casion will afford the public an op-

portunity to see rare species which

is a growing demand for such accommodations at almost all seasons of the year. At first thought conservative Americans shrink from using other people's household goods and chattels in the intimate fashion necessary when they must occupy a

furnished house. The owners of goods and chattels naturally shrink also, and are in fear their possessions will do likewise. But experience teach-es a contrary doctrine. Said the owner of a lovely city home the other day. "I quite like renting my house for the winter, for the people who live in it take better care of my things than we are able to do. By some miraculous method their Norabs and Marys smash

far less than ours, and then occasionally I find some tiresome old thing replaced with one that is new and up to date."

It is becoming popular for many city people to fellow the London custom of renting their town houses while traveling or when tired of housekeeping McEnery Stuart, whose charming storand desiring the change of boarding for a season, and it is their homes that are eagerly sought by the others who are coming to town.

This winter Mr. James P. Dickson and family will occupy the pleasant Clay avenue residence of Mrs. E. C. the ear of her audience. It has also Lynde, who will spend the coming months in travel and in visiting at the home of her daughter, Mrs. J. J. Ryman in Dallas.

Mr. Daly of the Delaware, Lackawanna and Western railroad, with his family, will occupy Mrs. S. G. Barker's home for the season. Mrs. Barker and Miss Barker having decided to spend the winter in New York.

Mr. G. A. Fuller and family have leased the Monroe avenue house of Frank Moyer. Mr. F. H. Jermyn will winter in the west and his family will remain with Mrs. Griffin on Pine street during his absence. Mrs. J. H. Phelps contemplates leas- of Scranton.

ANNUAL REPORT OF MRS. L. M. GATES.

It Was One of the Features of Yesterday's Session-Able Address by Miss Effie K. Price at the Thursday Evening Session-Information She Gave with Reference to the Work of the Association - Interesting Notes About Those Attending Convention.

Special Correspondence to The Tribune. Williamsport, Nov. 3 .- A more perect day could hardly be imagined than Thursday, when the Scranton delegates to the Young Women's Christian assoclation state convention left for Will-iamsport. At Bloomsburg they were etles. joined by Mrs. Wilbur and six mempers of the Student association of the Normal school.

All the party agreed that it was very fortunate that the president of the Scranton association had a large and generous heart, and her lunch basket was in the same proportion, for the chicken, jelly, pickles, sandwiches, etc., that came from that receptacle seemed Africa, France, Netherlands, Great to have been provided for a large dele- Britain, United States and Canada. gation of hungry people, and such they before Northumberland was were

reached. As usual on such occasions, the poor station master at this place looked with dismay on the crowd of women and girls flocking to the window with spe-cial tickets. Fortunately, the train was late and gave him time to get all provided, and in the meantime the delegates wasted a few spare pennies on seeing how much weight they carried. It remains to be seen whether the increased wisdom gained and also the good diet of these kind Williamsport people makes any difference when they return.

When the train was boarded at Northumberland it was evident that some passengers were looking at the women and the badges with great in-

terest, and so an investigation took place and revealed delegates from Shippensburg, Müllersville, Harrisburg, York, Stroudsburg, Wilkes-Barre and other places. Miss Price was also on this train, having come from Chicago, GREETING DELEGATES.

The pleasant new chapel of the First Baptist church on Elmira street was already well filled when the delegates from the north arrived. The arrangements are very complete for the convenience of the guests, rooms for baggage, registration, tables for stationery, etc., and a postoffice are in the cooms adjoining the auditorium.

The stage was beautiful with palms and chrysanthemums. The opening service was led by Miss Sara Carson, of New York, who is a worker in the Christodora house, a settlement on Fourteenth street. Her theme was,

'We Would See Jesus." The solos by Miss McCarthy, of Williamsport, added much to the meeting. Miss Babcock, state secretary of New York, gave a Bible talk, which was full of helpful suggestions, and was followed by a season of earnest prayer. It was evident that if the opening session was a prophecy of the whole convention, it was to be one of our best.

At the business session Mrs. L. M. Gates was elected for presiding officer the convention, with Mrs. E. M. tian association. Many associations ar Gray, of Williamsport, as vice-president. Mrs. W. T. Hackett, of Scranton, was chosen for secretary but declined, and Miss Ida Shafer, of Reading, was elected. These officers are the officers of the onvention to serve during this session. The registration shows a large delegation already in. Mrs. Dr. Chevney has charge of the assignment of delegates and the entertainment arrangements are admirable. The session losed Thursday afternoon with an "acquaintance meeting," when a social spirit prevailed and old friends met ind new ones were introduced, and all felt at home, from the oldest associa-

At Asheville last summer 149 young women from colleges were in attendance, forty of them being teachers. At Geneva, 540 young women from 112 colleges. Of the 540 women present at Northfield, 450 were from colleges representing seventy-five colleges of the east. Many of these are under-graduates, who return to give the inspiration to their colleges and to carry It away with them into the active duties of life.

An important part of the College association is the missionary department, which is now ten wears old and is known as the "Student Voluntoer Movement" and is controlled by representatives of the Young Men's and Young Women's Christian associations, In 1897 students gave \$10,000 to foreign missions. Over 3,500 students are atudying mission fields in mission study classes of the associations. But they give more than their money and their time-they give themselves. One thousand, three hundred and sixty-six student volunteers are now in foreign fields in fifty-three different stations, under forty-eight denominational soci-

Four years ago was organized in Sweden the World's Student Christian federation, uniting in one world-wide organization eleven national associations, consisting of 1.212 individual ansociations and embracing 55,000 Christian students throughout the world. On Nov. 12 a universal day of prayer is held, in which all these nations join-Japan, China, India, Ceylon, South

Miss Price closed her address with a review of methods of Young Women's Christian association work in college carryl g a student from her home through the first lonesome days, helped by Young Women's Christian association to learn the ropes, made to feel at home, the opening reception, the first prayer meeting, the Bible study and mission meeting, the state convention and summer conference, till she went back home trained for active service in church and community.

She spoke of the temptations of college women to intellectual pride, negleet of Bible and prayer, social absorption, Sabbath-breaking and unwise friendships, and made a strong plea for college girls to make Christ first in everything.

MRS. GATES' ADDRESS.

At today's session of the convention Mrs. L. M. Gates, of Scranton, chairman of the state executive committee of the Young Women's Christian association, read her annual report. It was as follows:

Since the last convention in Pittsburg in January, the state executive com-mittee have held eleven meetings. They have issued the annual report and the leaflet on "Responsibility of the Local Association in Support of State Work," as ordered by the convention. The monthly meetings have been of great interest, because of the full reports of the state secretary, the letters from the non-resident members and news from associations. It is always cheering when we hear, as we often do, of the good results of the state convention and of the helpfulness of the prayer calendar. The chairman's note-book shows for

six months during the last year sev-enty letters, aside from sending out of affiliated memberships, reports, etc. and convention months would show larger numbers. One of the state committee acted as leader of the Pennsyl-vania delegation at Northfield.

In the college department we are glad to note some encouraging facts. With better times in our country comes increased attendance in schools gener-ally. This gives a larger field for Christian effort and brings greater responsibility for the Young Women's Chris-

tion to the "baby" ones just organized, who had never been to a convention before. MISS PRICE'S ADDRESS.

The first evening session address was

given by Miss Effic K. Price, one of the American secretaries. She is probably one of the most popular speakers in the whole association. Her attractive appearance, earnest face and megnetic voice appeal to the audience at once.

Then, her addresses are full of thought, couched in elegant language. She is a rapid speaker, but with a clear enunciation, so that she is always heard in large audiences and followed with interest to the end. Her address Thursday evening was on the student department of the Young Women's Christian association of Amerles, which embraces 358 college assoclations in which are 15,000 young women. Four secretaries are employed

in this field by the American committee, two spending their full time in the student work and the other two ussisting as called.

Besides these national workers for the student department, twelve state secretaries in eighteen state association, representing nineteen states, spending much of their time 11.1744 and giving much thought to the work for college young women. Three summer conferences are held, at Aaheville for the southern states; at Lake Geneva for the western states, and at Northfield for the eastern section.

perfect fit and style she has here- 8 ofore sought in other shoes.

meeting this situation with renewed zeal and report increase of membership. In most of the associations there is greater system and more care in de-tails, and that this is not labor wasted or undue use of machinery is evident from the fact that the associations most systematic and business-like in their methods are also blessed with most spiritual results,

DIFFERENCE IS MARKED.

The state secretary in her visits, as well as the state committee in the re-ports from associations, sees marked difference in those that sent delegates to Northfield. We also notice that those that regularly attend the state onventions are most successful. One offege president stated that the attendance of their students at our convention last year was worth more than weeks of study to the delegates and the institution. It is a source of grati-fication to see this spirit of commendation in the faculties, for it is a great help to the association to have the hearty endorsement and co-operation of the teachers. We believe it is equally a source of

benefit to the school and community to have a live Young Women's Christian association in their midst. We would like to make a plea for a little less crowding of studies, that students may have time for religious work and per-sonal acquaintance, for, as President Schurman says, "Half the education of a college coorists in that which stu-dents give one to another." Our edudents give one to another." Our edu-cation is not all in books, or even from teachers. It is character building we want, and that comes from our own thinking and doing, and especially from our thoughtful doing for others, not self, under the blessing of God. One new College association has been or-manized Beavar college at Beaver ganized, Beaver college, at Beaver. It is beautiful to think that all thes hundreds of young women in the col-leges of our state are banded together in this Christian sisterhood. There is

scarcely an hour in the day when some college Young Women's Christian as-sociation is not lifting its united prayer to the Father and sending out its thoughts for the young women of the world. In some there is the early morning prayer service, in others the noon prayer meeting, in many the afternoon Bible classes; almost every evening some association meeting in class-room, society hall or teachers' parlor. Some associations have a ves-per service, and others a good-night prayer meeting in the girls' rooms. Surely God will answer this volume of prayer and bless this earnest Bible searching, coupled as it is with consecrated personal effort.

WORK IN THE CITIES.

No less interesting is the work in the cities. We now have ten city associations; one new one was organized this year at Myerstown. The educational features of the association continue to hold an important place, and the in-dustrial classes grow more popular. The liberal gifts of interested ladies for the equipment of rooms for domes-tic science is highly commendable, and the determination to give scientific in-struction in these important branches a laudable ambition of the association. We hope the time will soon come when all can do so.

An encouraging advance has been made in the increased interest in the girls' branch. The importance of spe-cial effort for our young girls can not be overestimated, and we are glad to see that time and thought are being given to this matter. Over 600 mem-bers are reported in the girls' branches.

Last year we reported one associa-tion settled, in its own building: this year we are able to tell of another in its own home, where increased room gives opportunity for greater work and pleasanter quarters add to the interest .

Mrs. Alice Terry Wood, 515 Highland Street, Helena, Mont., writes:

"I can say to all that I believe Paine's Celery Compound a great medicine. I should have been in my grave if it hadn't been for that, and I can say to all that are tired and run down to try it and they will find relief at once.

"My trouble was general weakness, with no strength or appetite, and heart trouble. I have taken four bottles of it and feel like a new person. Now I have a good appetite, do all of my work, and feel well."

Paine's Celery Compound will reinforce weakened and irritated nerves. Nerve fibre is made and nerve force in-The liver, stomach and kidneys are kept in creased. in their association. Other associations have enlarged, not by adding to the main building, but by opening auxit- their share in the united work of the iary branches in distant parts of the city. Three associations now have such suburban branches and one of these state.

has three branches. We want to emphasize the great im-portance of the cordial support of all the associations in the carrying on of the state work, either by the systemate giving plan, by annual offering, by funds taken from the treasury, or by the proportionate giving recommended by the convention last year. Most of our college associations raised their amount last year and will no doubt do
