asigned to him the toast "Physics and Metaphysics," to which was this accompanying sentiment: There are more things in heaven and

earth, Horatio, Than are dreamt of in our philosophy. -Hamlet

That couplet is still true, Dr. Barker said. Recently he was in inc Royal Institution of England and saw hydrogen liquified. Thus, the gas that had resisted all attempts to transform it into a liquid had at last given in to science. At Heidelberg he saw the latest discovered element, an ele ment that illumes by its own light without any outside aid, and which promises to do all in the way of light ing that electricity now does. He himelf could enumerate enough new Thomas & Brandamore things to keep them all night.
