DESCRIPTION WAS WANTING. United States Ambassador at Rome on the Peloso Matter.

The following letter, which fully explains itself, was received yesterday from the United States embassy at Rome by District Attorney Jones, through Secretary of State Hay and

Embassy of the United States, Rome, Italy, Jan. 18, 1900. To Hon. John Hay, Secretary of State, Washington, D. C.

Sir: Referring to your Instruction No. 439, of Dec. 6, 1899, I beg leave to say that Mr. Thomas Leyshon, of Scranton. Pa., arrived in Rome some days ago with papers demanding the extradition with papers demanding the extradition of Angelo Peloso, accused of murder, and said to be held in custody at Naples. The papers were immediately presented at the foreign office. No official response to them has yet been given; but Mr. Leyshon went to Naples and, after seeing the prisoner called Peloso, reported to the consul general in Rome that he was not the furitive sought. It is likely was not the fugitive sought. It is likely therefore, that instead of arresting Angelo Peloso at Naples when the Kaiser Withelm arrived in that port, the Ital-ian officials took into custody a man who called himself by that name, while the real fugitive escaped. Probably on shipboard. Peloso, fearing arrest, in-duced some Italian friend to personate him and to be arrested in his stead. I learn that in the first instance when the Pennsylvania authorities telegraphed to have this man arrested, they neglected to furnish any description of him. This omission appears to have aided Peloso to escape. I have not withdrawn the extra-dition papers, for if the real Peloso should presently be apprehended, they may still serve their purpose. I have, sir, the honor to be

THIS IS ELECTION DAY.

Indications Point to a Large Vote for What Is Practically an Off Year.

This is election day, and from all in-

In nearly all of the wards there is a lively local fight on that will have a tendency to get out a big vote, and the fact that such important improvements as sewers and a viaduct are to be voted for or against will get many men to the polls who might otherwise be in-

In all of the odd numbered wards of ed today and in the even numbered wards candidates for common council and school controller are to be selected. In a few wards aldermen are to be voted for. In each of the sixty-two districts of the city a judge and an inspector of election and a register of

voters will be chosen.

The only candidates to be voted for in the city at large are the men nominated by the Republicans and Democrats for school directors. C. C. Ferber and Major E. D. Fellows are the Republican nominees and deserve to be elected. They will make model school directors. Dr. John O'Malley and John Gibbons are the Democratic candidates.

Robbed a Lunch Wagon While the Night Clerk Was Asleep.

Somewhere in this city there exists a crook who certainly does not lack, among his qualifications as a member of the light-fingered gentry, the quality of nerve. Late Sunday night the lunch wagon of Louis Kline, at Lackawanna and Washington avenues, was entered by him and the cash register, containing about \$4.10, removed. The night clerk, Harry Monoff, was present at the time, but was a captive of the god Morpheus.

When he finally woke up he found the register gone, and going outside, saw that the thief had cast it into a vacant lot nearby.

DEFICIENCY BILLS WERE CONSIDERED

AT A MEETING OF JOINT AU-DITING COMMITTEE.

A Bunch of Fire Department Bills Amounting to \$1,549.96, Some Over Two Years Old, Referred to the Estimates Committee, with Instructions to Incorporate Them in the Appropriation Ordinance for the Coming Fiscal Year-Some of the Bills Not Approved by the Former Chief.

A bunch of unpaid fire department oills, some of which were two years old, amounting in all to \$1,549.96, were last evening considered by the joint auditing committee. They were accompanied with a letter from the controller stating that they had been in his office so long that something should be done with them. A letter from Chief Walker was also received, stating that he had no knowledge of the bills and that they had been contracted by his predecessor in office.

Considerable discussion was indulged in as to what was the best thing to do in the premises, the bills being, with one exception, all correct, but no funds for their payment being available. Mr. Tewkesbury expressed the sentiment of all present when he said that before purchasing new things the city should have paid for the old things first. He moved that all the bills except that of the New York Nozzie company be referred to the esti-mates committee with instructions that provision be made for their payment in the appropriation ordinance for the coming fiscal year.

The bill of the New York Nozzle ompany has a very peculiar history, if the one recounted at the meeting last evening is true. It is for six shutoff nozzles and the price charged up dications there will be a good-sized for each is \$25. The nozzles, it apvote polled for what is practically an pears, were ordered by ex-Chief Hickey pears, were ordered by ex-Chief Hickey in 1898, yet the bill is not approved by him. Chairman Zizleman volunteered the information that the company had agreed to contribute \$100 to the firemen's fair fund providing the city paid the bill.

The members present thought it was to say the least, rather peculiar that the company should be willing to pay \$100 to get \$150 and the bill was pethe city select councilmen will be elect- cording taken out of the bunch referred to the estimates committee.

Mr. Zizleman in the meantime had been searching through the records and came across a letter sent with the nozzles by the company. It contained the information that if "after a careful and thorough trial" the nozzles were not satisfactory, they could be returned. It was decided that they had not proven satisfactory; that they had been given a whole two year's "careful and therough trial" could not be gainsaid, so it was further decided that the chief of the fire department send them back.

Some one suggested that a photographer be engaged to secure a photograph of the secretary of the company as he opened Chief Walker's letter. but though the suggestion met with general approval it was not acted

Another bill which was discussed pro and con was one presented by P. F. and M. T. Howley for work done on \$132.63. the Eagle engine house amounting to St Hickey directed that work amounting to \$43 be done and that when this had been finished Councilmen Regan and Clarke stepped in and ordered extrawork amounting to the above mentioned \$73.04 done.

The chief approved the bill of \$116.94 for \$43, leaving the balance of \$73.94 due. No one disputed that that amount of work had been done but Mr. Wagner raised the point that the committee had no right to pass on a bill for work ordered done by a councilman or councilmen. He thought it a dangerous precedent to establish, but on motion of Mr. Schroeder it was ordered paid.

Mr. Wagner then wanted to know if he went into the Relief Hose company's home and ordered it repainted and renovated, would the committee pass the bill. The members were silent on this point.

Another bill which has been due for over two years was ordered paid. It was from the Finch Manufacturing company and was for \$165.90. An exceedingly large number of other bills were approved, including T. V. Lewis' bill of \$60 for services rendered as assistant saritary officer.

TAMPERED WITH OIL BOXES.

Two Men and a Boy Accused of Stealing Waste from Cars. For some time past the Delaware,

Lackawanna and Western railroad cars at Taylor switch have been tampered with by young boys and men, who extracted the oiled cotton waste from the oil boxes, thus causing hot boxes and considerable damage. The waste is taken out to start fires with, and for other purposes.

Warrants were issued at Alderman Howe's office, at the instance of Detective O'Keefe, of the company, for the arrest of John Langan and "Patsy" Korofen, two men, and Arthur Howell, a young boy, and yesterday they were given their hearing. Langan was discharged, and the other two men were held in \$300 bail for their appearance at

VERY CONSIDERATE BURGLARS Ransacked Henry Clayton's House

But Went Away Without Plunder. The home of Henry Clayton, at 116 Chestnut street, was entered by burglars last evening, but as far as the police could learn nothing of value was taken. Mr. Clayton is employed as a night foreman by the Delaware, Leckawanna and Western company, and his wife and grown-up daughter went to the theater, leaving the house dark. The intruder climbed up the rear

porch and entered the house through the back door, which was left unlocked. All the trunks and bureau drawers were ransacked, evidently for money only, as Mrs. Clayton did not discover anything gone when she returned

Lieutenant Williams and Patrolman McColligan made an investigation of the premises, but could find no trace of the burglars.

PREPARING AN ESTIMATE

Secretary Fellows, of the School Board, Is Ascertaining the Condition of Different Funds.

Secretary E. D. Fellows, of the school board, is preparing an exhaustive estimate of the probable condition of the finances of the school district at the beginning of the next fiscal year on July 1. This is being done that the board may know how to gauge their expenditures for the remainder of the

Company During 1899. The Prudential Insurance Company of America, Home Office, Newark, N. J., the pioneer of industrial insurance in this country, and for the last fourteen years popular in Ordinary Life Insurance, made a wonderful record during the year ending Dec. 31st., 1899.

new business to the amount of nearly \$165,800,000, and in the Ordinary department over \$56,900,000, making a total of nearly \$222,700,000. The aggregate of the Company's business for 1899 shows a total insurance in force of over one-half billion dollars, (\$502,201,486), a gain over last year of

more than \$87,600,000, and an amount exceeded by but four companies in the United States, but by no company whose age is less than The Prudential's, and which confines its operations exclusively to the United States, as does the Prudential. The results obtained by the company in its Field work do not, however, over-top its financial gains. The Prudential

enters the year 1900 with total assets of nearly \$34,000,000, over \$5,000,000 more than it had last year. The annual income of the company now amounts to over \$20,000,000 while its surplus has increased to more than \$6,000,000. A Card.
