Told by Persons Who Returned to This City Last Night.

Louis Friedman the Ponn avenue bird dealer, who was injured in the wreck, arrived in this city at about 2.40 this morning on the train due at 1 a. m. Mr. Friedman was injured about the legs, though not severely, he having been in the next to the last car. He was very much excited and was unable to give a connected story of the accident. He was removed to his home on Penn avenue and medical aid was nonad

T. H. Groves, of this city, a passenger on the westbound train, which arrived at the scene of the wreck about two minutes after it happened, also arrived this morning on the same train as Mr. Friedman. Mr. Groves assisted in the removal of the dead and injured from the debris. He said the scene was horrible beyond description. He saw eight bodies altogether, five men, two women and a little girl about 13 years old.

The body of one of the women and that of the little girl were found side by side, and the general impression prevalled that they were mother and child.

He described, in particular, the manner in which one of the men's bodies was found. The man was standing, he said, with his hands outstretched egainst one of the windows in the rear of the train, as if making a futile effort to escape. The car had burned at this end and the clothing and visible portions of the body were charred beyond

recognition. Charles R. Connell, secretary and treasurer of the Lackawanna mills, who was a passenger on Train 7 was seen up his arrival here and said:

"Our train was standing at the Paterson station and had just started to pull out, I imagine, when the wreck occurred, for we did not hear a crash, the puffing of our engine drowning the noise of the collision. Our train came to a sudden stop and when we hurried to see what the trouble was an appall-

ing sight met our eyes. "The last two cars of the express train on the opposite track were telescoped and the shricks of the dying and injured were terrible to hear.

"A woman and man were pinted against the side of the second last car nearest our train and both of them dead. In a very brief time the police patrols, ambulances and fire wagons arrived and began the work of getting out the dead and injured, the passengers assisting. The west-bound track was cleared in about forty minutes and we were whisked on past the wreck."

THE WORK OF RESCUE.

Herculean Tasks Performed by a Strapping Mormon.

New York, Nov. 29.-Rev. C. S. Bulock, of Chicago, a passenger on the Buffalo express led the rescue work. to bed by their mother.
