Dearness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure dearness, and that is by constitutional remedies. Dearness is caused by an inflamed condition of the muceous things of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Dearness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten rund caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
