THE SCRANTON TRIBUNE-FRIDAY, JANUARY 19, 1900.

NORTHEASTERN PENNSYLVANIA

EIGHT YEARS FOR WHIPPLE.

Sentence of Man Who Killed Del Koons-Other Wyoming County Court News.

Special to the Scranton Tribune. Tunkhannock, Jan. 18 .- The case of commonwealth vs. Otis Whipple, charge, murder, was called upat the opening of the court this morning, defendant being brought into court by Sheriff Grey, On Wednesday defendant, acting under instructions of his counsel, had withdrawn his plea of "not guilty" and substituted the plea of "guilty of manslaughter," and the hearing this morning was for the purpose of enabling the court to fix the length of sentence. Several witnesses were called by the commonwealth and their testimony showed the following state of affairs. The murdered man. Del Koons, came to the house of William Clark on the afternoon of the murder, drunk, and he and William Clark got into a wagon and drove over to Whipple's house, about three miles, and found him at home with his wife. They persuaded him, after several drinks had been taken, to accompany them back to William Clark's place, where they found Corey Clark, William Conrad and Nellie Burch. Koons had some whiskey and Clark had some hard cider. Some chickens were killed and preparations were made for a sort of jollification. While these prepar-ations were going on Koons and Whipple had an altercation, which finally ended in blows being stuck. Koons followed Whipple across the room and finelly had him down in the corner of the rooms, and there the blows of the knife were struck which resulted in with which to erect the necessary build-Koons' death. One witness was called by the commonwealth to prove threats made by Whipple against Koons previous to his affair, but under crossexamination her evidence broke down. After pleas by Henry Harding, for the defense, and C. O. Dershimer for the commonwealth the court called the defendant before it and pronounced sertence as follows: To pay a fine to the commonwealth in the sum of \$500 and undergo confinement in the Eastern state penitentiary for the pertoo of eight years and nine months, sheriff to convey him there within ten days. Whipple was taken back to jail in charge of Sheriff Gray and will be conveyed to Philadelphia some time next week.

In the case of commonwealth vs. Bradley La France, charge, rape, in which the jury was out all day yesterday, a verdict was rendered this morning at the opening of court of not guilty.

The attention of the court today is being taken up with the case of commonwealth vs. Michael Flynn, charge, cutting timber on lands of another, and this case will be given to the jury this afternoon.

The equity trial list will be taken up as soon as the sessions business is disposed of and will occupy the balance of the week.

BRADFORD FINANCES.

of the County Auditors. Made This Week.

Special to the Scranton Tribune, Towanda, Jan. 18 .- Yesterday the county auditors of Bradford filed their

the

Clara Watson went to Peckville to attend the Hale-Barnes wedding. Gus Tiffany is filling his ice house Mrs. Chauncey Oakley is quite sick at this writing.

Rev. O. L. Severson's lecture, "Scraps from a Soldier's Dairy," was well at-tended. The old soldiers seemed to enjoy it as well as the young people. The Ladles' Ald society of the Congregational church met with Mrs. Julia Estabrook Wednesday for dinner. Revival meetings are still in prog-

SUSQUEHANNA COUNTY.

Special to the Scranton Tribune. Susquehanna, Jan. 18 .- A "gentleman's dinner" will be given under the auspices of the Great Bend Methodist church op Saturday evening, Jan, 27, Among the "dish renovators" appears the name of Editor More, of the Plain-Dealer. In the process of renovation it is sincerely to be hoped that the editor will not use the printing office towel. Several cattle belonging to J. F. Cart. in Great Bend, suffering from tubercu-

losis, have been killed. J. B. McCreary, a retired merchant of Hallstead, was stricken with paralysis, nine weeks ago, and is still in a comatose condition. His ultimate recovery is improbable.

Reuben Barnes, for the past year assistant secretary of the Hallstead Railroad Young Men's Christian association, has been appointed to a similar position in Sunbury. In Hallstead, J. H. Van Loan has

contributed the site, and a committee is working energetically to secure funds ing, for the Brandt chair factory. The January term of county court

will begin on Monday, Jan. 29. Rev. E. R. Allen, pastor of the Baptist church, has tendered his resignation, to take effect March 1, next, and it has been accepted by the congregation. Mr. Allen's future plans are not

known to the public. It is probable that Henry F. Manzer, the capable and popular prothonotary of the county, will receive an unanimous renomination in the coming Republican county convention.

Several business places in Hallstead and Great Bend were burglarized on Monday night. The burglars stole a Herrick farmer's horse and wagon from the streets of Hallstead and made off with their plunder. Evangelist Bush and a number of

non-sectarian workers are holding neetings in Hallstead. The remains of Switchman William Moran, who was killed in Reading on

Monday, arrived here last evening. The funeral will take place from St. John's Catholic church on Friday morning. when a requiem high mass will be celebrated.

The New Milford Advertiser has been sold to the recently-chartered "County Press and Printing association," C. P. Weiss, formerly of Susque-

hanna, but recently master mechanic of the Erie's shops in Hornellsville, has taken a good position with the Lackawanna road, at Easton.

To save high rents, it is reported that a great amount of Eric railroad documents, now stored in New York city, will hereafter be stored in the company's stone and brick building, in usquehanna.

head by tidal waves, and yet, owing to its great weight and solidity, has The cave is now in the possession of a man named Folsom, a distant rela-tive of Grover Cleveland's wife. He come through the experience undisholds the fort by virtue of a judgment on mechanic's lien, having been em-ployed to explore the cave and failing

to receive his pay therefor.

Wind cave is reached by stages over bad roads. Arriving at the cave, the

first impressions are disappointing. The visitors are prepared for the trip by putting on old shoes and white skull

caps, and when all are ready are giv-

en a candle each. Mr. Folsom then

unlocks a door, which reveals a room

just large enough to cover a trap in

the floor. The trap swings upward and the visitors go down in single ille by a narrow, precipitous flight of steps

to a depth of about 100 feet. The

walks and passages are then reached.

leading at intervals into the various

entrance.

FROM FROST TO FLOWERS.

First Trip of the New York and

turbed.

Florida Limited. the New York and Florida Limited rolled out of Jersey City on January 16, for its first flight of the winter, the season of migration to the sunny south-land was formally and brilliantly opened. This edition de luxe of travel operated by the Southern Railway System and connections, was greatly admired by crowds gathered at the start. When the last fortunate passengers arrived on the 12.40 ferries from New York, and when at 3.14 p. m. the magnificent train flashed out from Broad Street Station, Philadelphia, for the magical swiftness of the change from winter icy grip to the

balmy summer skies of Florida in one day of travel. The train which began this regular winter service on January 16 will be run daily, except Sunday, until the carly part of April, and for the in-augural trip all the accommodations

available had been engaged long in advance. "No wonder it's filled up every day of the season," said an old railroad man yesterday. "That New York and Florida Limited is all the advertisement it wants itself. Just look at it and go aboard of it once. That's the most luxurious train in the world, and I've looked over most of the crack flyers."

The train which aroused the veteran's expert's highest admiration was composed of Pullman Compartment cars. Drawing-Room Sleepers, Library, and finished with unique taste and richness. In the Compartment cars, each was complete in itself, to be used singly or en suite; while the Drawingroom Sleepers were the ones used by President McKinley and party in their recent tours. The Library suggested the reading room of a perfectly appointed club, with easy chairs and sofas, writing desks, and the latest periodicals. The Observation car at the end of the train, with sides and ends of plate glass, and a spacious enclosed platform was a veritable sun-parlor with plazza attachment. From bathcooms to barber shop nothing was lacking to replace every comfort and convenience left behind by the pilgrim, in house, hotel, or club, no matter how excellently appointed.

This train is whirled through solid. flying palace, between New Yora and St. Augustine, excepting one Pullman Drawing room Sleeping car which leaves the train at Blackville, S. C., and goes to Aiken and Augusta and one Pullman Drawing-room sleeper which leaves the train at Jacksonville and goes through to Tampa.

To leave New York at lunch hours of ne day, by the New York and Florida Limited, and be strolling in the palm gardens of St. Augustine a couple of nours before one needs to dress for dinner the next afternoon, is to leave discounted the fairy tale of the "Flying Carpet."

From January to May, in what is carcely more than an over night flight is the calender of steam racing with the calender of the sun. The seasons seem to be flashed by as if the round

reached the spot, where the deer lay, he noticed a strong draft of air, which cars, Drawing-Room Sleepers, Library, seemed to come from behind the Dining and Observation cars, furnished bushes. He was led to investigate and found that it came from an opening in the side of the mountain. The wind was so strong that when he threw his hat into the hole it was blown out with such force as to fall

twenty feet away. He went home and reported what he had seen to his brother, who was incredulous and asked Mike if he had been drinking. Nevertheless the brother was induced to visit the place and the cap experiment was tried, but meanwhile the wind had changed and the cap went into the cave as rapidly as it was blown out the day before. An investigation of the interior, supplemented by excavation, led to the belief that the cave could be utilized as a great natural curiosity, but as it was still the property of the government it was necessary to obtain this under the United States land laws. Hence the making of mineral and agricultural entries and the consequent litigation that has resulted.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Wall Street Review.

New York, Jan. 18.-Stock market conditions showed no marked change from the business prevailing for some time were completed in a day, instead of a past and lassitude was the characteris-year. Yet Florida is four or five tic. One railroad stock reflected a fair months distant in air and sky and sea demand, notably the Norfolk and Westand vernal, caressing loveliness. St. ern issues and Union Pacific. The Bal-Augustine, whither the pilgrim is timore and Ohio stocks were also bought borne in his home on spinning wheels, in moderate volume. Yesterday's moveis an ideal entrance into charm of the ment in leather, from which speculators

ress and the interest is increasing.

examination of the financial affairs with the prothenotary. They began work on January 1 and completed it on Saturday, making a record for quick time. The report finds the accounts of the county commissioners and as overseers of the poor and with the court house fund to balance. The accounts of Sheriff Fell also balance. There was received during 1899 from collectors and ether sources \$85,879.69. Credited against this sum are expenditures of \$62,575.-19; state tax, \$11,707.81: treasurer's commission. \$1,333.38; balance in treasury January 1, 1900, \$11,263.38. The assets are the balance in the treasury and county tax unpaid on duplicates, \$5,466.36; state tax unpaid, \$1,385.63; dog tax unpaid, \$\$40.

The indebtedness of the county consists of bonds to \$150,000. The assets of the court house fund consists of a balance in the treasury of \$9,413.94. and court house tax unpaid, \$2,798.40, making a total of \$12,212.31. The assets of the poor district consists of an indebtedness of the poor treasury of \$3,134.90, and poor tax unpaid of \$2,782. On January 2, 1899, there were 170 inmates of the poor Louse; there were admitted during the year \$3; 23 died. 22 were discharged, and there are 58 children and adults on trial in famflies, leaving a present attedance of 151.

The salaries and expense of the county commissioners as such amounted to \$2,176.66. As overseers of the poor their salaries and expenses were \$2.-139.80. The salaries of the commissioners' clerks for the year amounted to \$2.267. The total amount drawn from the poor district treasury on orders during 1899 was \$27,738.11. The county paid for the support of prisoners in the jail, state prisons and reformatory the sum of \$5,421.93.

HARFORD.

Special revival meetings are being held in the Hallstead Baptist church. The Lackawanna employes in Hallstead were paid today for services in December.

Hunters have recently killed quite a large number of wildcats in this section. They again receive \$2 per scalp from the county commissioners, which acts as a great incentive to hunt. The Erie has completed its work of gathering ice at Ararat, for the Jefferon branch.

It is stated that Mr. Holbrook, of Wilkes-Barre, will succeed V. Blackburn as superintendent of the Canawacta Water Supply company.

A TREMBLOR-PROOF PALACE.

From the San Francisco Chronicle

The building plan of the earthquakeproof palace for the Crown Prince of Japan shows that the Japanese architects have finally given over their ideas in favor of those which were first illustrated here. Formerly the Japanese believed that the lighter the fabric of the building the more easily it would ride the ground swell of a tremblor, and they stuck to the engaging fantasy. despite prostrate bamboo walls and falling tiles, for many years after beter methods had been demonstrated. At one time there was a disposition to adopt Prof. Milne's advice and rest all

tructures on cannon balls deposited in socket in stone foundations, the idea being that the balls would move under the shock of the earthquake and relieve the strain upon the house. But the advice never became popular, and now the Japanese have come to the point in their most significant building, of

depending upon the cage-like structure of steel, of which the Chronicle edifice was the earliest type in this city. The palace will not, of course, be high, and narrow like the modern office building, and will not need much of the

inthrust which gives such structures world. What a theme for a fairy story their peculiar shape. But the principle it would have been a few generations of knitting the whole mass together, ago. not only with sides and floor and roof

DAKOTA'S LONGEST CAVERN.

the same material, has been chosen, and as a result the young Crown Prince Ninety-One Miles Long.

earthquake-smitten empire. It is helieved that a building like this will Wind cave, thirteen miles from Hut withstand any seismic convulsion which is not accompanied by a subsidence of Springs, S. D., is visited annually by about 3,000 people, although the place the earth. In that respect the new is not generally known to American palace may have as lucky a history as citizens. At present the admissions Japan's ancient bronze idol Diabutsu, average about 3,000 annually and do which has passed through innumerable not yield enough revenue to pay the earthquakes, and has twice fiad its lawyers who are contesting the ownerwooden temple swept from over its ship of the property.

down the East Coast to the tropical paradise of the Indian river and Lake Worth with the superb chain of hotels, and from Palm Beach across to Nassua, or direct from Miami to Havana. The interior of Florida also is filled with popular and charming resorts by blue lakes and pine forests and mango groves, which are reached soonest and most pleasantly by the Southern Railway System. Florida draws more winter birds of passage to her witcheries every year and in many favored regions the hotel accommodations have had to be notably increased since last year. What is called cold weather in that latitude is never more than a day or two of bracing air, quickly forgotten in the flooding sunshine and soft winds which calls to the out-ofdoor life of the northern summer. Whatever the habits or bent of occupation, Florida in these days fails not to satisfy bountifully, whether it be hunting, fishing, sailing, bathing, gold, tennis, bicycling, loafing, the society life and color of Bar Harbor or Newport or the pursuit of health and strength for their own sake.

The New York and Florida Limited leaving Philadelphia daily at 3.14 p. m. flies to and fro, a mighty shuttlecock of steel, weaving the seasons to its will and setting at defiance all the calenders invented by the wise men; from winter to spring, to summer in a day, and the transformation wrought while on the most magnificent train in the

supports of structural steel, but with longitudinal and horizontal braces of

As Far as Explored Wind Cave Is

will have the safest residence in his From the New York Journal.

is an ideal entrance into charm of the Florida winter time. The picturesque atmosphere of old Spain lingers yet after three stony centuries, in the crooked streets, while trim Northern maidens play golf around the gray and ancient fort and eity wall, and stroll about the palatial hotels which are world famous for luxury and har-monious splendor of architecture. From Jacksonville or St. Augustine, travelers by the New York and Flori-da Limited are able to reach any of the attractive regions of the sea-washed and sun-bathed peninsula, to Tampa and the West Coast, and fur-ther on to Key West and Havana, or down the East Coast to the tropical

very light demand there was no press-ure to sell stocks. The further reduction in the Bank of England's private rate of discount and the weekly return of the bank served to confirm confidence in the money outlook. The strength in London on this score and on the hopes engen-dered by the meagre news from South Africa causes some reflected strength in the New York stock market. Reserves continue to accumulate in the New York banks both by reason of the reflux of funds from the interior, the deposit of internal revenue collections with the banks and extraordinary government dis-bursements by the sub-treasury on ac-count of the pensions. The stock market demand for money on call continuing very light, funds are pressing more and more for employment in time loans, which are quoted as low as 4½ cents on all rail-road stock collateral. Extraordinary loans are even reported at 4 per cent, and mercantile paper of a high grade is coming into additional demand at 5 per cent. Today's strong undertone in stocks was emphasized by the good reports re-clause the bank of England has with-drawn its concessions on gold export, thus raising the gold export point for exchange clearly above that at which gold has recently gone out. Total sales, 272,500 shares. The improved demand for bonds is a natural result from the cneap-ened rates for money and the pressure of capital for productive employment. Husiness was fairly well distributed and advances quite uniform. Total sales par value, 32,25,000. U. S. 3s and old 4s ad-vanced ½ and new 4s, coupon declined ¼ in the bid price.

The following quotations are furnished The Tribune by M. S. Jordan & Co., rooms 765-96 Mears building. Telephone 5003: Open- High, Low, Olar
