Lackawanna "THE" Laundry. 26 Penn Avenue. A. B. WARMAN.

HE WAS FINED \$3.

Anthony Healey Charged with Disorderly Conduct. Anthony Healey, of Dunmore, is certainly an unlucky man. Wednesday afternoon he was run into by a street car near Laurel Hill, his head was considerably cut and injured and he was taken to the Lackawanna hospital and yesterday morning he was arraigned before Mayor Mohr in police court and fined \$3 for disorderly conduct.

After his wounds were attended to at the hospital he acted in a very loud and disorderly manner, and at last became so refractory that it was necessary to call in a police officer. Patrolman Hart was summoned, and coming in took Healey in charge and landed him in the central police station, and yesterday morning he was fined \$3 by Mayor Mohr for drunkenness and disorderly conduct.

COLLECTIONS FOR JANUARY.

Collector of Internal Revenue Penman Took in \$129,875.05. The total collections made by Collector of Internal Revenue Penman for the month of January are as follows: Collections on lists, \$1,784.16; beer, \$82,483.25; spirits, \$2,018.12; cigars, \$9,122.25; tobacco, \$10,238.95; special tax, \$1,276.84; documentary stamps, \$19,051.46; proprietary stamps, \$38.02; total, \$129,875.05.

For the sake of comparison to show the growth in revenue collections for the past year it might be mentioned that the collections for the month of January, 1899, were \$114,508.71.

ACCUSED OF LARCENY.

Charles Graner Committed to the County Jail. Charles Graner, of Petersburg, was yesterday arraigned before Alderman W. S. Miller on the charge of larceny, preferred by Aaron King. In default of \$600 bail he was committed to the county jail to await trial.

King claimed that Graner stole a tool chest containing a full kit of carpenter's tools from the carpenter shop of Woolsey Brothers, contractors and builders.

We are retiring from business and will save you some money. Write us your wants if preferred.

Lackawanna Hardware Co., 321 Lackawanna Avenue.

COUNCILMAN MELVIN WAS NOT PLEASED

COMMITTEE DID NOT REPORT ON WATER ORDINANCE.

He Succeeded After a Lengthy and Animated Debate in Having the Measure Taken from Their Hands. Mayor's Message and Other Important Communications Read. License Committee of Common Council at Last Reported on License Tax Ordinance.

The special committee to which was referred Select Councilman T. C. Melvin's ordinance fixing the price to be charged for water, again failed to report at last evening's meeting of select council, but this time Mr. Melvin wouldn't listen to any excuses and succeeded, after about a half hour's heated discussion, in having the measure taken from the committee's hands.

When the committee failed to report Mr. Melvin sprang indignantly to his feet and moved that the ordinance be taken from its hands. Then Mr. Chittenden, the chairman of the committee, arose and said:

"This committee needs more time to consider this ordinance, which I must say is very crudely drawn up. If we want to fight this matter out in the courts I would suggest the drawing up of a new ordinance entirely. The committee has so far been able to gather that the complaints against the water rates come only from those to whom metre rates are charged and not to private parties."

"This ordinance, by fixing the metre rate at 13 cents per thousand gallons to consumers using 1,000,000 gallons or less a year, aggravates the very point that the board of trade and other interested parties want lessened. The board of trade has asked that a uniform rate of 5 cents per thousand gallons be granted small manufacturers."

MR. MELVIN'S ARGUMENT.

Mr. Melvin said in reply that as metres had been introduced in business places it would only be another step to introduce them in private dwellings. "At any rate," said he, "there should be no more dilly-dallying on the part of a committee, the matter should be brought before council."

Mr. Sanderson, a member of the special committee, thereupon took the floor and said that great care should be taken in the preliminary consideration of such an important measure. He said that the city solicitor had stated that specific could fix the rates at a "reasonable" figure, but he thought that the definition of what "reasonable" rates were might be difficult.

Mr. Sanderson's remarks prompted Mr. Roche, also a member of the committee, to make a brief speech. He said that the committee had been woefully negligent in its duty, having had but two meetings, and that he was surprised to hear Mr. Sanderson, who had not attended either one of these meetings, get up and talk in the committee's hands.

Mr. Melvin's motion to take the ordinance out of the committee's hands was adopted almost unanimously. The gentleman from the Fifth made no attempt to bring it before council.

Clerk Lavelle, early in the evening began to patiently read the mayor's message and had about half finished when Mr. Roche moved that it be received and filed which motion was agreed to. The lengthy communication from the city controller referring to the rather reckless methods prevailing of late in councils was also read and ordered filed. The report of the sinking fund commissioners was read and received.

UNIFORM WIDTH OF RIVER.

A communication from the city engineer was read requesting councils to establish a uniform width for the Lackawanna River and to at once stop the dumping of ashes and other refuse at that stream. He further stated that at the present time the ashes were in some places three feet deep in the river bed causing an overflow of the water which damages valuable property. The communication was read and received but no action was taken.

A communication from Mrs. Margaret Cattery, of 431 Phelps street, was read, stating that her property had been damaged by an overflow of water from the street and requesting a committee from council to view the place with a view of awarding her damages. The matter was referred to the city solicitor in conjunction with the sewers and drains committee.

The mayor's communication, dated Nov. 23, was read calling the attention of councils to the necessity of numbering all the houses and marking all the streets in the city. Chairman Williams appointed as a special committee to consider the matter, Messrs. McAndrew, Kearney and Thomas.

The following common council resolutions were concurred in: Directing the removal of an electric light at the corner of Clearview and Sumner avenues and its re-erection of a fifty foot pole; authorizing the sale of the houses, etc., on Wyoming avenue condemned by the voters.

A resolution introduced by Mr. Melvin, granting permission to the Scranton Illuminating, Heating and Power company to construct a water main over the southern span of the Linden street bridge was adopted.

SEWER ON WYOMING AVENUE.

The ordinance providing for the construction of a sewer on the portion of Wyoming avenue about to be opened and other points passed third reading as did the ordinance providing for the grading of Bloom avenue in the Third ward.

Mr. Schneider introduced an ordinance providing for the construction of a sewer on the portion of the Linden street bridge and measure was referred to its proper committee. Council then adjourned, after much discussion, to meet next Thursday evening, a number of the members considering that the press of business rendered such a meeting necessary.

MEETING OF COMMON COUNCIL.

Report Presented on the License Tax Ordinance. The license committee of common council, to whom was referred the license tax ordinance, and who have had that measure under consideration for upwards of six weeks, presented their long expected report at an adjourned session of that branch of council held last evening.

They recommended the exclusion of a number of the measures in the measure, but only suggested one other change,

namely, the increase of the license on push cart peddlars from \$5 to \$10 a year. The ordinance passed first reading last evening, there having amendments, and their name is legion, deciding to hold them off until next Thursday evening. The clauses which the license committee recommended should be cut out are as follows:

Class V—Keepers of public billiard, pool, buggie and picnic table, shall pay for each table annually the sum of \$ 5.00
Class VI—Keepers of bowling alleys shall pay annually for such alley the sum of \$ 10.00
Class VIII—Contractors shall be rated according to the volume of their business for the year immediately preceding the tax year and shall pay annually into the city treasury as follows to wit:

From \$2,000 to \$5,000.....\$5.00
From \$5,000 to \$10,000.....10.00
From \$10,000 to \$20,000.....15.00
From \$20,000 to \$30,000.....20.00
From \$30,000 to \$50,000.....25.00
From \$50,000 to \$75,000.....30.00
From \$75,000 and upwards.....100.00

Class IX—Every butcher or person selling "fresh" meat within the city limits not of their own raising shall pay annually the sum of \$ 10.00
Class XIII—The owner of every dray, hack, carriage, omnibus, cart, wagon or other vehicle used for hire or pay, shall pay annually as follows, to wit:

For every dray.....1.00
For every one horse carriage.....1.00
For every cart.....1.00
For every one horse wagon.....2.00
For every hack.....2.00
For every two horse carriage.....2.00
For every two horse wagon.....2.00
For every stage.....5.00

Class XVIII—Merchants of all kinds contemplated by Clause IV, section 5, of the act of assembly of 1898, not specifically classified herein, shall pay 40 per cent of the amount paid for state license.
Class XIX—Every merchant not taxed under other provisions relating to mercantile tax are hereby made a distinct class and shall pay annually the sum of.....1.00
Class XX—Every fire insurance agent shall pay annually the sum of.....5.00
Class XXIV—Every fire insurance agent shall pay annually the sum of.....5.00
Class XXVI—Every collector or solicitor of taxes or rates shall pay annually the sum of.....2.00

GRIBER OBJECTED IN VAIN.

Mr. Gribler's resolution directing the chief of police to enforce the ordinance prohibiting the blocking of railroad crossings for more than eight minutes at a time was adopted despite an extremely vigorous attempt by Mr. Gribler to have it laid on the table.

Mr. Gribler offered old arguments about the nonsense of instructing city officials to do their duty, etc., but Mr. Griffiths and several others spoke so favorably for the resolution that it was adopted with only Mr. Gribler's vote registered against it.

Ordinances providing for four additional permanent men passed third and final readings. There was one for each of the following companies: Liberty, Niagara, Excelsior and Columbus.

When Mr. Godshall called up the ordinance providing for the additional man for the Columbus some one asked him how many men this company now had. He said three. Mr. Gribler said he would have to be a very cold day when he would vote for a fourth man for this company, taking into consideration the fact that there were a number of companies worrying along with only one.

Mr. Morris introduced a resolution directing the city clerk to advertise for sealed proposals for the lease of a building in North Scranton to be used as a police station. The resolution was adopted and was hurried over to select council and passed in that branch.

ANOTHER HOSE COMPANY.

Mr. Norton introduced a resolution admitting to the fire department the Essex Valve Hose company, providing that company furnish its own apparatus. This was passed in both branches despite an attempt by Select Councilman Chittenden to table it. A resolution similar to this was recently voted by the mayor, but that one provided that after one year the company should be an expense to the city. This clause has been omitted in the new resolution, which needs the approval of the mayor.

A resolution introduced by Mr. Keller directing the city clerk not to file the liens for the construction of a sewer on Schultz court was adopted. The following ordinances passed third reading: Providing for electric lights in the Seventeenth ward; providing for the construction of a sewer basin at the corner of Third street and North Washington avenue.

The following new ordinances were introduced: Cusick—Providing for two electric lights in the Twentieth ward. Neebel—Providing for the construction of lateral sewers in the Tenth ward. Coleman—Providing for two electric lights in the Sixteenth ward. Keller—Providing for the construction of a sewer system on Schultz court.

The streets and bridges committee reported favorably on Mr. Keller's ordinance providing for the opening of Vine street between Irving and Prescott avenues.

PLUMBER CAUSED A DESTRUCTIVE FIRE

HE WAS THAWING OUT A FROZEN WATER PIPE.

Set Fire to a Big Three Story Frame Building at Washington Avenue and Marion Street Owned by Carl Lorenz—He Had a Drug Store in the First Floor—Building Was Entirely Destroyed—The Loss Aggregates More Than Eight Thousand Dollars.

One of the most destructive and dangerous fires in this city in many months broke out about 11:30 o'clock yesterday morning in the large three-story building at the corner of North Washington avenue, owned and partly occupied as a drug store by Pharmacist Carl Lorenz. Before the blaze was thoroughly under control at 2 o'clock the building was almost entirely destroyed and damage approximating a little over \$8,000 was done.

The lower floor front of the structure was occupied by Mr. Lorenz as his drug store, while the rear was used by Dr. William H. McGreevy as an office. The two upper floors were occupied by James H. Bloomer and Isaac K. Croft.

The water pipes had been frozen in the night and a plumber was engaged in an effort to thaw them out. A portion of the floor on the south side of the second floor was taken up and a hand gasoline stove was being used to thaw the frozen water. Some small particles of dust must have been ignited and blown along under the floor, for in about five minutes time the whole south portion of the building seemed to be on fire.

ALARM TURNED IN.

Flames burst through the flooring and around the woodwork of the windows. One of the clerks was immediately sent to the county jail and an alarm was turned in from that point where a box is located. In the meantime the occupants of the second floor had barely time to save themselves, so fiercely did the fire spread. This was due to the strong wind blowing from the south, which was especially felt, as there were no houses south of the burning structure to break it.

The North Scranton companies and the General Phenix were the first to arrive and a few minutes later the Bell Telephone, Kay Augs, Phoenix and Hook and Ladder companies were on the scene. Chief Walker was also promptly on hand and directed the operations of the firemen.

It was apparent to every one at once that the fire had any chance of saving much of the building, but the firemen went to work with a will and soon had six streams playing on the flames. It was a hard fight for ordinary weather, but the mercury standing at 10 above zero made it doubly so. The spray from the hose freezing on the men's garments was frozen stiff in a few minutes and gave them the appearance of real live Esquimaux.

MR. ROBINSON'S KINDNESS.

Had it not been for the kindness of ex-Sheriff Charles Robinson, who lives on the corner, and several other families in the vicinity, there might have been many frozen hands and noses and ears. The houses of these were thrown open to the fire fighters and steaming hot coffee was served in abundance.

The firemen succeeded in keeping the flames from the drug store, but the stock in the latter was badly damaged by water. At 2 o'clock the fire was pretty well in hand, the upper floors and the back portion of the lower floor being merely a mass of smoking ruins. The fire of the flying sparks started small blazes on the roofs of adjoining dwellings, but these were in all cases promptly extinguished by the firemen before they gained any headway.

The total loss is about \$8,100, divided as follows: Mr. Lorenz' loss on building, \$4,000; on stock, \$1,500; insurance, \$3,500. Mr. Bloomer's loss, \$800; no insurance. Mr. Croft's loss, \$1,500; insurance, \$1,500. Dr. McGreevy's loss, \$200; no insurance.

Isaac Saville, one of the volunteer firemen at work checking the blaze, was struck on the head by a piece of plaster about 2 o'clock and this, combined with the terrible heat of the fire, shortly after overcame him.

MEMBER OF EAGLES.

Saville works in the Lackawanna gas shops and lives at Bellevue, where he is a member of the Eagle Hose company. When he heard the gong sound yesterday morning he left his work and joined issue with the members of the local companies in fighting the fire.

When he fainted away the Lackawanna hospital authorities were notified and Dr. Busch, with the ambulance, immediately went for him and took him to the institution. It was there seen that no injuries or burns were apparent on his body, other than he had simply been taken violently ill. He complained of feeling terribly cold and, although in a warm room, his teeth chattered and he shuddered as though the thermometer was below zero. His arms were completely frozen, and later in the day was getting along nicely.

About 10 o'clock last evening the fire which had been smouldering broke out afresh and the place was once more enveloped in flames. A still alarm was sent in and General Phenix Engine company, responding to the call, soon put out the blaze.

He is "A Stranger in a Strange Land," but you will like him when you see him. Lyceum Tuesday.

OBJECTIONS FROM THE FIFTH

Legality of Papers of Thomas Connor Questioned.

Richard H. Williams, the Republican candidate for select council in the Fifth ward yesterday filed objections to the certificate of nomination of Thomas Connor who claims to be the Democratic candidate for select council in that ward.

In his affidavit Mr. Williams states that there was no regular Democratic caucus in the Fifth ward and that the rules of the party were not followed at the caucus at which Mr. Connor was nominated. Although there are only four districts in the ward the petition was signed by what purported to be the vigilance committees from five districts. There will be a hearing on the objections Monday.

REMAINS CAN BE VIEWED.

Judge Gunster Will Lie in State at His Late Home.

After 10 o'clock this morning the remains of Judge P. W. Gunster will lie in state at his home on Monroe avenue and can be viewed by those who desire to see him.

Saturday morning the remains will be taken to St. Peter's cathedral where at 10 o'clock requiem mass will be celebrated by Rev. William Brehl, of Pittston, who is Mrs. Gunster's brother. Rev. J. A. O'Reilly will be deacon and Rev. Peter Christ, sub-deacon. The sermon will be preached by Rev. D. J. MacGoldrick.

TAYLOR'S NARROW ESCAPE

House in Which He Resided in Tripp Park Was Entirely Destroyed by Fire.

There is a hose company in Tripp park, at least Councilman J. J. Anderson and a number of others say there is, but it wasn't much in evidence; indeed, it wasn't at all in evidence yesterday morning shortly after 3 o'clock when the home of Alvah Taylor, in that place, was completely destroyed by fire and Mr. Taylor himself nearly burned to death.

This blaze should also awaken and arouse councils to the necessity for at least one fire alarm box in that section of the city. Mr. Taylor's dwelling was a new two-story frame structure located near North Main avenue. He was alone in the house and was sleeping in an upstairs room when the fire began. Though its exact cause is not known, it is generally supposed to have been started in some manner from the furnace.

The blaze, fanned by the wind, spread rapidly and the entire lower portion of the building was on fire before Mr. Taylor awakened. Finding escape by the stairs cut off and fearing to jump to the ground he ran to the garret, got outside the window and screamed loudly for help.

Help fortunately arrived in about five minutes in the person of a neighbor who with a long ladder, took Mr. Taylor from his perilous position and just in time, for the whole house was now a roaring, raging, furious mass of flames. About ten minutes after Mr. Taylor had been rescued the roof fell in, carrying the floors with it.

Conrad Schroeder was the contractor for the building and the interior decoration was done by Hutchings, of New York, who may feel proud of what he has accomplished.

The funniest thing that ever happened, "A Stranger in a Strange Land." Lyceum Tuesday.

JOHN OLISKEY INSANE.

Providence Laborer Taken to Central Police Station. At 9:15 o'clock last evening Patrolman Hockenberry arrived at the central police quarters, having in his charge Joseph Oliskey, of 1294 Lloyd street, who has been acting recently in a very insane manner.

Oliskey is a man about 35 years old, and a laborer. He is married and has a family of three children. About twelve days ago he gave the first indications of not being quite sound in mind, acting in a very strange manner.

His malady grew worse every day and Dr. Herman Bessey, outdoor physician in North Scranton for the poor board, looked into the case. Last night Oliskey became suddenly almost frantic and seizing one of his children would have rendered the latter one serious bodily harm had he not been separated from the child.

Patrolman Hockenberry was then notified of the case, and arriving took Oliskey to the central police station where he spent the night. His case will be disposed of this morning.

DIED.

GRADY.—In Dunmore, Jan. 30, 1900, Mrs. Margaret Grady, widow of Thomas Grady. Funeral this morning at 9 o'clock. Mass will be sung at St. Mary's Catholic church and interment will be made in the family plot in the old Catholic cemetery.

HAND & PAYNE "On the Square." 203 Washington Avenue.

ANOTHER HANDSOME BANK BUILDING

NEW EDIFICE OF LACKAWANNA TRUST AND SAFE DEPOSIT CO.

One of the Most Beautiful in the Way of Interior Decorations of Any in the State—Artistic and Dazzling Effects in Stained Glass—A Dream in Harmonious Blending of Color That Must Be One of the Features of Interest in Scranton.

Scranton now possesses in the Lackawanna Trust and Safe Deposit company's new building on Lackawanna avenue near Wyoming, a structure which as far as interior decoration goes, is undoubtedly the most beautiful and ornate in the city, if not in the state. An architect visiting in the city last week made the unqualified statement that with the exception of the new Congressional library in Washington, he had never seen such handsome interior.

The front elevation of the building, while massive and solid with its pillars of stone, is very imposing, but once inside the front entrance, and he is devoid of any sense of the beautiful who does not stand entranced.

The main room of the new building is small, perhaps about 50x30 feet, but every little detail of decoration is worked with wonderful care. The crowning feature of the interior is the dome which is directly over the main entrance. The top of this is some fifty feet from the floor and the thing itself almost defies description.

The dome proper is of stained glass and bronze and the rotunda below is furnished in a positively dazzling color scheme. There are wonderful tints—quartzes, blues, gorgeous salmon pinks and other dainty shades deftly blended by master hands into one harmonious whole. It would be hard to find the country over a more beautiful picture.

Visitors, who by the way are always welcome, stand five and ten minutes at a time looking at this dome which is destined to be one of the show places of the city.

Around the room about fifteen feet from the floor runs a balcony with a gilded railing and reached by a marble staircase from the main office. This is intended for the use of clerks.

Around the lower floor runs a wainscoting of Italian marble five feet high. The floor is also marble being composed of inlaid blocks of white and black. The main office is surrounded by a cage of bronze metal and the shelves are of marble similar to the wainscoting.

Back of the main office are two handsomely finished offices for the president and vice-president of the company, also three cozy coupon rooms for the use of box renters. Over these is the director's room with a heavy plate glass floor admitting light to the rooms below.

The safe deposit vaults of the company remain in the same building they occupied just back of the new structure.

The basement of the building contains handsomely furnished lavatories for the use of the company's employees, and a large fire proof vault for old books and records.

Conrad Schroeder was the contractor for the building and the interior decoration was done by Hutchings, of New York, who may feel proud of what he has accomplished.
