BANK OF ALAMOGORDO.

Meeting of the Stockholders Held on Tuesday Evening. The first annual meeting of the shareholders of the Alamogordo National bank was held in the railroad building, opposite the depot, Tuesday evening. The old board of directors, viz: C. D. Simpson and Henry Heilin, resigned; Henry J. Anderson, Robert H. Pierce, Charles E. Edsall, W. A. Hawkins, S. H. Sutherland, J. L. Jackson, of Alamogordo, and T. L. Welles, of Capitlan, were re-elected, after which the meeting was turned into the board of directors meeting for the purpose of electing officers for the ensuing year. Henry J. Anderson was elected president; Robert H. Pierce, vice-president, and John W. Wyatt, of Houston, Texas, cashier. These men are all well known in banking and financial circles in their respective communities. Mr. Anderson has been connected with banks for the past twenty years. He was for a number of years associated with the treasury department in the capacity of bank examiner and is eminently fitted for the position of president to which the board of directors of the First National bank of Alamogordo elected him. Mr. R. H. Pierce, who was elected vice-president, is too well known in this section for any comments as to his sterling business qualities to be necessary, as he is one of Alamogordo's pioneer merchants. Mr. Wyatt, cashier, is a favorite in banking circles in the community from which he hails, coming with the highest recommendations. — Alamogordo News.

IS PRISONER PELOSO?

Interesting Story Afloat in the Court House. There was a sensational story afloat in the court house yesterday that was amusing even though it may be fiction. It was that District Attorney John R. Jones had received a cablegram from County Detective Thomas Leyshon and his deputy, Wade M. Finn, announcing that the man who is detained in Naples as Angelo Peloso is not Peloso at all, but another Italian of a somewhat similar name. District Attorney Jones denied to a Tribune reporter that he had received any cablegram from the Lackawanna officers in Italy, but when the question as to whether or not Peloso had as yet been identified was put direct, he seemed a little perturbed, and after some hesitancy declared that he did not know. The last letter he received from Detective Leyshon, was written January 2, and at that time he had not yet seen the prisoner, so the district attorney says.

A Delightful Trip to Florida or California.

It will be of special interest to those contemplating a trip to the Land of Flowers or to the Pacific Coast to know that he undersigned, or any ticket agent of the Lackawanna railroad, can sell round-trip tickets to all principal points at the very lowest rates. Also send to residences for baggage and check same through to destination. Reserving all sleeping car space desired in advance; in short, furnish maps, time-tables and full information. Remember the Lackawanna has three trains daily with through sleepers and day coaches to Chicago. No change of cars. M. L. Smith, D. P. A., Scranton, Pa.

NON SUITS GRANTED BY JUDGE EDWARDS

AN INTERESTING ATTACHMENT EXECUTION CASE. A Three Days Interim Defeated Recovery on the Part of a Lumber Dealer Who Had Furnished Material to a Defaulting Contractor. Another Plaintiff Fails to Respond and Has a Verdict Entered Against Him—Finding in the Pfeiffer-Schubmehl Case. An interesting attachment execution case was tried before Judge Edwards in common pleas yesterday. H. E. Davis, a lumber dealer, furnished \$500 worth of the material that was used in the construction of Ignatz Imeldoff's house on Mulberry street, the same being delivered on the credit of the contractor, T. A. Patience. Before completing the contract, Patience left off without settling his lumber bill. Davis applied to Imeldoff for payment and the latter agreed to turn over \$500, which he had in hand for Patience; a proper order was presented. This order was secured, but, as the supervising architect's certificate was wanting, Imeldoff declined to pay it. The date of Imeldoff's admission that he had money belonging to Patience was Oct. 3. Three days later the attachment execution was issued against Patience and Imeldoff as garnishee. When the case came to be tried yesterday, Mr. Newcomb, attorney for Imeldoff, moved for a non-suit on the ground that the evidence failed to show that Imeldoff had any money belonging to Patience on or after the date of the attachment execution. J. M. Walker, attorney for the plaintiff, opposed the motion vigorously, continuing in a running argument with the court for hours. The judge, however, was fixed in his opinion that the defendant's contention should be affirmed and accordingly granted a non-suit, with a rule to show cause why it should not be stricken off, returnable at argument court.

A SECOND NON-SUIT.

A non-suit was also granted in the case of William Carey against Patrick Cadden, the plaintiff failing to answer when the case was called. The German American bank secured a verdict by default against Rudolph Bloesser on a promissory note of \$443.55. In the case of William Pfeiffer against W. J. Schubmehl and William Reese, the jury returned the following special findings and conditional verdict: The court requests the jury to answer the following questions, as part of their verdict: 1. Were the proceedings on the second landlord's warrant of May 31, 1898, duly returned and the attachment and writ for the benefit of the plaintiff on a proposition of settlement? Ans.—Yes. 2. What was the fair market value of the stock, the goods in question in this case, when the levy was made? Ans.—\$29. 3. Did the plaintiff suffer any damage by being deprived of the opportunity to follow his occupation, through the action of the defendants? Ans.—No. 4. How much rent did the plaintiff owe when the first levy was made? Ans.—\$125.37. We find in favor of the plaintiff for the sum of \$74.83, subject to a point reserved by the court, whether there is any evidence in the case to sustain the plaintiff's claim, and to entitle him to a verdict. Dena C. O'Hara, foreman.

COURT HOUSE NEWS.

The Carbondale Traction company has been advertised for sale by E. N. Willard, specific master of the company, having failed to settle its indebtedness with the Real Estate Trust company of Philadelphia within the fifteen days specified by equity court. On motion of Attorney H. M. Hannah, representing the defendant, a rule was yesterday granted to set aside the sheriff's sale and stay all further proceedings in the case of Andrew Zolewski against Mary Parcel. The rule was made returnable at argument court.

Suit in ejectment was yesterday instituted by Howard S. Gans, trustee in bankruptcy, against the sheriff's sale of the Kline & Co.'s liquor store against which executions, amounting to \$1,600 were issued by B. Moses. The sale is now scheduled to take place February 12, but it is likely it will be indefinitely postponed as a number of creditors represented by Attorney Harold L. Levy have undertaken to have the firm declared involuntary bankrupts.

Mat Wravitch, defendant in an assumpsit suit, brought by Joseph Kosglis, and in which a verdict was entered for the plaintiff, because of the non-appearance of the defendant, applied to the court yesterday for a rule to set aside the verdict and allow a new trial, alleging that his failure to appear was due to the fact that his attorney, ex-Judge W. H. Stanton, on whom he relied to notify him of the cases being on the trial list was ill. The rule was granted and made returnable at argument court.

FOR A WATER TOWER.

Chief Walker to Ask Appropriation for This Improvement. Chief of the Fire Department John H. Walker, has asked for an appropriation of \$1000 in his annual estimate for the purchase of a water tower attachment to be fitted to an ordinary hook and ladder truck. The plan is to use a special hose fitted to the long ladder on the truck and so arranged that the stream it throws can be regulated from the ground. By this means, the ponderous and expensive regulation water tower now in use in some of the larger cities could be dispensed with and a substitute just as useful procured for a slight expense. The chief believes that such an addition to the city's fire fighting force is a necessity on account of the numerous high buildings now being erected in the city. It is also thought that the apparatus would be useful at breaks for such as by means of it a stream of water could be directed on the highest parts of a fire which are impossible to reach under ordinary circumstances.
