For Increased Equipment.

The Pennsylvania Railroad company will soon issue \$9,000,000 more car trust certificates, which will be redeemed at the rate of \$1,000,000 each year. These bonds are to bear 3 1/2 per cent. per annum, and the proceeds are to be used for the payment of the equipment now under construction, as well as some of the new cars recently turned out.

During the past year the Pennsylvania Railroad company gave orders for the construction of more than 5,000 freight cars. Some of these cars have been delivered, but there remains a large number to be turned over to the company. Besides paying for this order, the money received from the sales of these new car trust certificates, will enable the company to construct a large number of cars.

It is believed that during this year the Pennsylvania Railroad company will order a large number of cars, and will greatly increase its equipment. It is getting into the readiness to do a big business, and the small cars are being set aside for the more modern ones which are heavier and can carry larger loads. The Pennsylvania Railroad company has now outstanding \$10,000,000 of Pennsylvania rolling stock certificates, \$7,000 of Pennsylvania equipment certificates, and \$2,000,000 of Pennsylvania Car Trust certificates. The new car trust bonds will soon be ready to sell to the bankers who are desirous of buying them.

Brotherhood of Trainmen.

The Brotherhood of Railroad Trainmen was organized at Oneonta, N. Y., in 1883, with 13 members and was known as the Brotherhood of Railroad Brakemen until 1899, when the present title was assumed, because many of the members had taken various other positions in the train service. The grand lodge headquarters are now located at Cleveland, O. The Brotherhood at present has subordinate lodges in the United States and Canada. It is represented in every state and territory in the Union. Its membership is made up of conductors, brakemen, train baggagemen, train flagmen, yardmasters, yard foremen and switchmen. Its objects are to unite the railroad trainmen to promote their general welfare and advance their interests, social, oral and intellectual, to protect their families by systematic benefits.

That this powerful secret order has not been organized for "strike" purposes is shown by a significant section from its declaration of principles: "Persuaded that it is for the interests, both of our members and their employers, that a good understanding should at all times exist between the two, it will be the constant endeavor of this organization to establish mutual confidence and create and maintain harmonious relations."

This and That.

An enormous new breaker, the Coalbrook, has been erected at Carbondale to prepare the output of all the Delaware and Hudson mines in the vicinity of Carbondale. This breaker will prepare 4,000 tons per day, and is said to be the largest in the world. By the new plan the Racketbrook, No. 1, No. 3 and the Powderly mine breakers are abandoned, throwing the employees, numbering a couple of hundred, out of work. An enormous storage plant, with a capacity of almost half a million tons, has been constructed to care for the surplus production during the quiet season.

The Lackawanna railroad has several of its conductors busily engaged in instructing the men in the use of the new lamp and hand signals which will go into effect on the first of next month. These signals, it is said, differ but little if any from the standard signals which are in use by most of the roads. The same signals for all the railroads is the tendency at present as the roads like to employ experienced men. These, going from one road to another, and meeting with changes of signals, are likely to meet with trouble and cause it too.

SELECT COUNCIL.

Vacancies were filled yesterday in all of the odd numbered wards. Council now stands as follows:

"Who Gives to All Denies All."

"Who Gives to All Denies All."

This is as true of the spendthrift of health as of the waster of money. Do not waste your health by allowing your blood to continue impure, but purify, vitalize and enrich it by taking **Hood's Sarsaparilla**, America's Greatest Medicine.

Dyspepsia—"My husband doctored a long time for dyspepsia with only temporary relief. The first bottle of Hood's Sarsaparilla helped and the second cured him. It cured my sick headaches."

Mrs. Mary A. Clark, Wilmington, Vt.

Sore Hands

Red, Rough Hands, Itching, Burning Palms, and Painful Finger Ends.

ONE NIGHT CURE.

Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA, the great skin cure and purst of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful.

Complete External and Internal Treatment for Every Humor. Consisting of CUTICURA SOAP (5c.), to cleanse the skin of crusts and scales and soften the thickened cuticle; CUTICURA OINTMENT (50c.), to instantly allay itching, inflammation, and irritation, and soothe and heal; and CUTICURA RESOLVENT (50c.), to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the most torturing, disfiguring, and humbling skin, scalp, and blood humors, with loss of hair, when all else fails. **FORRES DRUG AND CHEM.
