WILL WELCOME TRAMPS.

Stroudsburg Is Preparing Ball and Chain for Visitors.

Special to the Scranton Tribune. Stroudsburg, March 1.-The tram; question is likely to be settled at an early day. Both of the two new mayors, of this town and East Stroudsburg have apparently solved the question. They have concluded that the ball and chain is just the thing for tramps.

Mayor-elect Staples, when asked about the new solution to the tramp question, said: "A ball and chain would be just the thing, with a little stone-breaking thrown in. The tramps are imposing on our people and need curbing, and at once. As soon as I am sworn in, I shall advocate the matter before the borough council." Mayorelect Puterbaugh, of East Stroudsburg is equally as outspoken as Mayor-elect Staples. Mayor Puterbaugh said: "Most emphatically do I think a ball and chain would be a good thing to rid these two towns of tramps. There are too many of these hulking loafers about here and these hoboes who call at back doors deserve no pity. They are tramps by choice and not by circumstances. Put me down as favoring a ball and chain and quickly, too."

FLOOD AT NICHOLSON.

Highest Water Known in Many Years.

Special to The Scranton Tribune. Nicholson, March 1 .- A terrible flood is raging and damage is being done. The flats are completely covered and the inhabitants are rushing to higher ground for safety. School was closed at noon and nearly all work has ceased except that of trying to protect the people and property. Never in the history of the town has the water been so high before. Water is over a foot deep on the sidewalk on State street, from the bridge to Buck's corner. The dam is old and leaking. If it should break away, as is expected every minute, the results may be terrible. Water is always its own master and no human power can control it. Boats are being used to save lives

SUSQUEHANNA COUNTY.

Special to The Scranton Tribune.

that are in greatest danger.

Susquehanna, March 1.-It is reported that the American Chair company, of Brandt, is considering the advisability of removing its factory to Buffalo, N. Y., instead of to Hallstead, as has been proposed. If the factory is removed, the pretty little village of Brandt will lose about one-half of its population, The remains of the infant child of

Daniel Connors were on Wednesday af-ternoon interred in Laurel Hill ceme-The funeral of the late Eric Engineer Louis R. Pettit will occur from the family residence on Washington street on Friday afternoon at 3 o'clock. Rev.

Charles Henry Newing, pastor of the Methodist church, will officiate, and the remains will be interred in the Grand street cemetery. Locomotives Nos. 338 and 898, which were in the wreck at Shohola, a few weeks since, when Engineer Stephen

Outwater was killed, have been received in the Susquehanna shops for The funeral of the infant son of Mr.

and Mrs. George Lown occurred this afternoon from the family residence on the Oakland side, Rev. W. L. Linnaberry, pastor of the Avenue Methodist church, officiating. The remains were interred in McKune cemetery. Vicinity milk producers will attend a

meeting of the Five States' Milk Producers' association, to be held in the court house in Binghamton on Tuesday, March 6. An advance in prices this season is confidently expected. Miss Pearl Pettis, of the Oakland

side, has returned home from a month's visit with Carbondale and Scranton Miss Margaret Brosnan has entered

the training school for nurses attached to Bellevue hospital, New York city. Maple sugar has already made its appearance this season in Susquehanna

Jefferson and Delaware divisions of the Erie road will be held in Susquethe Erie road will be held in Susque-hanna on Saturday next, March 3. Or-the near future. ganizer John F. Swing, of St. Louis, and C. F. Clancey, of Mansfield, Ohio, general chairman of the Erfe system. are expected to be present. The meeting will be held to initiate new mem bers, and to transact regular business of the order.

The annual meeting of the Wyoming conference of the Methodist church will be held in Owego, beginning April 17, Bishop Cyrus D. Foss, D. D., presiding. A class of ten was baptized in the New Milford Baptist church on Sun-

March comes in rather sheepish. This is the period for self-denial. Quite a large number of our townspeople will practice it by not going to church for the next forty days.

Rev. Mr. Dwyer, of Schenectady, N. Y., has accepted a call to the Baptist church in Jackson, and will assume the duties of the pastorate about March 15. Inauguration day in Susquehanna will be observed with little pomp and ceremony. New Mayor McMahon will have just a plain swear-in, with no frills

The recent rains have raised the Sus quehanna river very perceptibly, and when the ice jams north of this place comes down, much damage may be done. It's the lucky man who lives in a city that is set upon a hill.

HOPBOTTOM.

Special to The Scranton Tribune.

Hopbottom, March 1 .- Mr. Edward comans is preparing to make somadditions to the dwelling house which he recently purchased from Delay Russell. Mr. Russell contemplates building another residence in the near future. In the meantime he will occupy rooms in Mrs. Corey's house.

Mr. and Mrs. Eugene Wright, who have both been ill for a month past, are improving very slowly. Mrs. Wright is still confined to her room. Mr. and Mrs. J. Y. Saunders are making some improvements in the interior of their house.

We are glad to note that the stree lamps are again able to be up and shining. It looked for some time as if the villages might belong to "the dark ages," but we are glad of sufficient illumination to discover that it dors not. Let the lights shine, for a little enlightenment is far better than none. Mrs. Martha Bell, who has been quite ill, is improving. Her daughter

and son-in-law, Mr. and Mrs. Kel-lum, of Scranton, who have been sick, are also better. Mrs. O. D. Roberts, who has been ill for two weeks past, is still confined

to the house, but is improving. The Methodist Episcopal Aid society met with Mrs. McVicar Wednesday evening. About forty-five were present to do justice to a good supper and enjoy a social hour. Mrs. Stanton, of Scranton, is visit

ing Mrs. E. Carpenter. The real estate belonging to the late Emanuel Carpenter is advertised to be sold at public sale March 17.

The two newly elected school directors are Messrs. Jerome Hartley and John Tiffany. Mr. Tiffany is always actively interested in educational mat- pathy of the community in her great ters and no doubt both will do their best to make our school a progressive one. The retiring members are Messrs. O. D. Roberts and M. A. Blair.

Mrs. Law is moving to Binghamton Who now will see that the town is supplied with bread and cakes? John Bisbee will soon occupy the place in Mr. Tiffany's store now filled ov Claude Roberts.

Springs belonging to Truman Bell ave been purchased by enterprising itizens, who intend supplying the town with an abundance of pure spring water. This is an improvement, the need of which has long been felt, both for protection against fire and the insure nealthful drinking water. Had the town had this water supply ten years go the destructive fires which have injured the place so much would probably have been averted, and it is to be noped that the towns-people will give this enterprise the support and patron-

ge which it descrives. The Sunday School association of the M. E. church will convene at this place Tuesday, March 6.

Chronic Diarrhoea Cured.

My mother suffered with chronic diarrhoea for several months. She was attended by two physicians who at last pronounced her case hopeless. She procured one 25-cent bottle of Chamber lain's Colic, Cholera and Diarrhoea Remedy, and five doses gave her permanent relief. I take pleasure in recommending it as the best on the F. E. Watson, market .- Mrs. Aiken. Ala. Sold by all druggists. Matthews Bros'., wholesale and retail agts.

FACTORYVILLE.

Special to The Scranton Tribune Factoryville, Pa., March 1 .- The an nual roll call and banquet of Red Jacket lodge, No. 524, L. O. O. F. will be held in their hall this evening This lodge has a membership of about 180 members and if 150 members and ladies attend it will make a nice little family to banquet, a report of which will be given in this column tomorrow.

Charles Gardner, esq., was at Laceyville over Sunday. Mr. and Mrs. L. D. Armstrong have been spending several days at Tunkhannock and vicinity.

The many friends of John F. Walter will be pleased to learn that he is recovering his former health. Several members of Lackavanna chapter, Royal Arch Masons, of Scronton, came up last Tuesday evening and conferred some degree work for

Factoryville chapter, No. 521, after which refreshments were served and a smoker held. At the Baptist church last Sabbath

the congregation voted to extend a call to Rev. G. R. Smith, of Franklinville, N. Y. Rev. Smith very ably filled the pulpit, both morning and evening, Sunday, Feb. 18. The heavy rain yesterday swelled our

streams to goodly sized rivers, both overflowing their banks and doing some damage. The water was the highest Ex-County Commissioner F. H. Chase disposed of his personal property on his

farm at public sale. Ziba Hinds left Wednesday for Pottsville, Pa., where he will reside in the

a few days ago. John LaRue, formerly machinist at the sllk mill, will remove his family to Hackettstown this week, where he has accepted a position. Stanley, the 10-year-old son of Mr

and Mrs. J. T. Blease, is suffering from a severe attack of pneumonia. The funeral of Nell Mullarkey took place yesterday morning from the family residence on the West Side. Interment was made in St. Mary's ceme-

The funeral of Mrs. Alma Gale took place yesterday afternoon from the family residence in the North End. The funeral arrangements were in charge of General Custer lodge, Knights of Pythias, of Lackawanna Rev. R. M. Pascoe, of the Methodist Episcopal church, conducted the services. The pall-bearers were David Brown, Joseph Jones, James Parry Robert Harding, John Sanderson, Joseph Brown, J. S. Willis, J. T. Faraday, Jacob Weldon, George Brown, Job Thompson, Walter Nallon. Interment was made in Langeliffe cemetery.

The trustees of the P. M. church wish to thank the following, who so generously responded to their appeal made some time ago, to assist in pay ing off a debt of \$500 which they felt could not be liquidated in any other manner: William Drury, \$25; R. D. Lacoe, \$50; Avoca Coal company, \$25; Hollister & Bowman, \$25; R. S. Lacoe \$3; J. B. Shiffer, \$10; New York and Pittston Coal company, \$50; A. B. Brown, \$5; Benjamin Harding, \$5; R. Mr. Hughes, \$25; Glennon, \$25; Mr Cunningham, \$10; Job De Quick, \$10; Sacks & Brown, \$3; John M. Robert son, \$5; J. F. Price, \$5; McCrindle & Company, \$5; Fowler, Dick & Walker \$2; Isaac Long, \$2; Mr. Law, \$10. They also wish to thank all who participated in the entertainment on Thursday evening and Mr. and Mrs. Solomo Deeble, who procured the talent. The total amount received was \$306.

The death of Edward Callahan, age. twenty-four years, occurred last evening at the Robinson residence on Spring street. Six months ago he was married to Miss Genevieve Robinson and since that time has resided with the Robinson family. He was an ambitious young man and during his residence in Avoca had made many friends who were deeply grieved to hear of death. His young wife has the symgrief. His parents, Mr. and Mrs. M. J. Callahan, arrived shortly after his death. The other members of the family are Mrs. Frank Ciecielski, Mrs. P. A. Burke, Misses Kate and Jennie, of Pittston, and Miss Fay Ciecielski, of Oneonta. The funeral will take place on Saturday afternoon at 1 o'clock. In-

terment will be in Pittston cemetery. The Hose company will meet in special session this evening. Joseph Bradbury, son of Mr. and Mrs William Bradbury, of the North End, while returning from work last dvening, was struck by a north-bound Delaware and Hudson train and seriousyl injured. The accident occurred near the Langeliffe colliery, and on account of the great noise it is supposed that he did not hear the oncoming train. His injuries consist of a broken arm, several lacerationss, besides in-

John R. Thompson, of Miller hill aged about forty-two years, died at the family residence yesterday morning, after one week's illness of pneumonia He was a member of the Knights of Honor of Avoca. Besides his wife, he is survived by five children. The funeral will take place on Saturday afternoon. Interment will be made in Marcy cemetery.

ternal injuries. He was removed to the

home of his parents.

PROF. COLES FOR MARCH,

rom Storms and Signs.

We wish to extend our thanks and best wishes to one and all of the numerous newspapers that made so many saying, we now wish to warn the peosun of pity for the shedding of human blood will set behind the western hills, man blood is concerned. We warn all interests and resting its body across the neck of "labor." THE STORMS AND SIGNS.

The greatest regular and re-actionary storm periods during the current month will occur between the 1st and 5th, and 7th and 11th, the 15th and 17th, the 19th and 23d, the 25th and 27th and the 29th and 31st. There will be great danger of disastrous storms, hurricanes, blizzards, floods and tidal waves; earthquakes and airquakes; as the gaseous matter passing over both the sun and the moon will make a break sometime between the 3rd and 13th, the 19th and the 22d and the 31st. and cause great destruction in both countries. The southern and the western states will be sorely afflicted by floods and blizzards; while the eastern states will wonder at the phenemenal changes, the electrical displays and sweeping storms along the sea coast. Our own state may get a great surprise in the shape of storms and floods, as one of the breaks in the gaseous matter above referred to will occur over the same latitude under which our state lies. Watch out for another strange phenomenon in the heavens this month.

UNFORTUNATE DAYS.

The results of many years' extensive astrological research have shown us conclusively that the planets not only rule over men, but over all the various things of earth, and experience has taught us that the following days during the month of March are unfortunate days for any one to begin any new operation or start on a journey. The 15th, 16th and 18th. The 5th, 6th. 10th, 12th and 13th will be unfortunate days for all males born on these dates during the month of March in any year that is past; and the 1st, 2d, 8th, 9th, 16th, 17th, 18th and 29th will be unfortunate days for all females born on any of the above dates. The 8th, 12th, 13th, 15th, 23rd and 27th will be unfortunate days for those afflicted with heart disease, and all such should be careful and avoid public meetings of any exciting nature during those

VALUABLE INFORMATION FREE under the 'Patent Medicine Laws' would cost many thousand dollars. the old country, as our February predictions foretold, will continue to most malignant form. We have discovered that the "oil of onion" will demonia microbes. (Roast one dozen germs will fiv away and begone.

The best days for fishing and hunting will be the 1st, 18th and 29th; and the next best days will be the 3d, 9th, 20th and 24th. Reviember that fish should be bled as soon as caught, for all fish that die with the blood in their bodies are not in a fit condition to be eaten by man. "Thou shall not eat

The hog cholera will continue to spread in many localities. Burnt corn and sulphur will destroy these cholera microbes in nine cases out of ten. For all such information, and when to plant all kinds of seeds, sow grass and grain, trim trees, set hens, send ten cents to Prof. C. Coles, Kingston, Pa., and get a copy of his "Storm and Signs."

Prof. C. Coles, Editor,

THE BATTLE CHARIOT.

A Grim Reminder of the Combats of

the Heroic Times. From the Scientific American.

The charlot was used in antiquity for the battle, the chase, in public processions and in games. It had two wheels and was drawn by two horses. and when one or two horses were added they were attached to each side of the main pair by a side trace, fastened to the front of the chariot. These chariots have only come down to in fragments, with the exception of the one in the Archaeological Musuem of Florence, which is a unique example of a war chariot, the so-called "Biga di Frassino," found by Rosselineo in a tomb at Thebes. It is certainly as old as the fourteenth century B. It s probably a trophy obtained in the north by some Egyptian warrior. There is an entire absence of metal in the construction. Immediately on the axle, without springs of any kind, rests the basket or body of the chariot. which consisted of a floor to stand on and a semi-circular guard around the front and about half the height of the driver. It is entirely open at the back, so that the combatants might leap t the ground and up again as became necessary by the exigencles of action There was no seat, and generally in war chariots there was only room for the combatant and his charloteer to stand in. The pole, as in the present instance, was usually attached to the middle of the axle, although to outward appearances it looked as though it sprang from the front of the basket At the end of the pole was the yoke which looked like a ram's horns. Depending from this by leather thongs was a Y-shaped plece, which prefertook the place of the animals. Besides the harness of each horse there were a bridle and a pair of reins some what in the same style as in use at the present day. These were made leather and were ornamented with study of ivory and metal. The reins

JONAS LONG'S SONS.

complimentary remarks about our February predictions fulfilled. By the "clippings" of a "Bureau" in New York, we learn that our "predictions" are read by more than fourteen million people every month. As our long range prediction-made in October last-that February and March (1960) would prove to be two destructive months and February has already proved our ple of an approaching evil that will fall upon America; for the great planets are nearing a point in the heavens where they will form evil conjunctions which will, we believe, send many evils upon our own country; and the and the United States will be plunged in the blackness of absolute night so far as regard for the shedding of hutrue Americans to be on their guard. Because the sun of pity will set in obedience to the doctrine of imperialism which stands with one foot upon our nation, one foot upon its monetary

Information that costs us days and weeks of hard study and labor we give to the public free; information which The LaGrippemonia, that appeared in sweep over that country with unabated force, and will reach America in its stroy and drive away the LaGrippemiddling sized onlons, press out the oil add a lump of pepper half as large as an egg, and some pepper, heat it all up together and drink it down), keep in the house for a day or two and the

Kingston Pa., U. S. A., Feb. 15, 1900.

quor in or near the place will be barred. "The intention is," says the founder of the town, "to provide every benefit with which an employe can be supplied. On the other hand, the cost of producing coal must be made as low as it can be made legitimately." If the latter half of this declaration implies that the miners are to accept less pay than that given elsewhere in the same district for like labor, as an offeet to the provision made in their behalf, the failure of the scheme, however, carefully framed in other respects, can safely be predicted.

THE PRESIDENT A SLAVE TO CA-TARRH.-D. T. Sample, President of Sample's Instalment Company, Washing ton, Pa., writes: "For years I was afflicted with Chronic Catarrh. Remedies and treatment by specialists only gave me temporary relief until I was induced to use Dr. Agnew's Catarrhal Powder. It gave almost instant relief and has proved the one good thing in my case." Sold by Matthews Bros. and W. T. Clark.—32.

For Infants and Children.

THE GREAT STORE.

We Have Bought "The Leader' Stock

(Formerly Lebeck & Corin.)

It will, without question, provide the greatest trade movement ever known in the State of Pennsylvania Our purchase of this immense and uncommonly good stock, has saved its sale to Scranton; otherwise it would have been shipped many miles away.

You and we both have reason to be proud. It will provide you with an unparalleled opportunity to save money. It will give to you the best makes of goods that can be produced at prices which will be next to nothing.

Black Dress Goods. Colored Dress Goods. Silks and Velvets. Wool Blankets. Upholstery Goods Comfortables. Gloves and Notions, Coats and Suits. Furs and Trimmings. Millinery. Infants' Wear. Silk Waists. Flannel Waists. Ribbons. Handkerchiefs. Embroideries. Umbrellas. Umbrellas and Jewelry. Braids and Trimmings. Laces and Jets. Leather Goods, Fur and Fur Sets. Perfumery. \$4,000 Stock of Books. Stationery. Prayer Books. White Goods. Men's Furnishings. Domestics. Underwear Pictures. Corsets. Opalware. Hosiery.

Muslin Underwear. Golf Capes, Silk Skirts. Linings. We begin at once the inventory-ing of this vast purchase—a stock that is at present worth close to a hundred thousand dollars. As soon as possible

We Shall Move the Stock to Our Big Store,

And when everything is ready, when goods have been properly marked and ticketed, when we have placed the stock as it should be placed upon the five great floors of this massive building, we shall open the doors on an

Extraordinary and Never-Before-Equalled Bankrupt Sale

We hope to be able to announce the exact date this week. All we can say is-save your pennies and dimes, your dollars and gold eagles. You will never again have the opportunity to save so much money-no matter what your needs may be. Watch for Further Particulars.

Jonas Long's Sons

were passed through rings attached to the collar, and were long enough to be tied around the waist of the charioteer in case of his having to defend himself. The wheels and body were usually of wood, strengthened in places with bronze or iron. The wheels had from four to eight spokes and the tires were of bronze or iron (in the present instance ash was used), and the pins which secured the felloes were of fos-

sil bone. This description applied to the chariots of almost any of the nations of antiquity, the difference consisting chiefly in the mountings. Thus the chariots of the Egyptians and Assyrians, with whom the bow was the principal arm of attack, were richly mounted with quivers full of arrows, while those of the Greeks, who used the spear, were plain except as regards mere decorations. The Persians and the ancient Britons used a class of chariots having the wheels mounted with sharp, sickleshaped blades, which cut to pieces whatever came in their way. This was probably the invention of the Persians, The use of the battle charlot really belongs to the heroic period. The warrior standing by the side of his charioteer was driven in front of the line to invite hostile warriors to single commander superseded the demands on his personal valor the chariot was transferred from the battlefield to the mippodrome where alone its original form was preserved. The description of the Homeric battle chariot therefore to a great extent also applies to the historic chariot of the race course. The small diameter of the chariot wheel may be explained from the desire of preventing the chariot from being opposed by the impediments in the battlefield such as debris or dead bodies. The rim was usually formed of four felloes in which the four spokes were let. The upper rail which was of either wood or metal, varied greatly in form, and was intended to be grasped by the warrior on jumping onto the chariot, while the front part served for fastening the reins and the traces of the "wheel horses." In the Roman triumphal chariot a covering of leather served to ward off missiles, and later on the following quotations are furnished. bat. After the strategic skill of a comchariot a covering of leather served to ward off missiles, and later on the were composed of strong boards. Unfortunately we know very little of the vehicles of everyday use. They nearly all seem to be a variety of what

we now term the "gig." Another Model Town.

Undeterred by the fate of Pullman and Dolgeville, the owner of a coal tract near Pittsburg is building a model mining town. Each of its houses of brick and stone will stand on a quarter-acre lot, with flower beds and an osage orange hedge in front. School buildings, reading and club house, churches and stores will be provided, thus leaving the miners and their families, to the number of three thousand. nothing to do but move in and be happy. Some precautions are, however, to be taken against such an issue of the enterprise as has befallen other experiments of the same kind. The homes are to become the property of the individual miners, and they are to run the place as in the case of other villages. The stores are to be managed on the profit-sharing plan. Club and reading room membership will involve the payment of dues. The sale of li-

THE MARKETS.

Wall Street Review.

Wall Street Review.

New York, March 1.—The Stock market reflected from the outset today the reduction of the unwieldy short interest by the large covering which took piace yesterday and which caused so lively a rally at the weak points of the market. Practically all these stocks showed a renewed weakness today. Third Avenue conspicuously so. They fell in the last hour to a low level, a full point below yesterday's lowest and rallied but feebly closing with a net loss of 8½. Rumors were circled of a very heavy assessment to be levied on the stock to effect the reorganization. The other local traction stocks relapsed weakly in sympathy, declines ranging in the group from 2 in Manhattan, to 6½ in Metropolitan. The short interest in Sugar was much less eager to cover and that stack aisa fell back, falling an extreme 4½ and closing with a net loss of 3½. Very marked weakness in the metal stocks was an added factor towards reaction, American Hoop leading the decline with a loss for the common stock of 4½ and for the preferred 4 points. Colorado Fuel, the Federal Steel stocks. Tin Plate, American Steel and Wire National Steel and Tennessee Coal all closed lower, the last named having shown considerable strength in the early dealings People's Gas reacted 2½. There was, however, a good demand early in the day for railroad stocks, based on the continued reports of large earnings for January, in spite of stocks, based on the continued reports large earnings for January, in splie the high level of operating expense. The great Pennsylvania system
