Knabe. Knabe

To Mr. Pennington, of the Scranton Conservatory of Music, to we, the music-loving people of Scranton, owe many thanks. In securing this great pianist for our enjoyment, he furthers the cause of good music and brings within our reach the possibility of a better understanding of the classics.

Godowsky plays the Knabe.

Other eminent pianists, such as Von Bulow and Sauer, have used the Knabe piano, and are delighted with its beautiful tone.

Do you know this Piano?

It is the best of all good Pianos. No other can surpass it either in the quality of tone or the workmanship.

Call and see this fine line of Pianos at our Warerooms, 205 Wyoming Avenue.

FOOT BALL GOSSIP.

The practice of the St. Thomas College football team last evening was the fastest signal practice ever seen in Scranton. It was full of ginger from start to finish and every man got into the play. The Villa Nova men, who are coming up with the avowed intention of giving odds of two to one on their team, may run against a higher surprise party than Harvard encountered when it met Yale, or Yale did when it went up against the Princeton tiger. St. Thomas is playing harder, faster and fiercer than ever before in her history. Every tackle is made with a viciousness that means business, and every run and line buck is made with a determination and dash that nothing short of marvelous defense can stop.

Every man on the team and every substitute is in the pink of condition, and this means that Villa Nova will have to keep on edge all the time in order to be the game at all.

The game will be called at 3 p. m. on Thanksgiving day. Admission will be only twenty-five cents. A rope fence and a large number of police officers will keep the field of play absolutely clear.

Parties holding tickets since last Saturday's game will have a last chance tomorrow to have them exchanged at the college for others good on Thanksgiving day; otherwise they will not be able to witness what promises to be one of the greatest contests ever seen at Athletic park.

Athletic park yesterday presented a busy appearance. All over the field were scattered players, coaches and enthusiastic rooters for the eleven. The St. Thomas college men were on the field, presenting a striking appearance in their new foot ball suits and looking formidable enough to eat up any team in the county. Their first team lined up against the scrub eleven and was given a hard and thorough practice. A new face seen on the team was that of Tom Hannabue, the former School of Lackawanna player. He played left guard and may be stationed in that position in tomorrow's big game with Villa Nova. This contest promises to be one of the most interesting games of the season and was undoubtedly aroused great enthusiasm and expectation. The Villa Nova's star players are familiar figures on the Scranton gridiron, being Captain Nallin at end, Joe Weir at quarterback and M. Munloy at tackle. All of these are old St. Thomas men. Thomas, however, is getting good hard practice and will give the college boys a lively time to defeat them.

In another section of Athletic park, the Scranton High school champions were indulging in a heavy practice, preparatory to Thanksgiving's game at Binghamton. The boys, together with a large number of the team's rooters, leave Scranton, Thursday morning about 9 o'clock, via the Delaware, Lackawanna and Western, Manager Horan arranging the terms with all who wish to accompany the eleven. John J. Murphy was on the field yesterday and gave the boys the benefit of his advice, coaching them on both defensive and offensive tactics. The scrub team lined up against the regulars and gave them the most severe practice that they have yet experienced. Harry Vaughan, the regular's right end, played in the scrub yesterday and caused much enjoyment to the onlookers by downing his opponents with a frequency and violence which was appalling. Jim Horan was also on the field in foot ball togs, and played with the regulars. The scrubs all played a fine game and it is more than likely that next year's High school team will find several of this year's second eleven, in regular positions. The High school is displaying good form and ought to win on Thanksgiving as they will put a very strong team in the field.

No. 33 school foot ball team would like to play the Dunmore High school second team on the morning of Nov. 29, at 9 o'clock, on the No. 9 school grounds. Answer in The Tribune, Joseph J. Campbell, manager.

Two Ways for the Cost of One.

To enable those who may desire to celebrate Thanksgiving Day by an interesting journey, the Lackawanna Railroad has arranged to run an excursion to Niagara Falls and return at an exceedingly cheap rate. The trip will be one fare for the round trip. Tickets will be sold at this point on November 29th and must be used on trains leaving before midnight of that day. Holders of these tickets will be only one mail delivery in the morning. The registered letter and money order departments will be closed all day while the stamp and general delivery windows will be open from 9 a. m. to 12 noon.

WILL FILE AN ANSWER.

No Testimony Taken Yesterday in the Big Railroad Equity Suit at Milford, Pike County.

There was a great array of counsel in the little borough of Milford, Pike county, yesterday, where the equity suit of the Erie and Wyoming Valley Railroad company against the Erie Railroad company was set down for a hearing before Judge Purdy. This is the first step in the big legal battle that will be fought to prevent the construction of the Delaware Valley and Kingston railroad.

Nothing was done yesterday in the way of taking evidence. The defendants were given time to file an answer and the whole case will be decided upon final hearing. In the meantime the injunction to remain in force.

The following counsel was present at yesterday's hearing: For the plaintiffs, Thomas G. Sherman and J. A. Garver, of New York; C. W. Bull and H. T. Baker, of Milford; Homer Greene, of Honesdale; A. T. McClintock, of Wilkes-Barre; and James H. Torrey, of Wells and Torrey, of the city. For the Erie Railroad company, C. A. Battenberg, of this city, was stenographic reporter at the hearing.

ARMY LIFE ON ISLAND OF CEBU

NINETEENTH REGIMENT IN OLD SPANISH BARRACKS.

Climate Is Very Enjoyable and the Members of the Regiment Are Enjoying Good Health—Perils of Warfare Against the Natives. They Are Ingenious and Treacherous—Principal Part of the City of Cebu Was Reduced to Ruins by the Guns of the Spaniards.

Special Correspondence of The Tribune.

Cebu, Philippine Islands, Oct. 12.—The Nineteenth regiment of the regular United States Infantry, of which I am a member, is comfortably quartered in the barracks used for a good many years by the Spanish soldiers. I am in good health and enjoy soldiering in the Philippines much better than I thought I would. I received a package of Tribunes yesterday and am very grateful for them. It is a great treat to get papers from home when one is 6,000 or 7,000 miles away from his country.

Our stay here will be short, as we are now under orders to move to El Paso to take part in another battle with the Indians.

Cebu is the capital of the island of Cebu, and has a population of about 40,000. The streets are about forty feet wide, but are very dirty. The city itself is laid out in foreign style and was at one time considered a very nice city, but the Spaniards bombarded it before they left and the principal part of the town is a mass of ruins.

The other part of the town is built mostly of bamboo houses or huts, as we would call them in the states. The population is mostly composed of the natives of the islands, though there is quite a number of Chinese here, but not near as many according to the population as there are at Manila.

NOT AS BAD AS PAINTED.

I thought when I arrived here that I would find the inhabitants much worse than they are. They are, of course, very ignorant, but very ingenious as well, as they can make almost everything from a needle to a house. In a tight place they make their own ammunition, by using charcoal for their powder, and moulding their own bullets. They give us considerable trouble in being able to do this, and are able to keep us from capturing them, as they generally have themselves pretty well fortified.

One of the forts that we captured the other day was trenched clear around, and this trench was large enough to hold three hundred men. In front of that was a bank from four to six feet wide and about five feet high. It would keep a regiment from taking the fort, with fifty good American soldiers behind it. In front of the fort and on each side of it they had trenches dug six feet deep and four feet wide, and inside of the trenches they had bamboo sticks, whittled down to sharp points, and stuck solid in the ground. The top of it was covered up with leaves, so that if we ever undertook to take the fort at night, many of us would have been crushed by the bamboo sticks, and consequently would have lost their lives. But the Americans are getting too shrewd for them and do not undertake anything at night ahead in all cases.

Here in Cebu the police are all natives, and even they are not to be trusted, though the government pays them \$30 per month. One of them was caught the other day with a lot of our ammunition pulling for the hills. As the insurgents have a number of our guns, it looks as though we are going to put under arrest and brought back here.

The city is under martial law and everyone has to be at home at 8:30 p. m. A squad of our boys patrol the city at night, and any one caught on the streets after that time is taken care of for the night.

The climate here is not as warm as I thought it would be, and I do not see as it is any healthier here than it is in the states. Our company has men no healthier than any company, and we only have one man in the hospital on account of sickness. Of course a man has to take good care of himself, and not eat everything the natives do. If he does the fruit, naturally, will make him sick.

DON'T ENLIST FOR PHILIPPINES.

I have been here now nearly two months, and will say for the benefit of anyone who is thinking of enlisting for the Philippines, unless they want to see some hard times, as there is no use in kicking after you get here once, but do your duty as a soldier and you will come out all right.

Many papers of the states have criticized General Otis a good deal. While he is not a perfect man, and probably has made mistakes while here, he has done well and deserves the praise of every American for holding the Philippines down as well as he has with such a small army, as he has had here.

The hardest trip in my short stay here, was on Oct. 1 when we started on a trip over the mountains, on a one day's march, but were gone three days. In one place, in climbing the mountains, we had to strap our guns on our backs and pull ourselves up by the roots, and in coming back we waded a creek for five miles, sometimes in water three feet deep, and were for over thirty-six hours without anything to eat. Such is life in the Philippines.

I see by The Tribune the Thirtieth has reorganized. Success to them, and may the boys of old Company B have as much success as we had in Camp Alger, Camp Meade and Camp McKean.

The Scranton boys in this regiment are all in good health, and would of course like to be back in Pennsylvania, but are doing their duty without a murmur.

James Vaughn, of Tunkhannock, is a member of my company. He is a good soldier and has a good many friends in Scranton.

I noticed also in The Tribune that Captain Hewitt, of our regiment, was recruiting in Scranton. He is our company commander, and is still attached to our company. He was at Ponce, Porto Rico when I joined the company last April.
