LIVE NEWS OF THE INDUSTRIAL WORLD

SUBSCRIPTION BOOKS FOR NEW TIN PLATE FACTORY.

They Will Be Opened on Monday in the Board of Trade Rooms by L. K. Torbet — Board of Lackawanna Trains for Today—A. M. Dimmock, of Wilkes-Barre Has Patented an Automatic Railway Switch. Meadow Brook Silk Mill to Re-sume.

The subscription books for the company to be organized to build and operate the new tin plate factory, of which J. K. Torbet, of Chicago, is the promoter, will be opened on Monday in the board of trade rooms by the latter gentleman. The manufacturers com- mittee of the board of trade held a special meeting yesterday afternoon in conjunction with Mr. Torbet and the final arrangements for the opening of subscriptions were decided upon.

It is the general consensus of opinion among the members of the board of trade that never before in that body's history has the outlook for the final establishment of a proposed industry been so favorable.

Mr. Torbet, when seen last evening, was especially enthusiastic. He said: "I have looked over all the plots of land on which we hold options and I think that the West Side sites are as favorable as any, if not more so. The people of this section of the city, I am told, have long been crying for an in- dustry. Here is their chance now, but in order to secure the factory it will be necessary for them to come up with liberal subscriptions of stock, and to come to the front handsomely."

"The company is to be capitalized at \$250,000 instead of \$200,000, as at first proposed, and the chances of securing this amount seems to me to be about as favorable as they can possibly be. Large subscriptions from \$25,000 down, and there will be several of these, will be received first and it is proposed to secure the remainder of the stock by popular or small subscriptions, allow- ing the public at large to have an in- terest in the industry."

It is generally known that between \$50,000 and \$100,000 is already in sight, which fact would tend to bear out the sanguine prophecies of the members of the board of trade.

It is to be hoped that councilmen will attend to having at least one of these streets opened before the snow flies, as it places the workmen who are employed at the South mill and live above Pittston avenue in the vicinity of these streets at a great incon- venience. They will have to walk either to Fize or Genet streets to reach Cedar avenue.
