Meyer Davidson has returned from New York and Boston. Joseph Cassidy has returned from a short visit with his parents in New York city. James Hicks, of Canoe avenue, returned yesterday from New Bedford, Mass., where he has been for the last year erecting a pumping plant for the water department of the city of New Bedford. The machinery was constructed by the Dickson Manufacturing company of this city, by which Mr. Hicks is employed.

BIG AUDIENCES.

Spooners Play to Crowded Houses at Both Performances Yesterday. The Spooners did a tremendous business at the Academy yesterday and better pleased audiences never gathered within the walls of that popular playhouse. "Tribby" was produced in a superb manner in the afternoon and "The Old Lime Kiln" at night, and the hundreds turned away attest to the great popularity of the company in this city.

MURPHY IN "KERRY GOW."

The ever popular Joseph Murphy is as entertaining as ever. Like Jefferson in "Rip Van Winkle," theater goers never tire of Murphy in his "Kerry Gow" and "Shaun Rhuus." Several times he essayed a new play, but his admirers wouldn't have it. He returned to his old loves and the wanted crowded houses again greeted him. "Kerry Gow" was the bill he presented yesterday afternoon and last night at the Lyceum, to two of the biggest houses of the season. Of "Kerry Gow" and Murphy nothing need be said. Suffice it to mention that the presentation is on the old time elaborate scale with some new and highly pleasing features added.

A Supreme Moment of expectation could be easily tuned into an hour of vacation by having a dull carver to wrestle with. Your Thanksgiving feast would be one of unpopularity unless you have a set of our fine steel carvers, with good bone handles, that will disoblige a turkey and carve it in water slices in a hurry. Our fine stock of table cutlery are useful and will be appreciated by the housewife. LACKAWANNA HARDWARE CO., 221 Lackawanna Avenue.

OLD FOLKE'S CONCERT. Enjoyable Evening at Penn Avenue Baptist Church. One of the most successful and altogether pleasing "old folke's concert" ever given in this city was conducted last evening in the Penn Avenue Baptist church under the auspices of the choir. The church auditorium was crowded with spectators, who were almost cruel in their insistence on encore. The choir members were wonderfully garbed in quaint costumes of by-gone years and sang exceptionally well. In addition to the members of the choir, Miss Imogene Chandler, the celebrated elocutionist and reader from Philadelphia, gave a number of selections. Miss Chandler is a very talented and her repertoire includes pieces both grave and gay. Among the selections she rendered last evening were the following: "When Melindy Sings," "The Boy Orator of Cepeta City," "Progressive Arithmetic," "The Dressmaker" and "Money Musk." The complete programme as rendered is given below:

YE FIRST PARTE. Laughing Chorus. Blumenthal. All ye menne and womenne syngers. A Revolutionary Tea. One Part Saying. Imogene Chandler. (From ye towns of Philadelphia.) She is so clever. (Please keep ye neighbors awake to hear ye lady speak.) Two Part Saying. "A B C Lesson" Jehosaphat Makepiece and Dorothy Spriggins. Three Part Saying. "Tickle Me I Pray" Prudence Goodstock, Zedekiah Merryman and Praiseworthy Perkins. One Part Saying. Imogene Chandler. (From ye towns of Philadelphia.) YE SECOND PARTE. One of ye best Humoral of ye World. Diction. By all ye Syngers. (Who feel right smart.) One Part Saying. "Silver Threads." Dorothy Spriggins. (All ye people meditate while ye friend syngs this time.) One of ye Menne will say Something. Lafayette Buttermore. One Part Saying. My First Musicle Lesson. Merrie Sayings. Imogene Chandler. (All ye people may smile softly.) All ye Women Syngers Will Syng "Ye Lullaby." Military Scenes. Music by Ye Harpichord and Great Wind Organ. "Let Me Like a Soldier Fall." Obadiah Tubbs. "Star Spangled Banner." "Tenting on the Old Camp Ground." "Home, Sweet Home."

ALL WANT TO COME BACK

Terms of Ten School Directors Expire in the Spring—Most of Them Will Be Returned. The coming spring election is not likely to make any very radical changes on the board of school control, although the terms of the following expire: A. L. Francois, Second ward; Benjamin Williams, Third ward; John M. Casey, Sixth ward; Charles Zeidler, Eighth ward; Jacob Schaffer, Tenth ward; Anthony Walsh, Twelfth ward; T. J. Jennings, Fourteenth ward; P. R. Schriever, Sixteenth ward; O. J. Langan, Eighteenth ward; John Gibbons, Twentieth ward. Of this number it would seem from present indications that T. J. Jennings, O. B. Schriever, P. J. Langan and John Gibbons can read their title clear to another term. Many changes may occur between now and the spring election which may materially change the aspect of affairs, but from the indications to date these four will have little, if any, opposition. It is said that Messrs. Schriever and Langan will have no opposition either in their own party or from the opposition. All of the other members whose terms expire will also seek a re-election, with the possible exception of Charles Zeidler and John M. Casey. They have not positively declined to be candidates, but it is understood that they are willing to retire if good, substantial citizens of the wards they now represent can be induced to accept nominations at the hands of the Democratic party. The Republicans of the Eighth ward have already nominated C. C. Perber, who will undoubtedly be the next school controller from that ward. Mr. Zeidler is probably shrewd enough to discern the handwriting on the wall. He should decide to seek the Democratic nomination he is opposed to by Dr. John O'Malley and John Collins. In the Sixth ward Thomas Murphy has announced himself as a candidate for the Democratic nomination, whether Mr. Casey is or is not in the field. Jacob Schaffer will have opposition in and out of his own party in the Tenth ward, and in the Twelfth ward Anthony Walsh will be opposed for the Democratic nomination by Miles Sweeney.

High School Defeats Binghamton. The Scranton high school football eleven journeyed to Binghamton yesterday and meeting the eleven of that place for the second time this season, returned home with victory secured this time. It was a hard played game, but the local boys won out by a score of 32. They would have shut the Parlor City men out had it not been for an unfortunate safety which the latter scored, and which gave them their two points.

CRAIG FAMILY DIE IN WRECK

[Concluded from Page 1]

He was severely bruised about the head. From the number of wounds death must have been instantaneous. His skull was fractured and his chest crushed. All Will Recover. The two Binghamton girls, Mary Doyle and Lizale Kane were on their way to Florida, to introduce a new cigar-rolling device, controlled by Binghamton parties, and in the operation of which they are very expert. Miss Kane's brother and sister, and Miss Doyle's sister are with them at the general hospital.

Mrs. Roe's Body Held. This makes a total of six killed and twenty-seven wounded. The dead have all been taken away by relatives, with the exception of Mrs. Roe, whose body was selected to be held for the coroner's inquest. Mrs. Roe was identified by Mrs. Cummings, of this city, who knew her before she was married. Mr. Roe is severely injured but will recover. The terrible ordeal of the husband is beyond thought. He and his wife were sitting together on the right hand side of the car, he next the window. When the collision occurred he was driven up and forward, his wife went down. Heavy timbers pinned him almost directly above her. Afraid to see his wife crushed and dead his eyes refused to look. He was held in that agonizing position for nearly half an hour, to him a eternity of physical and mental anguish. It was not till he was taken to the hospital that he learned the worst. Walter J. Wellbrock was identified by many letters found in his pockets bearing that name. Most of them are addressed to 123 East Seneca street, Ithaca, N. Y. Others to 499 Hunter street, same city. The former was probably his business address as nearly all the letters of that address were from New York firms. His father is a wealthy New York lawyer.

Thought He Had a Clear Track.

No one will attempt to offer any reasonable explanation as to how the accident occurred, except Engineer Rioridan, of the accommodation, took it for granted that he had a clear track without going to the trouble of looking ahead. No. 96, however, was later identified as Alexander Craig, of the Scranton Tribune. Blaze Narrowly Averted. The incineration of everybody in the cars was narrowly averted, and but for the act of one of the trainmen the wreck would have caught fire and many other lives would have been lost. During the first stages of the work of rescue an oil lamp dropped from the hands of one of the trainmen, and the wreckage quickly became ignited. The flame was smothered by the train hand and the lamp was thrown from one of the windows, and upon falling to the ground it exploded. If the flame had not been checked as promptly as it was, the two telescoped cars would have been burned beyond the dead bodies could be extricated, and the injured men would have been burned alive before the rescuers could have reached them. The wrecking crew of the railroad arrived on the scene at 9:45 o'clock and immediately began clearing away the wreckage. By this time all the killed and wounded had been removed from the wreckage and all that was left for them to do was to clear away the debris. The broken cars were split up and removed. This took several hours of hard work and it was not until 2 o'clock this morning that the tracks were cleared and the blocked trains allowed to proceed. The broken cars were taken down the road to a siding where they will remain until they can be taken to the wrecking shops. Word of the accident was received at St. Joseph's hospital a few moments after the crash occurred and one of the first to leave the institution was Rev. Father Julian, the resident priest at the hospital. Father Julian devoted his time upon arrival to the work of rescue. He secured an axe, and, like the others, engaged in similar task, he chopped at the woodwork which securely fastened the injured and dead.

Work of Priests.

The priest was later joined by Rev. Father Corrigan, of St. Agnes' church, and Rev. Father Dolan, of St. George's church. The priests rendered able assistance in rescuing the injured, and Father Corrigan announced the dead bodies taken from the wreck. There was another clergyman who took an active part in the rescue work, Rev. Mr. Bullock, whose experience was related yesterday. Twenty nurses from St. Joseph's hospital were early on the scene and cared for the wounded until the arrival of the ambulance and patrol wagon. St. Joseph's hospital is a large and well governed institution with both lay and religious nurses. The whole force worked all night and yesterday without a thought of rest. At daybreak the only things at the scene of the wreck to tell of the frightful calamity was a smoldering bed of ashes where the wreckage had been burned and the blood on the cobbles, with which the road at that point is ballasted. Boys were turning these stones over with sticks and pointing out the blood to the late comers. Engineer Rioridan, according to an Associated Press dispatch from home in Harrison, N. J., in a state of complete collapse. No one is allowed to see him except the physician and nurse. The doctor in attendance said tonight he would not be surprised if the accident and the strain which followed it left Rioridan insane. Rioridan has been railroading for over thirty years and claims never before to have had an accident.

A Horrible Scene.

A horrible scene was witnessed by the hundreds who lined the hillcock on the west side of the track watching the work of the rescuers. Two students, struggling to extricate themselves from the debris, were pinned down, were surrounded by the dead bodies of three women, whose limp forms lay beneath a pile of wreckage near the car. Occasionally the suffering men would utter piercing cries, calling to the men who were making attempts to rescue them, that the cars were being broken. The agonized expressions on their faces was an incentive to the rescuers to double their efforts to afford relief to the sufferers, and trainmen and firemen fought with desperation to reduce the mass of wreckage that held the men down. The immense bonfire that had been built at the side of the tracks brightly illuminated the side of the car and the spectators viewed with horror the work of rescue. The faces of the dead women could be plainly seen by the bystanders and the rescuers, who were armed with axes, chopped with might and main on the woodwork on the outside of the coach in the endeavor to extricate the bodies. Work of Firemen. On the inside of the car a force of firemen, under the direction of Chief Gilmore, worked heroically in raising the wreckage that held the two men and three dead bodies. It was fully forty-five minutes before the rescuers succeeded in reaching the spot where the two suffering men were fastened, and when the debris was finally cleared away and the men were pulled out of their perilous position, a subdued cheer went up from the spectators.

their perilous position, a subdued cheer went up from the spectators. Shortly after the men, whose names were afterwards found to be Charles Platt and C. C. Remsen, Cornell students, were rescued, the rescuers reached the dead bodies of the women and passed them out of the car windows. As the men and these forms were being handed from the rescuers in the coach to those on the outside, many turned away from the appalling spectacle.

During all the time consumed in the work of rescue the mangled faces of the women were plainly visible from the outside. The ladies were lying on top of each other. From the mass of wreckage, beneath the bodies of the women alluded to, protruded the arms of a man in one of whose hands was clasped a book. As the rescuers worked away, chopping on the outside of the coach, the book fell from the hand and dropped to the side of the tracks. Its title was "Barriers Burned Away." Its reader had been Walter J. Wellbrock, the Cornell student, whose life was crushed out of him being jammed between two of the overturned cars. However, he was later identified as Alexander Craig, of the Scranton Tribune.
