

Godowsky. Knabe. Knabe

To Mr. Pennington, of the Scranton Conservatory of Music, to be the music-loving people of Scranton, owe many thanks. In securing this great pianist for our enjoyment, he furthers the cause of good music and brings within our reach the possibility of a better understanding of the classics.

Godowsky plays the Knabe.
Other eminent pianists, such as Von Bulow and Sauer, have used the Knabe piano, and are delighted with its beautiful tone.

Do you know this Piano?
It is the best of all good Pianos. No other can surpass it either in the quality of tone or the workmanship. Call and see this fine line of Pianos at our Warerooms, 205 Wyoming Avenue.

Fine catering a specialty. Fresh varieties of fancy groceries and smoked meats, Salmon, Sturgeon, White Fish.

BONDHOLDERS ASK FOR A RECEIVER

CARBONDALE TRACTION CO. DEFALTS ON ITS INTEREST.

Real Estate Trust Company of Philadelphia Acting for Itself and Holders of \$299,000 Worth of Bonds Petition the Lackawanna County Court to Appoint a Receiver to Take Charge of the Road and Manage Its Operation—Other Doings of a Day About the Court House.

Suit was begun yesterday by the Real Estate Trust company of Philadelphia to have a receiver appointed for the Carbondale Traction company. The petition was argued by the trust company's president, Frank K. Kippie, and presented by Willard, Warren and Knapp.

The petition recites that on July 30, 1922 before consolidating with the Carbondale Traction company, the Forest City Passenger Railway company gave a deed of trust to the Central Trust company of New York to secure an issue of \$150,000 worth of first mortgage bonds. The consolidation was effected March 5, 1926, and on June 1 following the consolidated mortgage bond rate of 5 per cent. consolidated mortgage gold bonds in the sum of \$450,000 and gave a deed of trust to secure the same to the Real Estate Trust company of Philadelphia, the plaintiff in the present case.

Of this consolidated issue the sum of \$150,000 was set aside to pay the \$150,000 first mortgage bonds issued by the Forest City Passenger Railway company. The interest on the remaining \$300,000 worth of bonds was payable semi-annually and if it remained unpaid for six months the trust company was to petition the court for appointment of a receiver. The petition of the bond holders, represented all but \$100,000 of the \$300,000 have petitioned to have the trust company take charge of the road. The petition of the trust company asks that court appoint a receiver with power to take charge of the business of the road and manage its operation.

BOROUGH COUNCIL MET.

Fathers of Archibald Considered a Plan of Ending Trouble With Scranton Traction Company.

A special session of the borough council, of Archibald, was held last evening for the purpose of settling the differences between the borough and the Carbondale Traction company. Attorney R. J. Bourke, Superintendent Flynn and all the councilmen except Mr. Munley were present. Mr. Bourke told of an interview he and Mr. Burns had with General Manager Silliman in which the latter was willing to meet the borough half way. Mr. Bourke suggested that the council frame demands to be incorporated in an ordinance which he would submit to the Traction company.

After adjournment the council discussed at length and without passing the sections of an ordinance Mr. Bourke had prepared. The changes were as follows: That the company maintain a twenty-four foot driveway on one side of the track where the track is laid on the side of the road; that planks be laid inside and outside the rails and cobble-stone filling be placed at street crossings; that the track be laid at grade; that sluice-ways be placed at different points within the borough limits; that fences be maintained beside the track on the northern end of the borough; that the track be moved near the river when the abutments at place B are removed; that one fare be charged within the borough limits.

NEW CATHOLIC DIOCESE.

Vicar General Garvey, of Pittston, Hinted at as New Bishop.

It was decided at the last meeting of bishops to form a new Catholic diocese in this state owing to the largely increasing Catholic population and the consequent increase in the duties of several of the heads of existing dioceses. The new diocese will be formed from a number of the parishes now under the jurisdiction of the bishops of Pittsburgh and Harrisburg. It will comprise the counties of Cambria, Huntingdon, Somerset, Bedford, Blair, Centre, Clinton and Fulton, with the city of Altoona as the seat of the new bishop. Speculation is rife as to who the new head of the diocese will be. Among those mentioned is the probable new bishop is Very Rev. Eugene Garvey of Pittston, the vicar general of this diocese.

RENOVATING POSTOFFICE.

The work of renovating the government building is being rapidly pushed along and a large force of men is daily engaged there. The work being done is very thorough, every bit of wood in the entire building being scraped before being varnished. The heretofore white walls are being painted a deep cream color, producing a warmer and more attractive effect than the white walls.

Free Hotel and Boarding-House Directory.

The Lackawanna Railroad is preparing to thoroughly advertise all the cities and towns along its lines with the purpose of inducing travel to these points. In connection with such advertising it proposes to issue a complete directory of hotels and boarding-houses in each of the towns along the line. No charge will be made to any hotel or boarding house for inserting its name in this publication, and it is desired that the name of every hotel and every person who now takes boarders, or may desire to do so, shall appear in its pages. Proprietors of all such houses are requested to call upon the agent here, and leave with him information regarding the location of houses, and other information which it is desired to incorporate in the proposed directory.

Come.

Come to the opening of the Great Receiver's sale of the entire stock of the New York Bankrupt Clothing, Shoe and Hat company's stock. Entire stock must be closed out at once and be turned into cash to satisfy the creditors. Opening Thursday, Nov. 16th, at 9 o'clock sharp. All come.

Try a "Hotel Jermyn" cigar, 10c.

PATIENCE, THY NAME IS WOMAN.

The patience of women is proverbial, and it argues a patience almost more than human which enables them to endure so much pain and suffering, which the joyful experience of their happier sisters ought surely to induce them to escape from.

"I suffered from female sickness for fifteen years," writes Mrs. A. C. Scott, Le Roy, Colo., "suffered untold agonies—doctors could not give me any relief. A lady friend told me to get Warner's Safe Cure. I got a bottle and it helped me right away. I have taken six bottles and my health is better than it has been for twenty years."

And Mrs. L. B. Smith, of Ballston Spa, N. Y., after recounting how she was almost providentially led to the use of Warner's Safe Cure, thus recounts the happy results: "My nervousness is all gone. I am able to do lots of work and am cheerful, for I can now say what I could not at one time, that is, that everything looks bright and life is worth the living."

Use Warner's Safe Cure. It will restore the rose to your cheek, and the brightness to your eye, and will make you what you were intended to be, a helpmate to your husband.

REASON FOR IT.

Star gazers say that this is due to the fact that the procession of meteoroids, whose destruction produces the rain of light, takes so long a time to pass a given point that the earth can run through them and wheeling along on its 600,000,000 mile journey strike the procession again on the next circuit. Some are far ahead of the procession and were seen last year. The parade numbers thousands of millions of meteoroids and so strung out are they that while the earth runs across them a distance of about 100,000 miles in a few hours, twelve months or more does not seem an end of them.

A comet leads the procession, one seen only in telescopes and preceding the procession at some length. It was only at the last appearance of Leonids that this advance guard was put down as a member of the procession, two astronomers learning that the orbit of the meteoroids is that of Tempel's comet of 1867 coincide more or less in all particulars.

GRAINS OF COSMICAL DUST.
The meteoroids, whose brilliant destruction are the cause of the display are particles said by scientists to be grains of comical dust, the size of pin heads, grains of shot or small bullets. These are traveling about twenty miles a second in opposition to the earth's motion of eighteen miles and striking the earth's atmosphere at a relative speed of forty-four miles a second, the friction heats the particle to combustion point and it disappears into flame.

No dust from comets showers, so far as is known reaches the earth, although aerolites have at other times often fallen. Some scientists hold that the particles came originally from a broken up asteroid, others from the earth, thrown out from it in violent volcanic action. At any rate, they were whirling through the heavens, so the astronomers say, bound for the infinite space, when they flew too near the planet Uranus, who seized upon them and drew them from their straight course into the ellipse which for seventeen hundred years they have followed.

The progress of the years, we are told, will destroy the brilliant periodic shower of fire. Each of the myriads of meteoroids moves at its own pace through the heavens and while the faster gain ground, the slower fall behind until eventually the two ends of the procession will meet and each year the earth will run through the never ending procession and celebrate a stellar Fourth of July which will gradually decline in display.

COURT HOUSE NEWS.

George Smith was yesterday discharged under the insolvency laws. A rule for a decree was yesterday granted in the Hunter divorce case. December 15, 1929, at 9 o'clock a. m. was fixed by court yesterday as the time for hearing the John Bennett insolvency case.

Constable Ira Mitchell's appointment of W. S. Bartlett as deputy constable of the Ninth ward was yesterday approved by court.

In the case of John Benore against B. E. Leonard, the rules previously stricken off are reinstated and the case ordered to be placed on the next argument list.

The will of Caroline R. Maynard was admitted to probate yesterday and letters testamentary granted to George N. Maynard. Fifty dollars each in bequeathed to the two grand-children of the deceased and the remainder of the property goes to the husband, and after his death to the children.

The equity case of the Scranton Dairy company against Oscar Mayo was yesterday discontinued by order of the plaintiff. The suit was brought to restrain Mayo from entering the milk business, having sold out to the Dairy company with an agreement not to go into the milk business again.

HE MAY HAVE TO RETIRE.

General Regret Over the Illness of Judge F. W. Gunster. It is with painful regret that the legion of friends and admirers of Judge F. W. Gunster learn of the serious throat affliction which is feared will incapacitate him to such an extent as to enforce his retirement from the bench. As a man and a judge he is admired by every one who knows him, and they who know him best admire him most.

About the court house where the matter forms a topic of general discussion, nothing but the warmest expressions of sympathy and good wishes are heard, and should it so happen that he would be unable to continue on the bench, it would be the lawyers and court officers who would regret it the most.

METEORIC SHOWER IS NOW OVERDUE

WAS BILLED TO APPEAR SURELY BY THIS MORNING.

No Sign of It, However, Was Visible in These Parts Up to 2.30 O'Clock—Not Unlikely That the Shower Occurred and Was Obscured from View in These Parts by the Dense Clouds Which Hung Continuously Over Us—Some Interesting Information.

Another night of "rubbering" and still no meteoric shower. There may have been a shower and the astronomers who predicted it for last night can safely assert there was, for it might have been obscured by dense clouds. Instead of meteoroids and no one would have been the wiser of it under any empyrean dome that covered us, so dense were the clouds that continually hovered over these parts.

There are several elements of uncertainty about the time of the coming of the shower. It may come a little earlier or later than Nov. 14-15, the astronomers have said, and some unknown effect of the planetary pulls may so distort the motion of the swarm that it may decline to put in an appearance at all this year. If so, the astronomer is quite certain that he will see the display in the last year of the present century—November, 1950.

The meteoroids of this tri-centennial shower appear to radiate from the constellation of Leo, "the Lion," which first appears just a little east of north. From this point of radiance, the members of this shower take their name, the "Leonids." Previous to the last appearance, the shower was predicted for 1866. On November 14 of that year, a brilliant display was seen in Europe and on the same morning in the following year America witnessed a display about equally brilliant.

REASON FOR IT.

day morning made a remark to his sister about making a trip to Michigan. He was 49 years old and was well known and respected on the South Side, where he has lived since childhood, with the exception of a few years when he worked in Michigan. Two sisters, Mrs. James McCormack of Stone street, and Mrs. John Pfaff of Birch street, survive him.

REFUSED A FRANCHISE.

Application of New Trolley Company Rejected by Wilkes-Barre. At Tuesday's meeting of the Wilkes-Barre city council the application of the Wilkes-Barre, Pittston and Scranton Railway company for a right of way over certain streets was refused. This is the company that proposed building a double track trolley road from Wilkes-Barre to Scranton.

EMBEZZLEMENT IS CHARGED.

W. H. Ogborne, of Carbondale, Placed Under Arrest. A warrant was sworn out before Alderman Miller, Tuesday, by J. B. Ludlum, manager of the Great Atlantic and Pacific Tea company. In it he charged W. H. Ogborne, of Carbondale, with embezzling funds to the amount of \$104.65. The warrant was served by Constable M. Moran, of Carbondale, on Ogborne.

The latter waived a hearing before Alderman Baker, of Carbondale, and was held in \$500 bail.
