MR. WRIGHT'S STATEMENT.

Denies That He Is Responsible for the Shew and Eagan Continuance. Special to The Scranton Tribune.

Montrose, Nov. 5 .- The coming election promises to be lively here. The Democrats of the county have concentrated their efforts upon the attempt to defeat Samuel S. Wright, candidate for register and recorder. In addition to other campaign thunder, the Montrose Democrat in its last issue intimates that Candilate Wright has been working in the interest of Eagan and Shew, the condemned murderers, who have been respited several times by the

No subject could be introduced that would be likely to stir up more bitterness. The following statement, signed by Mr. Wright, fully covers the g and the charges made against Mr. Wright in the Democrat:

To Republicans: The Democrat in its last issue has atshameful manner, to place the responsibility for the continuance of the Shew and Eagan cases upon me, even going to the extent of dragging my little daughter into the case. The paper is always printed on Thursday but was held this week until late Friday afternoon in order that I should have no opportunity to reply in the regular manner before election. The Republican stopped its press and I was thereby enabled to make a reply which appears in that paper. I denounce those statements as false and only calculated

to injure me at the election. it is unnecessary for me to answer those statements specifically. I state unqualifiedly that I have written no letters favoring either a commutation or exe-cution of sentence. Neither have I attempted to influence any member of the beard of pardons by personal interview, by letter, or otherwise, nor have I either niked, or caused another person to do the same. This applies to the execution of the sentence, the commutation of the sentence, and postponement of the case by the board of pardons. Very truly, Samuel S. Wright.

Oscar Polner, of Mehoopany, was in town Saturday in search of a raft of logs containing about 10,000 feet of timber, which broke away from its moorings at the above place last Thursday. It is thought the raft was destroyed by striking one of the bridge piers along the river, as a number of logs have been seen floating down the river, which has risen about six feet during the past three days. Considering the high price of lumber at this time, the loss of the raft comes heavily on Mr. Poiner.

THE MARKETS.

Wall Street Review.

New York, Nov. 4-Since the surplus reserves of the New York banks fell to about a quarter of a million dollars in middle of September the professional traders in stocks have looked for a deficit in the required cash reserves of the banks almost every week. The wiping out of the surplus shown today was, therefore, not a surprise. The week's events made the stock market peculiarly vulnerable in spots and the slump in prices of a few stocks gave an appearance of demoralization to the market. Leather, especially, which touched 40 at the opening, and was above 39 when the bank statement appeared, slumped sud-denly to 25, the breaks between transactions reaching as high as three points. Marginal accounts in this specialty were wiped out right and left, and then the price was bid up again to 35, at which it closed. Sugar and Brooklyn Transit were also losers to the extent of over two points. A number of other prominent infustrials lost between one and two points, but the general list reacted only a frac-tion. There were some violent recoveries from the low level and the closing was feverish and greatly excited at not losses all through the list. The speculative excitement at net losses all through the list. The speculative excitement was increased by the fact that the bank statement was withheld until ten min-utes before the close of the trading. Efforts to close accounts in the short time remaining, made the market furlously active. The loss in cash shown by the statement is somewhat greater than was expected, which is doubtless brought over from last week's condition by the average system of computations. The trivial contraction in loans of less than a quarter of a million dollars can only be explained on the assumption that the whole sale calling of loans by the banks early in the week was offset by a subsequent very liberal extension of credits. The credits must be based on a faith of the backers. Current drain on their cash re-sources is so to be relaxed. The upward tendency of New York exchange at | No. 3 white do., 30 alle.
