BOARD OF TRADE WILL BOOM THE VIADUCT PROJECT.

If the present plan for the construction of a viaduct over the grade crossing on West Lackawanna avenue does not carry at next Tuesday's election it will not be the fault of the West Side board of trade. It can be truthfully stated that the only real work in behalf of the project has been done by a handful of members of this organization and despite much opposition they hope to win out when the votes are

That is the sentiment which prevalled at the monthly meeting of the board last evening, and aside from arranging the final details of the campaign and adopting an appeal to the voters, but little else was talked about. President Daniels reported assurance from Congressman Connell that when appropriations are made in May that an effort will be may to secure a branch post office for West Scranton. It is understood that Inspector Gorman is now in the city looking up the necessity for such a change.

The viaduct committee was authorized to have cuts made of the projected structure and print them in the newspapers. Two hundred posters will be printed and distributed on Saturday and a circular letter signed by prominent citizens will also appear in the newspapers the same day

A RECKLESS TRIO.

At an early hour yesterday morning three young men entered the hotel on the southeast corner of North Main avenue and Fafayette street and asked for drinks, promising to pay for them when they came in again. The proprietor refused their request and or-dered them to leave the place. They refused and created a disturbance in the back room, where a number of Polanders were seated.

After some difficulty the trio was tent with creating a disturbance in- mittee. side the place the men went outside

The matter was reported to Lieutenant Williams, and together with Patrolman David Davis, made an investigation. The disturbers were not arrested, but their hats were secured, which may prove a means of identifi-

A short time after the officers left the place, and while Patrolman Davis was reporting to headquarters from the North Main avenue box, the disturbers returned, and opening the front door hurled a large stone through the mirror, which stands behind the bar, breaking it to pieces.

The proprietor and several of the inmates of the house narrowly escaped injury from the flying glass. After their second visit the men again disappeared.

STAG SMOKER AND SUPPER. The word "surprise" will not half express the feelings of those members of the Electric City Wheelmen who went to the club house last evening to attend the usual monthly meeting. The social committee had promised, through the newspapers, that they would "spring something new" on the boys and to say that the promise was fulfilled, is but putting it mildly.

The business session over, at which President Mears occupied the chair, Hon. John R. Farr addressed the assemblage, which was over a hundred in number, on good roads and the need of a viaduct.

The gymnasium was then thrown open for the first time and all were invited to inspect this latest acquisition to the already well-appointed club house. It has not yet been fully equipped, but when completed will be first class in every respect.

Here the members and their guests were seated and entertained for an hour by the Durkin brothers, acrobats and tumblers: Mulligan and Edgertson, bag punchers and boxers, and Seagraves and Decker, who went three rattling rounds with the gloves.

Following the athletic events Edgar W. Allen, Herbert R. Higham, Charles M. Bacon and Frank Heppler, instrumentalists; Frank Evans, piano soloist, and Edward Allen, vocalist, entertained with pleasing numbers.

The "wind up" consisted of clam chowder, sandwiches and coffee and cigars. For the entertainment furnished the boys are indebted to Guy Relph, Edward Davis, Frank De Pue, Lewis Parry, William Seagraves, George Daniels, John H. Thomas, Sam ejected, but not before two of them McCracken, J. Elmer Crane and David lost their hats in the scuffle. Not con-Owens, who comprise the social com-

Recipe

To Make a Woman of Eggs.

Take 1000 eggs, break and whisk them thoroughly. You

have now the elements necessary to make a perfect woman,

weighing one hundred and twenty-five pounds, if you can put the elements properly together. That "if" is as gigantic as the if of Archimedes: "If I had a fulcrum for my lever, I could move the world." But if woman can't be made she may be mended. The beauty of woman, the fairness of her form, the brightness of her eyes,

the soft curves and dimples of her cheeks, all depend on health. When the health begins to wear, and fray, and ravel, the color dies out of the cheeks,

the eyes lose their lustre, the form becomes spare and angular. Color is the symbol of life, pallor the sign of death. It is the death of beauty when the

cheek becomes pale and the eyes lose their lustre. These are the signs of phy sical decay and failing vitality.

Begins on Wednesday, February 14th. It is not made up of job lots, mill-clearances, "seconds," or anything that might be termed irregular, but consists only of the very best there is made in the tactories of the very best shirt makers on this continent. Sizes are guaranteed in every case, while the materials and finish are really faultless.

Neck Bands, 14 to 18. Short or long bosoms, Sleeves, 31 to 34. Lengths and widths to suit.

### An Important Pointer

These Shirts were contracted for last Summer. Since then the cost of shirt muslins has advanced 3716 per cent., while fronting linens and labor have also gone up in price. All this means that shirts today at the factory are worth one-fourth more than last year when we placed our order. Yet the price we state as the actual value of these goods is the price they have been retailed at by us for three years past, while the special sale price is just that much less. The real truth then is that there is not one of these shirts that is not worth at least one-third more than we're asking. when gauged by present day values, and as there is no prospect of prices being reduced for two or three years to come.
