'Housework is hard work without Gold Dust'

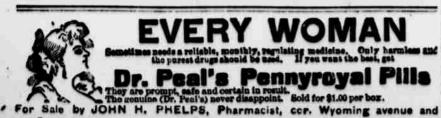

To Clean Matting

Few things can be used to clean matting; salt and sods have been used, but experience has taught that the best way is to have the matting thoroughly swept, and then go over it with a solution of warm water with Gold Dust Washing Powder

dissolved in it; it is best to use a woolen cloth; a tablespoonful of Gold Dust Washing Powder to a quart of water is the proportion; wring the cloth almost dry and rub quickly, but the moment the water gets dirty, change it for fresh; then follow the wet cloth with a dry one. This will clean it perfectly. The above is taken from our free booklet. "GOLDEN BULZS FOR HOUSEWORK"
