#### CLERK SELECTED FOR THEM.

The County Commissioners of Wyoming Are Indignant.

Special to the Scrunton Tribune. Tunkhannock, Dec. 12.-The county commissioners held an interesting and important meeting yesterday. They decided that it was time for them to appoint a clerk for the next three years under the recent act of the assembly which confers upon county commissioners the authority to appoint a clerk for three years. Frank S. Harding, the present incumbent, was offered the position, so yesterday after-noon he handed in his resignation, and within half an hour was re-appointed for three years more. The incoming board of commissioners will be Democratic, and as it is now Republican, two Republican commissioners thought it best to fill this office before their term should expire. Michael Brown, the Democratic commissioner, raised a protest at the action of his colleagues, but it was of no avail. Mr. Brown said that "Mr. Harding first handed in his resignation to me and I read it and then said I would not accept it. I was alone in the office at the time, and went out afterwards. I was down town about twenty minutes, and when I returned, I found that Messrs. Wheelock and Chase had held a meet-ing in my absence and that the minuies of the meeting were already written on the minute book, signed by Mr. Chase, and Mr. Wheelock was just writing his signature. I said you have elected Frank in my absence, and they there that Mr. Brown was not present at this meeting, and that had he been present he would have voted no." It is stated that the commissioners are only following the precedent established by commissioners in four other counties, Northampton, Crawford, Delaware and Lancaster, where they have taken advantage of this act. The construction of the act of assembly will probably have to be passed upon by the supreme court before it becomes a settled fact that retiring com-

### SCIENTISTS OBJECT.

Sect Will Not Submit to Vaccination. Barred from Towanda Schools.

Special to the Scranton Tribune Towanda, Dec. 12 .- At the monthly meeting of the owanda school boav I Principal Robbins reported that al. the children attending school between the required ages had presented certificates successful vaccination except two, who had been excused on the recommendations of their physicians on account of feared physical effects. also reported that several children whose parents are Christian Scientists had been refused admittance to the school because they were unable to furnish certificates and that it was understood that they were being taught at their respective homes.

This sect is becoming quite strong in this place and there has been considerable feeling over the matter of compulsory vaccination, the believers in this faith, of course, objecting to any such theory of medicine. There was talk of taking the matter into the courts, but the question seems to have been solved by means of private tou-
