JONAS LONG'S SONS.

Following in the wake of the great semi-annual sale of Muslin Underwear, which this store began two weeks ago, this city is now surfeited with similar sales—mostly of goods bought under the extreme advances in prices. As is generally the case, those who look around and then come here, have no desire to go further

### Qualities and Prices Here Will Stand the Supreme Test of Comparison.

We own our present great stock at almost a third less than we could duplicate it, were we to buy today —and our present prices are LESS than others pay to

While our stock is undoubtedly double that of all others in the city, it is not to the size but the quality

we direct you. Made up in the most careful and conservative of factories, by proficient women-folk who know how to add every possible touch of daintiness, we can safely assert that no other assortment in Scranton has so much to thoroughly commend it as the one on view here.

#### Of the Finer Sorts

Of Undermuslin our advertisements have reflected but little-we have left it to the admiring glances of the hundreds who have come and bought so freely: an advertisement of itself. Nothing that deft fingers or skill has evolved will be found missing in this assortment, which for exquisiteness and richness and daintiness has no peer in any store throughout the state.

"Last spring I got past doing anything and my husband went to the drug store and called for Wine of C—, and the merchant recommended Dr. Pierce's Favorite Prescription, so he bought one bottle. I began to take it as directed in the pamphlet wrapped around the bottle. The book said if the disease was complicated with cough to take Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription' alternately, and Dr. Pierce's Pleasant Pelleta, on rising every morning. S. N. Baker, commonwealth vs. Frank Mulligan and J. J. Sherwood, the grand jury find "not a true bill and protecttors to pay costs" and prosecutors were called before the court and sentenced to pay the costs. These cases were brought by several young men of Meshoppen borough against Frank Mulligan, who is the burgess of the borough, and the other defendants, acting under his instructions, charging assault and battery. The cases grew out of the arrest of the prosecutors by the defendants on last Hallowe'en for alleged breach of the peace, and the prosecutors in these eases are the plaintiffs in several actions brought in the civil courts to recover damages for injuries and sickness resulting from their imprisonment in the Meshoppen

borough lockup on this occasion. ## THE MARKETS.

Wall Street Review.

Wall Street Review.

New York, Jan. 17.—The stock market continued dull and without much life, but there was an unmistakable tone of strength and the entire list showed a substantial improvement. Dealing in the highly speculative industrials predominated but the proportions of the dealings in them were not so excessive. There was a notable movement in the Leather stocks early in the day, but it was not well sustained. Third Avenue suffered a violent decline of 64 points but recovered 34. Otherwise the group manifested strength under the influence of the covering by the outstanding short interest. Signature of the group manifested strength under the influence of the covering by the outstanding short interest who were influenced by the general strength of the general market. Reports of a military victory sustained the London market. The decided improvement in the buying of railroads was conspicuous in the Grangers, Southern Pacific, and Baltimore and Ohio, though the latter stock met free offerings to realize. The railroad list generally was benefited sympathetically by this strength. The St. Paul for the second week in January encouraged buying in view of the increase of \$111,555 over last year's earnings, which in turn had been greater than the year before by \$141,355. The supplementary report of the Baltimore and Ohio at six months, December 31, 1899, was an influence of strength. The increased grain movement, good export demand for wheat and the continued increased money supply were all factors of strength. The preliminary statement of agricultural reports had shown decreases from last December of 25,250,238 and as the total exports for the month showed a decrease from December of 1899, only \$14,655,352, the difference is attributed to the opening of ports to manufactured goods. Taking the calendar year as a whole the decline in excess of merchandise is about offset by decline in the excess gold imports, leaving the favorable balance of trade about the same as last year. Sales for the day, 273,709 shares. The market for bonds was not very active but firm. Total sales, par value, 1,255,600. United States 4s advanced 4 in the price bid.
