GREAT BATTLE OF THE RAILROADS

HEARING IN THE EQUITY CASE AT HONESDALE.

Erie Company Makes a Claim of Absolute Ownership to the Canal Formerly Used by the Delaware and Hudson Canal Company-Says It Is a Parallel Line and Not a Road-Great Array of the legislature, Counsel.

Special to The Scranton Tribune.

Honesdale, Pa., Jan, 5 -- For two days one of the greatest railroad battles in the history of the country has been waged in the court house here before Judge Purdy. It is a contest of millions against millions, and not a single point is being overlooked or a trick lost in this great contest.

The plaintiff in the case is the Erie and Wyoming Valley Railroad company and the defendant the Erle Railroad company, two corporations that tor years have had many interests in prevent the Eric and Wyoming Valley company from constructing a line which will be a business competitor of the Erie. The road in question is the Delaware Valley and Kingston railroad, which it is proposed to build on the bed of the abandoned Delaware and

Hudson canal. The road from Hawley, Wayne county, to Lackawaxen, Pike county, is to produced, which the defendant combe built by the Erie and Wyoming Valley company, which has purchased the bed of the canal for that distance from the Cornell Steamboat company, which fifteen miles in length and as it paralsome months ago purchased the entire canal and right of way from the Delaware and Hudson company.

CROSSES THE CANAL,

Near Lackawaxen the main line of the Eric crosses the canal and about the time the surveys for the proposed extension of the Eric and Wyoming Valley road were being made the Erie filled up the canal to the level of its tracks for the purpose of doing away with the bridge, as was alleged by the Erie. The Erie and Wyoming Valley say it was merely a trick to prevent them from using the canal and filed a bill in equity at Milford, Pike county, to compel the Erie to remove the filling from beneath the bridge in question and also to prevent them from interfering with the line laid out by the plaintiff company between Hawley and the Delaware river.

Pike and Wayne countles are in the same judicial district and the case came before Judge Purdy for a hearing at Milford, but was continued until vesterday at Honesdale by agreement this place being considered more convenient for all concerned than Milford.

After the bill in equity was filed it was alleged that the Eric company laid which crosses the canal near the Erie where the canal is filled. At yesterday's hearing somewhat of a sensation was caused by the announcement that the rails in question were laid by the Delaware and Southern railroad, which has been chartered to build a road from Hawley to Lackawaxen, under the laws of this state.

GREAT ARRAY OF LAWYERS. It has been many a day since Honesdale has entertained so many capitalists, railroad men and distinguished lawyers as were here today. The plaintiff is represented by Thomas G. Sherman and C. S. Gebhardt, of New York: A. T. McClintock, of Wilkes-Barre; J. H. Torrey, of Scranton; C. A. Bull, of the defense are looked after by Hon. E. N. Willard, Major Everett Warren and C. P. O'Malley, of Scranton, and A. T. Searle, of this place. This was the final hearing in the bill

in equity and began yesterday and concluded today. The plaintiff company proved a record title to the canal through the Cornell Steamboat company, which conveyed the part in Pennsylvania to the Eric and Wyoming Valley company.

The point was raised by the defense eign corporation could not take title or

Judge Purdy said he was impressed by the force of the objection, but decided not to pass upon it then. He would hear all the testimony and decide later whether or not it ought to be stricken out.

It was shown that the Eric and Wyoming Valley company directors on Nov. 9 last laid out a branch road from Hawley to the vicinity of the Delaware Chief Engineer Webster was called, who testified that on Nov. 19 he laid out the proposed branch and produced a map which he said showed the line as located. This was adopted by the directors on Nov. 11. It was shown that Mr. Webster is

also chief engineer of the Delaware Valley and Kingston railroad. It was also brought out that the proposed road parallels a line owned by the Eric and Wyoming Valley Railroad company, which is now leased to the Eric railroad for \$50,000 a year. This road was originally owned by the Pennsyl-vania Coal company, but was leased to the Eric and Wyoming Valley,

The plaintiff called a number of witnesses to prove that the canal had been abundoned. On this point the defendant's line of cross-examination showed that the canal was used for general freight purposes up to Novem-Erie and Wyoming Cannot Build bec, 1898, and that the arguments on the admission of evidence indicated the Proposed Extension Because that they took the position that the Delaware and Hudson could not abandon the canal without the consent of

Evidence was also introduced by the plaintiff to show that the filling under the bridge at Lackawaxen did not support the bridge and was not done in good faith.

The defense proved that the bridge was built in 1874 and since then the weight of rolling stock has increased from 100 to 200 per cent. For the past two years, it was stated, the bridge has been inadequate and an order was issued for not more than one engine to pass over it at a time. It is on the main line between New York and Buffalo and more than eight hundred pussengers are carried over it daily. The fill, it was contended, was made of the common. The Eric is now fighting to best stone and the work was done in accordance with the policy of the railroad company to abolish bridges wherever possible. This for the safety of the traveling public.

DEEDS PRODUCED.

Deeds and agreements between Russell F. Lord and the Erie and the Delaware and Hudson and the Eric were pany claims gives it absolute title to the land the canal is on. It was shown lels a line now owned by the plaintiff company cannot be considered a branch line and under the law they have no right to build it. The proposed road and the one now down are from fifty to 200 feet apart.

Figures of the tonnage of the road eased by the Eric from the Eric and Wyoming Valley were offered to show that if a new road is built and the traffic diverted the road would be worthless,

The hearing was adjourned until Feb. when the attorneys will present their equests to the judge for findings. Next Monday there will be a hear-ng before the board of railroad com-

nissioners at Albany, N. Y., when the Erie and New York, Ontario and Western will oppose the application of the Delaware Valley and Kingston railroad for permission to build the road.

The following letter written by a venerable old Quaker, Mr. John Evans, living at South Wabash, Ind., tells in his quaint language his experlence with the national catarrh remedy, Pe-ru-na. He says:

"My wife (Polly J. Evans) says she feels entirely cured of systemic catarrh of twenty years' standing. She took nearly six bottles of thy excellent medicine Pe-ru-na, as directed, and we feel very thankful to thee for thy kindness and advice. She did not expect to be so well as she is now. Twelve years ago it cured her of la grippe. I want to tell thee there has been a great deal of Peru-na used here last winter. Pe-ru-na does not need praising. It tells for itself. We can and do recommend it to anyone that is af-

HOPBOTTOM.

Special to The Scranton Tribune.

Hopbottom, Jan. 5,-The funeral serices over the remains of the late Emanuel Carpenter, who died suddenly on New Year's day, were conducted in the Methodist Episcopal church of this place on Thursday morning last. The casket in which the deceased reposed was borne from his late home to the church by his four sons and two sonsin-law. As the cortege moved up the central aisle the choir sang a selection, Asleep in Jesus," at the conclusion of which Resident Pastor Homan offered prayer, following which Rev. Beardsby, of All Souls' Universalist church, Secret service men are searching Scratnon, read a portion of the Scrip-

tures. The funeral sermon was preached by Rev. Jonas Underwood, of Wilkes-Barre, who had enjoyed a personal acquaintanceship with the deceased and his family for over thirty years, and it was of an eloquent and impressive character. The deceased was born in Abington township, seventy-three years ago, and was the youngest and only surviving member of a family of ten children, all born at the old homestead in Abington, where their parents, Amos and Cynthia Carpenter, settled on coming from Rhode Island in 1806. In 1847 he married Miss Rosetta Gorman and took up his residence in Hopbottom, where, with the exception of a hort term of residence in the early 60's, he had continuously resided. He is survived by his sorrowing wife, with whom he lived in the most unalloyed happiness for over fifty-two years, and the following children: W. E., E. D. and Charles Carpenter, of Binghamton, N. Y.: Giles M. Carpenter, of Hallstead; Mrs. J. P. A. Tingley, of Carbondale, and Mrs. Captain B. E. Morris, of Scranton. The Interment was made in the family plot in the Squier cemetery, near Hopbottom.

THE MARKETS.

Wall Street Review.

New York, Jan. 5.—Prices of stocks traversed a considerable range today, moving forward in the carly dealings and moving forward in the carly dealings and then pursuing a retrogade course to about last night's level. The deduction to be drawn is that professional traders are disinclined to undertake extensive speculative commitments. The most effective influence towards this disposition is the conviction that the money markets of the world are not yet in condition to afford abundant funds for speculation on credit. The incident which pointed this moral was the unexpected proportions of the gold engagements for tomerrow's steamer, mounting up to \$2,50,60 as compared with preliminary estimates of \$2,60,000. The large engagements were in spile of sagging interest rates in London and a sharp decline in the discount rate at Berlin. Sales, 45,000 shares. The bend market was dull and irregular, Total sales, par value, \$1,365,000. United States 5s registered and the new to advanced by in the bid price.

He Had Cause to Rejoice. "A young man came into our store yesterday suffering from a severe attack of cramp colle," writes H. F. Hess, miller and general merchant, Dickey's Mountain, Pa. "He had tried various home remedies without relief. As I had used Chamberlain's Colic, Cholera and Diarrhoea Remedy I gave him a dose and it soon brought him out alright. I never saw a fellow so re-joiced." Sold by all druggists. Mat-
