"I was afflicted with catarrh for nine years. My cutarrh was located chiefly in my head. I tried many remedies without avail. I applied to several doctors, but they were not able to cure me. I learned of the remedy, Pe-runa, through the daily newspapers. After taking the remedy for its weeks I was entirely cured. I consider my cure was entirely cured. I consider my cure permanent, as it has been two and a half years since I was cured."

The Governor of Oregon is an ardent admirer of Pe-ru-na. He keeps it con-tinually in the house. In a recent letter to Dr. Hartman he says;

Most of the trees will come from Maine and only a few of the 200 carioada will be Monroe county trees. For some years past few trees have been cut on the Pocono mountains. ## THE MARKETS.

Wall Street Review.

New York, Dec. S .- Nearly every stock in the list declined today. In the in-dustrials the losses ranged from 2 to nearly 7 points. The railroads did not suffer so much, but a number of them closed between 1 and 2 points lower than last night. The principal victims of the selling were the Iron and Steel stocks, as has been the case all week. Tennessee Coal led the group, with a net loss of 61½ points. Quite a number of other metals stocks closed more than 4 points lower. Sugar was very activand weak throughout the session and closed at the low point with a net loss of 412. The Tobacco stocks, the Rub-ber stocks and the New York specialties were all prominent in the break and lost 3 points or upwards. Manhattan was rather an exception and its loss was only a fraction. The bears were active and very aggressive and had much to do with starting the decline, but they reaped a rich return in the uncovering of stop loss orders, as margins were wiped out and heavy offerings were precipitated on the market. The banks were calling loans all day, and the conviction is unavoidable that a very drastic liquidation of long accounts was effected. A large part of the selling was forced

by the calling of loans and the difficulty of obtaining new accommodations, the borrowing demand rushing the call lean rate up to 12 per cent. In the late dealings. Total sales, 755,800. Bonds were lower throughout. Total sales par value, \$1,725,000. United States old 4's and 5's advanced
