former to Utica, N. Y., and the latter to New York city. It is expected that the new Delaware and Hudson passenger station will be ready for use by the close of the present week.

The "Monte Carlo Giris" are booked to appear at the Opera house Wednes-day night, Jan 19th.

Saturday evening a portion of the brick wall on the North Side of the Delaware and Hudson round house, now being erected, fell in with a crash, but fortunately no one was injured, as the workmen were just leaving their work. The main or outside walls were completed, ready for the truss work for supporting the roof. The bricks were laid during the very cold weather of the past two weeks, the mortar freezing quickly. The bright, warm sun during Saturday caused the mortar on the south side of the wall to soften, while on the north side it cemained frozen, thus causing the wall to settle on one side and the over. What remains standing of the north brick wall must be taken down and started again from the foundation, as

it is very much warped. This will delay the completion of the building. Workmen were engaged yesterday removing the brick wall which had fallen.

The man lives about a hundred yards from the road over Brown Hill, and possibly one-half mile from the Delaware, Lackawanna and Western railroad depot. He left his home at 10 minutes

of six o'clock this morning to go to his place of business. As a short cut Albert generally goes down to the railroad track near the Shiffer house, at the corner of Brustde avenue and Brown Hill. Highwaymen were hiding, and as Albert passed by he received a blow on the back of the head which rendered him unconscious at once. The money was in a sack in his pocket. The bag was emptied by robbers. The man's watch was the broken away from a leather chain, but was afterwards found about twenty-five feet away. Andrew Albert, father of the injured man found the body of his son as he came up from his night's watching at the boiler works, a few minutes after six. In today's market opening prices were well down to or below the London parity and so long as arbitrage selling was in evidence they were allowed to remain there or nearly so. Later in the day there was a sharp recovery in prices when the pressure of the Lon-don selling ceased. This recovery was partly due to London itself, which bought back a few stocks sold earlier in the day on General White's report of a repulse of the Boers at Ladysmith. While there was no effort to bid up prices there was gool absorption at the recessions, some very heavy blocks of prominent railroad stocks being taken on. New Jersey Central was bld up 3½ points on the increase of the dividend rate without any sale. Sugar, Brooklyn Transi; and some of the iron stocks recovered sharply from early weakness. The demand late in the day in the general list found such a very light supply that prices hardened steadily to about Sat-urday's closing level. Net losses were reduced to fractions where they were not entirely wiped out. Total sales, 459,100 shares. Dealings in bonds were on a small

scale and the tone was heavy, with a few rallies in sympathy with stocks Total sales par value, \$1,300,000. United States bonds were unchanged in bid quotations.

SEIZURE OF JERMAN SHIPS.

One Owner Admits Contraband Was Discharged at Port Said.

Hamburg, Jan. 8.-Herr Adolph Woermann, one of the owners of the German vessels which were seized by the British, was interviewed today by a representative of the Associated Press. He said:

"The last ship taken is the Horzog. She has on board the Dutch, Belgian and German ambulance corps. All

these were traveling bona fide under the Red Cross. It is certainly the first time such a corps has been detained by a hostile government. Their services were offered to the British, but were refused. We cannot help considering the action of the British as intended chiefly to prevent the German East African line from continuing its service on account of its competition against lines. We consider the seizures entirely illegal and against everything that until now has been considered the law of nations. The actions of the British authorities are simply those of brutal force, and what the consequences will be we cannot say. So far, in both the case of the Bundesrath and that of the General, the only representations made by Great Britain consist in the allegation that they are 'suspected of carrying con-traband.' The directors of the German East African have not the least doubt that the vessels have no contraband on board. Every precaution was take 1. We went so far even as to discharge

at Port Said and Der-es-Salaam articles of war shipped on board our steamships previous to the outbreak of hostilities "Regarding the passengers, many of them are known to us as regular pt-

trons of the line. It was known that other persons intended to go to the Transvaal, and, while there might be some adventurers anxious to profit by the prospects there, there was not, so far as the directors could ascertain. one passenger traveling to the Transvaal to serve in its army."

Herr Woermann is not only a large ship owner, but one of the largest German investors in the East African possessions. He is a personal friend of Emperor William, and it is generally understood is carrying out imperial wishes in regard to African colonization and commerce.
