be computed upon the basis of the number of days to the month, not including Sundays.

The company will furnish the use of meters free of charge, but the cost of setting the same will be charged to the

consumer or owner of the property. Mr. Melvin made inquiries among his neighbors and found that others were complaining. A hotel which was paying \$260 a year water rent under the old system was recently put under the meter system and for the first three

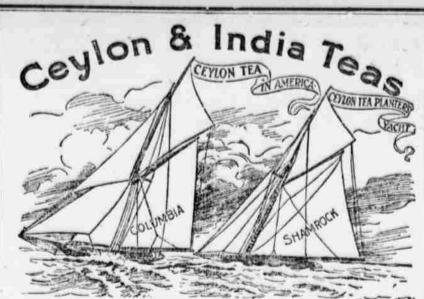

months its water bill amounted to \$140. Mr. Melvin believes this is excessive

A very unique contest took place last evening in the shape of a rifle match between teams representing the Electric City Rifle club, of this city, and the New Orleans Ride club, of New Orleans, La. The teams, of course, shot in their respective cities, the results being sent by telegraph.

The match was arranged last summer ing public funerals where death has the other not having reached this city
