#### HIGH SCHOOL NOTES.

A special meeting of the literary soci-cty was held Monday, for the purpose of hearing the report of the committee appointed by the society to select particle pants in the contest with the Carbondale High school. The chairman read the High school. The chairman read the report which was placed before the so-ciety to be either accepted or rejected. The manner in which those who are to take part in the debate were selected was just and fair, a preliminary debate being held Friday last and those who wished to debate, of whom there were six, were given the opportunity of show-ing their argumentative abilities before the committee, which was composed of three teachers and three members of the society. The three teachers decided on a debator whom, although he did not evince much ability as an orator, yet brought forth some very convincing and brought forth some very convincing

and as a new committee has been selected to hear the debaters and to select Fred Lindsley has meyed back to from them, it will be shown who has the better judgment, teachers or students.

> A very wrong impression, and one which has created considerable discussion throughout the city, was gained by a majority of the students. Last week was so arranged that the students. instead of going to the auditorium in the morning were requested to report at certain class rooms instead. On account of this it was necessary that the chapel exercises be dispensed with for the first

two mornings. Since the auditorium was not constructed for the purpose of a study room, it was found necessary that study room, it was found necessary that the students that come to school early, for the purpose of study, should have some suitable place to do so. So this plan was agreed upon, but this was not done to do away with the chapel exercises, although for the first two mornings it was absolutely necessary. They were again resumed on Monday morning.

The committee appointed by the Pedestrian club for the purpose of arranging things pertaining to the walk which will take place on some Saturday in the near future, held a meeting yesterday. The judges who will officiate at the walk are the following: Harry Rheuhart, Prof. Fuller, Prof. Schimppf, Prof. Beaumont, and Edward Morse. These judges will view the walk on bicycles. This will un-doubtedly be a very interesting affair and the announcement of the date is anxiously awaited by the students.

movement to take prcdts which devel-cped about the middle of last week had run its course. The professional opera-tors in stocks, who hesitated to resume and carried that it be rejected. This was done orly after a half hour had been spent in the discussion of the affair and after the president and vice president had again and again taken the chair, that each might have a say in the mat-ter. The rejecting of this report was undoubtedly a detriment to the society, for three teachers, who have both lis-tened to debates and taken part in them for a number of years, surely ought to be better qualified to select debators than students who, as yet, have had very title experience in this line. It will now be necessary, since the report has been
