

LIVE NEWS OF THE INDUSTRIAL WORLD

STRIKE AT THE MANVILLE HAS BEEN SETTLED.

Alleged Cut in the Price Allowed for Yardage Was an Error, Which Was Corrected as Soon as Brought to the Attention of the Proper Officials—What Superintendent Loomis Has to Say About Strike Talk. John E. Walsh Appointed—Orders to Conductors.

The trouble among the miners employed in No. 3 vein in the Manville mine, which was reported yesterday, has been amicably adjusted, and the colliery resumed operations as usual yesterday morning.

Believing a cut was intended the men quit work and when the miners' committee visited the officials of the company the error was discovered and rectified. The adjustment being satisfactory made the men returned to work.

What a Strike Means.

Superintendent Loomis, of the Delaware, Lackawanna and Western coal department, in speaking to a Tribune man relative to the talk about a strike among the miners of this region, said: "Do you know that the Delaware, Lackawanna and Western company is paying out thousands upon thousands of dollars a month to its employees, and if a strike should occur among the miners and railroad men in this vicinity it would mean a greater hardship to the city of Scranton than you or I can conceive of. Such agitation as recent differences have caused has been harmful all over the country and I have been in receipt of communications asking about the strike in Scranton, when in reality there is no trouble at all."

"The Delaware, Lackawanna and Western company is disposed to treat their employees fairly and squarely and when any alleged grievances arise among the men it is not necessary to quit work and tie up the collieries. The men may meet with me and state their grievances and they will receive proper recognition, and all we ask is the same consideration from them."

John E. Walsh Appointed.

T. F. Filicorri, division freight and passenger agent for the New York, Ontario and Western company, with headquarters in this city, who has been in ill-health for some time, has resigned and has been succeeded by John E. Walsh, of Scranton street, who was Mr. Filicorri's chief clerk, and has performed the duties of division passenger and freight agent during Mr. Filicorri's illness.

New Signals Adopted.

General Superintendent E. G. Russell has issued a circular relative to the new code of signals which have been adopted on the Lackawanna railroad, and which will go into effect at 12:01 a. m., March 1. The present lamp and hand signals will be abolished and the following signals adopted:

- A lamp swung across the track is the signal to stop.
A lamp swung vertically in a circle across the track, when the train is standing, is the signal to move back.
A lamp swung horizontally in a circle, when the train is standing, is the signal to apply air brakes.
A lamp raised and lowered vertically is the signal to move ahead.
A lamp swung vertically in a circle at arm's length across the track when the train is running, is the signal that the train has passed the head, when train is standing, is the signal to release air brakes.
A flag, or other device in any of the directions given above, will indicate the same signal as given by a lamp.
Employees should talk with one another in regard to these signals, in order that they may be understood alike by all concerned.

Orders for Conductors.

Superintendent A. C. Salisbury has issued the following orders to conductors, which will explain themselves:

My attention has been called to the fact that you are not complying with instructions, relative to reporting hot boxes on Form A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z. It is of the utmost importance that these reports be made out and left with the car inspector, in order that we may determine whether or not the boxes are being properly packed. Use this form for every hot box, whether an accident occurs from it or not. Please be governed accordingly.

Time Limits and Stop-Overs.

Conductors have been notified by General Passenger Agent T. W. Lee, of New York, relative to time limits and stop-over privileges on the Lackawanna railroad, in the following order:

To Conductors: The following named persons are hereby authorized to extend time limits and grant stop-over privileges on tickets. This will be done by endorsement on the back of local tickets on the Lackawanna coupons of through tickets, same to be signed "T. W. Lee" per:

George W. Hayler, chief clerk; M. L. Smith, division passenger agent; Fred P. Fox, division passenger agent; W. C. Brayton, division passenger agent; H. J. Ball, general eastern passenger agent; superintendents in respective divisions.

In addition to the above, authority is also granted W. B. Hunter to endorse editorial tickets, Form A, B, C, for extension of time or stop-over privileges.

This authority will only apply to and between points on the Lackawanna railroad. Conductors will please be governed accordingly. T. W. Lee, General Passenger Agent.

Regarding Annual Passes.

President Truesdale has sent out the following notice to conductors on trains B, C and 24 and through train conductors: Annual passes for 1900 bear a notation as follows: "Not good east of

Port Morris except on trains numbered below 25." This clause is hereby amended and conductors may honor annual passes on trains Nos. 25 and 26. W. H. Truesdale, President.

Machinists Working Eight Hours.

The reduction from nine to eight hours a day at the Lackawanna, Lackawanna and Western shops does not apply to all of the men at present, only the machinists being affected by the change. During the winter months it is customary for the company to shorten the work day, owing to the short days, as darkness interposes with the early morning and late afternoon work.

While the machinists are the only ones affected at present, in all probability the order will become general in a short time. Should the demand for repairs necessitate additional working hours during the remaining winter months, arrangements will be made for lighting the shops by electricity.

Steam Fitters Union.

Local union, No. 52, of the National Association of Steam and Hot Water Fitters and Helpers, was recently organized in this city. On Thursday night the officers were installed by A. W. Marselles, of Buffalo, N. Y. The officers installed were: President, G. E. Bull; vice president, William Cronk; secretary, S. P. Coffey; treasurer, James Nealon; inspector, D. E. Roosa; trustees, J. J. Brown, D. L. Gardner and C. H. Roosa.

ELMHURST.

Mrs. E. Ketcham, of Pittston, is visiting at the home of her daughter, Mrs. S. White. Rev. Robert Bramlit, of Mountain Top, will preach in the Presbyterian church Sunday morning and evening. Mr. and Mrs. C. W. Rhodes are rejoicing over the arrival of a little daughter at their home on Thursday morning.

Mr. Knedler is kept busy attending the numerous sick ones in our community.

The Ladies' Aid society, of the Presbyterian church, met on Thursday at the home of Mrs. S. G. Rice.

Miss Jennie Dunning returned on Wednesday, after a few days' visit with Scranton friends.

Miss Bertha Grimes entertained a number of friends from Peckville on Year's day.

Mrs. Bertha Jenkins has gone to Florida to spend the winter in company with a party of friends from Plainfield.

Mr. and Mrs. Andrew Nagley and daughter, Katie, spent last Sunday with friends in Scranton.

Every precaution is being taken by the board of health, doctors, school board and teachers to prevent the spread of diphtheria.

Mr. Hyron Buckingham and Miss Inez Blessing entertained their Sunday school classes at the home of the former, on Monday evening, and all thoroughly enjoyed themselves. Music and games were indulged in until the wee small hours had arrived. Refreshments were served by Mrs. Buckingham at ten o'clock. Those present from Mrs. Buckingham's class were Messrs. Park Evans, Fuller Evans, Charles New, Walter Tasse, Charles J. Jany, Louis Humiston, Garfield Edwards, William Tribble, Wayne Wilcox and Bert Aten. From Miss Blessing's class, Misses Grace

MENTAL ATTITUDE DEVELOPS. "The development of this mental attitude was in some respects less difficult in England than it will be in America, because there was in England a survival of certain traditions from the earlier military age of society which made social success dependent more upon the acceptance of responsibility than upon the achievement of eminence in business or in politics. Yet in spite of this difficulty we may look forward to the future with confidence. A country which has in so many of its parts passed in a single generation from the lawlessness of frontier life to the extreme of legality may readily in a generation more pass from a state where conceptions of public duty are bounded by legality alone to one where they are inspired by a moral obligation which will carry into the conduct of public affairs the principles and the sentiments which we recognize as private ones."

OUR CUSTOMARY

January Sale of Sheets and Pillow Cases IS NOW ON

It's a lucky grocery store that ever made a cent on sugar; competition settled sugar for the grocer. It has made nails the sugar of the hardware trade, and certain standard muslin the sugar of the dry goods trade. We buy and sell—and the dollars of profit are unseen. No single body's fault—it is the gradual outgrowth of mistaken notions. Might as well try to amend the law of supply and demand.

Well, muslins are ever so much dearer—so are ready-made sheets and pillow cases, but in spite of the rise we shall sell at

THE OLD PRICES.

We bought these far enough back to escape the rise, and every sheet and pillow case here is marked at a lower price than the makers will charge us for now. If you can buy a year's supply, lucky. At least, get some.
