To Mr. Pennington, of the Scranton Conservatory of Music, to we, the music-loving people of Scranton, owe many thanks. In securing this great pianist for our enjoyment, he furthers the cause of good music and brings within our reach the possibility of a better understanding of the classics.

Godowsky plays the Knabe. Other eminent pianists, such as Von Bulow and Sauer, have used the Knabe piano, and are delighted with its beautiful tone.

Do you know this Piano? It is the best of all good Pianos. No other can surpass it either in the quality of tone or the workmanship.

Call and see the fine line of Pianos at our Warerooms, 205 Wyoming Avenue.

#### CAUGHT BETWEEN TRAINS.

Byron Diney, of Moscow, a brakeman on the Delaware, Lackawanna and Delaware railroad, while jumping off his car at the round-house, yesterday, was caught between two cars and badly hurt, being severely lacerated and having his left arm broken. He is a man of 41, and married. He was taken to the Moses Taylor hospital.

#### DIAGRAMS OPEN.

The diagrams of reserved seats for the two great concerts by Godowsky and Knabe, under the auspices of the Conservatory of Music, were opened at 10 o'clock Saturday morning at the conservatory. A large number of seats have been marked off for students of music and others. Those who have purchased tickets but have not exchanged them for seat checks should do so at once to insure choice seats.

#### THEFT IS CHARGED.

W. T. Robinson, of South Washington avenue, appeared before Alderman Howe yesterday and swore out warrants for the arrest of George and Nettie Williams, whom he alleges boarded with him from Sept. 1 to Nov. 15, and then departed, owing him a bill for about \$100. He says that everything they could lay their hands on, from an elegant overcoat down to a bath-towel, the accused were arrested and committed to jail.

#### CHESS CHAMPION.

H. N. Pillsbury, the American chess champion, and one of the finest checker players of this country, will be at the Young Men's Christian association, Guernsey building, Washington avenue, today, at 3 o'clock, for a chess match in either chess or checkers to be present at the exhibition. In the afternoon Mr. Pillsbury will play twelve games of chess or checkers at the same time without looking at a board.

#### RUDDY DISCHARGED.

Alderman Miller yesterday tried the case of M. J. Ruddy, charged by Gustav Schmidt, with selling liquor without a license and selling to minors. Schmidt was Ruddy's predecessor in the State house on Penn avenue. Attorney C. H. Soper appeared for Schmidt, while Ruddy was defended by Attorney J. Jordan. The Alderman decided that the evidence for selling on Sunday was not sufficient to hold Ruddy, and he was discharged, inasmuch as the action for selling without a license was once before the grand jury.

#### RUN AWAY FROM ST. PATRICK'S.

The small boy who has been in police custody for the last two days, was yesterday identified by Mrs. Duggan, agent of the board of associated charities. The boy was found on Lackawanna avenue, Saturday night, by Patrolman Karlus, and was taken to police headquarters. His story that he had come up from Wilkes-Barre on a freight car and had run away from home. He is a runaway, but it is from St. Patrick's orphan asylum. The little fellow, whose name is Heffern, was given into Mrs. Duggan's care and she returned him to the orphanage.

#### COMMITTED TO JAIL.

Alderman Miller committed H. W. Howard to jail yesterday morning in default of \$100 fine. Howard, who is manager of the New York Bankrupt Clothing Store and Hat company of 221 Lackawanna avenue, was arrested Saturday at the instance of Chief of Police Robling on the charge of violation of a city ordinance. He then gave bail before Alderman Howe to appear before Alderman Miller yesterday morning. Judge Archbald later yesterday released Howard from jail on \$300 bail on motion of John P. Kelly, who made affidavit to the fact that Howard is a transient merchant, doing business at the former stand of Broome's Dry Goods, and furthermore that he has been there the past six months.

#### CONVENTION OF DOLLARS.

Scranton is often called the "City of Conventions," and the next gathering of strangers to take place in our city will be that of 200 dolls of all nationalities, who will make the Keystone building, 229 Spruce street, their headquarters during their stay in town. Delegates from all over the world will be present, and the convention may be visited from 10 to 11 a. m. on Thursday, Friday and Saturday of this week. An admission fee of 25 cents for the children, and the convention will be charged, and all the proceeds above the expenses will go to the Scranton Free Kindergarten association. The dolls have been graciously offered to the Free Kindergarten association to help carry on the Kindergarten work among the poor children of the city.

### ANOTHER CASE OF MISTAKEN IDENTITY

#### ELLSWORTH AND EHEN DAVIS ONCE MORE GUESS WRONG.

#### Signature That They Positively Identified as That of Benjamin Hughes Is Declared by Court to Be a Forgery—Four Important Opinions by the Local Judges—Decree of Adoption When Once Legally Made Cannot Be Revoked—Mechanics Lien Law Discussed.

Four opinions dealing with important questions were rendered at the opening of the second week of the November term of common pleas court yesterday morning. Three were by Judge Archbald and one by Judge Gunster. The last opinion was handed down by Judge Archbald for Judge Gunster, the latter being ill at his home.

In the opinion handed down by Judge Gunster the bill is dismissed in the equity case brought by Daniel R. Watkins and others to enforce a claim to a half interest in the Clark tunnel, a mine opening in the Third ward leased from the Delaware, Lackawanna and Western company and operated by Benjamin Hughes.

The plaintiffs are heirs of Thomas E. Watkins, deceased. They aver that the deceased was a half owner in the leasehold and sought to prove this with a paper purporting to be an assignment and bearing the name of Mr. Hughes. The principal witnesses, repudiated the assignment and branded the signature as a forgery. Watkins, he said, was simply engaged as manager of the colliery at a salary equivalent to half the net proceeds.

#### DAVISES WERE WRONG.

Judge Gunster finds that the contention of the defendant is correct and dismisses the bill at the cost of the plaintiffs. The principal witnesses for the plaintiff were T. Ellsworth Davis and Eben P. Davis. They positively identified the signature in question as that of Benjamin Hughes.

Four years ago Michael Walter, a resident of this county, was allowed by court to adopt Paulina V. Kelper, minor child of Jacob D. and Mary Kelper. Recently the wife of Mr. Walter, the adopting father, deserted him, eloping to Indiana with a traveling partner and taking the child with her. Mr. Kelper, the maternal father, upon learning of this, followed the elopers, regained his child and now has her at his home in Altoona. Setting forth these facts, he petitioned court to have the decree of adoption annulled and the child restored to her former status as his own daughter.

This, Judge Archbald declares, can not be done. Where a decree of adoption has been obtained by mistake, misrepresentation or fraud, there is no valid consent has been given, where, by reason of the non-residence of the petitioner in the county, the court has no jurisdiction to make the decree. It may without doubt undo what it has done and enter a formal order of revocation. In one instance the proceedings being tainted by it and the court has the inherent right, as in other cases, by revoking the decree, to balk the fraud perpetrated upon it.

#### TRUE IN A DEGREE.

The same is true, in a degree, where it is based on a mistake. So, also, where the decree of adoption has no legal force, because there was no consent, or the court had no jurisdiction over the parties, it may expressly undo what it has assumed to do, by an order annulling its action and restoring the parties to their original relation.

"But beyond this," Judge Archbald goes on to say, "we do not see our way to go. The proceedings are statutory and we have no power, without the statute has not directly or by necessary implication conferred. When the adoption of a child has been duly and regularly decreed our authority over the proceedings are at an end. The statute makes no provision for a reconsideration or modification of the judgment upon new contingencies and there is nothing from which the power to do can be so implied. The paramount interests of the child do not form a continuing consideration which can be invoked and appealed to at any subsequent stage so the basis of what amounts to a new decree setting aside the first one. It may be that there ought to be some such remedy vested in the courts as there evidently is in some other states, but in this state, our powers stop where the statute leaves them, and we cannot extend them beyond."

#### NO NEED OF REVOCATION.

In a case of this kind the Judge remarks there is no great need of revocation. The relation between Mr. Kelper and his daughter exists despite the adoption of the child. Mr. Walter, she will inherit from him and he from her. The changed name remains, but for all practical purposes it makes very little difference to the parties whether the decree continues in force or is revoked.

#### IN THE CASE OF MASON & SNOWDEN AGAINST MARGARET S. KENNEDY.

Judge Archbald directs judgment for \$23.45 to enter in favor of the plaintiff on a reserved lay point, notwithstanding the jury's verdict in favor of the plaintiff.

The decision depended on the construction of the act of May 18, 1887, P. L. 118, which requires that to make a lien effectual for work done or materials furnished in the repair of a building notice must be given to the owner or reputed owner of the property of the intention to file a lien "at the time of furnishing the materials or performing the work in and about the repairs, alterations, or additions." The act is very crudely drawn. Judge Archbald says, but it is plainly stated that notice must be given "at the time" the work is done or materials furnished and this must be construed to mean what it says.

#### WHAT JUDGE ALLOWED.

In the present case the plaintiffs sought to recover on the strength of a note given after all but a small fraction of the materials were delivered. Judge Archbald only allows judgment for the amount of the materials furnished after the notice was given.

materials furnished after the notice was given. The point reserved reads as follows:

#### "The mechanic's claim in suit being for materials furnished, in and about the repair and alteration of the building described in the lien, and the undisputed evidence being that the plaintiffs gave no notice of their intention to file a lien until July 17, 1897, but did give such notice at that time (which was during the progress of the work) that before that time materials to the value of \$173.73 had been furnished, and that materials to the value of \$23.45 were furnished afterwards, and that at the time said notice was given no payments had been made by the defendant, who was the owner of the building, to the contractors, Geblin & Jagger, who were making the repairs."

"The question of law is, thereupon, reserved, whether the plaintiffs are entitled to recover the full amount of their claim (\$173.73 with interest) as found by the jury, or only for \$23.45, with interest from Aug. 2, 1897, when it became due, with leave of the court to enter judgment for either, according to what it is decided is warranted by the law."

In the certiorari case of John G. Thompson against the Crystal Lake Water company, Judge Archbald reversed Alderman W. R. Baker, of the First ward, in his judgment in judgment "for \$5 rent" because he failed to specify what the rent was for and how the defendant was liable.

### JOINT CONFERENCE TONIGHT.

#### Councilmen Will Meet to Discuss Matter of Purchasing Hose.

The joint conference committee appointed by resolution to confer and make a recommendation regarding the purchase of fire hose will meet this evening in the office of the city clerk and endeavor to definitely settle the matter.

It will be remembered that several members of the joint fire department committee signed a majority report recommending the purchase of 1,200 feet of cotton hose at 75 cents a foot and 600 feet of rubber hose at \$1 a foot. The minority report, on the other hand, recommended the purchase of 1,200 feet of cotton hose, in order that it might be given a fair and square trial. He said that when cotton hose was tried before there were no adequate facilities for taking care of it and it accordingly did not receive a fair trial.

The chief says that he examined the sample and that he is confident it will last as long as rubber hose, if given proper and thorough care. He said that if the 1,200 feet were purchased, he would place it all in the Nay Aug hose rooms, leaving 600 feet always in the wagon with the other 600 feet being dried in the drying tower. The fact that the cost of the hose is one quarter more than the other he affirms would allow one quarter as much more to be bought for the same price as a given quantity of rubber hose.

The chief says that drying towers are of no avail if each company has a separate drying tower. The cotton wagon prepared for an emergency while the other is being dried. He is determined to keep the members of councils alive to this fact and all future purchases of hose will be applied by him for this purpose.

### TO REMODEL HOSE HOUSE.

#### Changes Proposed at the Quarters of the William Connell Company.

William Connell and company, owners of the William Connell hose house on Pittston avenue, have notified their intention of making an addition to and entirely remodeling the building, providing the council will direct the mayor to sign a lease on the part of the city for a term of five years, at an annual rental of \$600 or \$50 a month.

The plans for the proposed changes were placed in possession of Mayor Moir yesterday and provide for a building which, when completed, will undoubtedly be as fine a hose house as there is now in the city. The addition to be built to the present building will be about fifteen feet long and will run back the entire length of the building. This will give ample room for another piece of fire apparatus if such should ever be purchased and for a number of extra sleeping rooms and other apartments.

In addition to this the owners propose to construct a large drying tower in the rear of the building and a wash rack for hose in the basement. Chief Walker says that these will be of sufficient size to care for all the hose in South Scranton.

The mayor and chief are very favorably impressed with the idea and think the rental very moderate. A resolution such as desired by the company will accordingly be introduced in common council on Thursday evening.

### FIRE IN A TENEMENT.

#### Child and Matches Supposed to Have Caused the Blaze.

About 4 o'clock yesterday afternoon fire broke out in a two-story frame building in Raymond court, north of Mulberry street, the property of Gus Mulberry and Frank Roth. The chemical engine, the Crystal and Nay Aug companies and the hook and ladder company were all present soon after the blaze started.

The house was directly in the rear of Gus Roth's home on Franklin avenue and is used as a tenement. Rev. Druck and family, together with his father, occupy one side of the house, while the up and down stairs of the other side are occupied by the families of Burg and Zemanow. The fire started upstairs in a clothes closet in Rev. Druck's apartments.

His 3-year-old son was playing in the closet and probably set fire to some clothes which were in it. The company workers had no time to get there although it spread to the roof, managed at last to gain control of it. None of the families were injured, and suffer severely by the fire.

Gus Roth estimated the damage to be properly at about \$1,500 and said it was covered by insurance.

### CONFERENCE OF THE BAPTISTS

#### SESSION HELD LAST NIGHT IN PENN AVENUE CHURCH.

#### The Meetings Are Held for the Purpose of Giving an Insight Into the Workings of the American Baptist Publication Society—Address Last Evening by Rev. R. G. Seymour, of Philadelphia and an Illustrated Lecture by W. K. Krips—Sessions Continued Today.

The first session of the educational conference on the work of the American Baptist Publication society, arranged by Rev. R. F. Y. Pierce, of this city, was held last evening in the Penn Avenue Baptist church, of which he is pastor, and was attended by an audience which completely filled the large auditorium of that building.

The American Baptist Publication society publishes and controls the sale of all the Baptist literature issued from the presses of this country. In addition to this it does the home missionary work of the Baptist denomination in this country, and is also a sort of general clearing house for the literature of the world. A number of the heads of the various departments of the great association are now in this city and the program of the educational conference is to give the Baptists of Northeastern Pennsylvania an opportunity of hearing from the lips of these men the story of the great work the society is accomplishing.

#### DR. GATES PRESIDED.

At last evening's meeting Dr. L. M. Gates acted as presiding officer and introduced the various speakers. The evening's program was opened with an organ voluntary by Prof. Haydn Evans. Rev. S. G. Reading, of North Scranton, then gave a scripture reading from the Acts of the Apostles on the descent of the Holy Ghost.

Rev. R. F. Y. Pierce then extended greetings on behalf of the Penn Avenue church to those present from the other Baptist churches and to the association workers, who are to address the sessions today. He expressed the hope that the meeting would be of great spiritual benefit to those who attended.

The choir sang the "Hallelujah" chorus in a splendid manner, after which Rev. R. G. Seymour, D. D., of Philadelphia, the missionary and Bible secretary of the society, delivered a brief address.

Dr. Seymour spoke interestingly of the amount of Bibles and religious literature issued by the society and the great work it does by this means to save souls to God. He referred to the fact that the Bible is now printed in 400 languages out of a total of 2,854 languages and dialects spoken throughout the world, showing that there is yet a vast field of work for the Christian people of the world to do in spreading God's truth to the ends of the earth.

He told in an eloquent manner of the great influence wielded over the Christian church by the life of the little child and of the necessity of taking care of and teaching the young to follow in the footsteps of Christ. Regarding this matter he said that the publication society had been instrumental in the raising of the standard of child labor by establishing upwards of 10,000 Sunday schools throughout the land. In this connection the doctor also spoke of the advantages to be derived from having Sunday school teachers taught how to teach the truths of the Gospel.

### AN ILLUSTRATED LECTURE.

Mrs. Brundage then sang "The Holy City" in an especially charming manner. In fact, so well did the audience forget for a moment that it was in a church and applauded loudly. She was followed by W. K. Krips, of Philadelphia, who gave a profusely illustrated address on "Nineteenth Century Missionary Methods, or the Gospel Hatched to Steam." Mr. Krips has direct charge of the various book stores controlled by the society in different sections of the country and his address was a practical talk on the work accomplished by the gospel cars sent by the society.

The first pictures shown were excellent views of the society's magnificent building, located at 1429 Chestnut street, Philadelphia, and considered by many to be the handsomest office building in the country. It is built on the site of the old building, which was completely destroyed by fire in 1856. The structure in twelve stories high and 69x275 feet in size. The society also has a separate printing establishment in Philadelphia which, outside of the government printing establishment in Washington, is the largest and most complete in the country.

Views were then shown representing the gospel cars, of which the society has nine in active service. These are extra large railroad cars handsomely furnished like a small chapel and occupied by regularly ordained Baptist clergymen. These are transported over the various railroad lines to remote sections of the country, where Christian work is done by those in charge.

### THE MISSION CARS.

The views shown last evening showed the cars in service among the Chinese in California; among the Pueblo Indians in the same state; among the silver miners in Nevada; among the Mexicans in the southern part of Texas and among numerous other people not afforded facilities for regular church attendance.

The sessions of the conference will be continued all day today, in the morning, afternoon and evening. The local Baptist clergymen will contribute a share of the morning's program and addresses will be made during the day by Rev. Philip L. Jones, D. D., Rev. O. F. Phipps, D. D., Rev. C. R. Blackall and Rev. R. G. Seymour, of Philadelphia, and by Rev. John H. Harris, LL.D., president of Bucknell university.

### OBITUARY

Isaac Richards, one of West Scranton's best known citizens, passed away last evening at about 10:30 o'clock at the home of his daughter, Mrs. Joseph Reese, on North Lincoln avenue. Mr. Richards was stricken with paralysis about two weeks ago, and his death resulted from this cause. The deceased was born in Wales sixty-five years ago and came to this country in 1834. He first went to Maryland, where he engaged as a farmer, and later lived in Schuylkill county, where he became interested in the coal business. He came to Scranton and took up his residence on Keyser avenue. He represented the Twenty-first ward in common council about fifteen years ago. Of late years

### APPEAL TO THE COURTS.

That Will Be the Course of the D. & H. About Penna. Street.

It is very probable that the Delaware and Hudson Railroad company will begin a suit in equity against the city to recover damages for the forced laying of the crossing across its tracks at Penna. street on Saturday afternoon. Ex-Judge Joseph, the company's attorney, when seen yesterday would not admit this, but seemed greatly incensed at the summary order of the mayor, when, he said, it was understood that an amicable adjustment of the difficulty was about to be consummated.

City Solicitor Vashburg stated yesterday that in case such an action was brought that the city's defense would be that of prior right to the disputed land, Penna. street having existed on both sides of the street since 1893, when a sewer was constructed on it under the Delaware and Hudson tracks and thence to the river.

No attempt was made yesterday to disturb the crossing.
