WILL HOLD UP BOUNTIES.

Judge Purdy's Opinion Takes Effect

in Monroe County. Special to the Scranton Tribune. Stroudsburg, March 5.-The county commissioners at their meeting held this afternoon decided to hold up the payment of bountles and have so instructed the county treasurer. David S. Lee, counsel for the commissioners, came before the board and stated that he had read the opinion of Judge

Purdy, as given. Senator Lee said: "The decision is correct. Of course it is only a common pleas and may be reversed by the supreme court, but until it is brought before that body it should stand and be acted upon by the county commissioners. My advice is that you hold up further payments."

Only One Week More.

THE Dissolution Sale of Horan & Merrill's Fine stock of Clothing and Furnishings is rapidly nearing its close. It has been wonderfully successful. Not profitable. Our losses were leavy, but we had to have the money, and didn't consider the sacrifice f the goods to get it. There is still an enormous lot to sell at about hat price—that is, enormous to crowd into two weeks' selling. But they must be sold, and it is your gain.

What to Do Until the Doctor Arrives It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany (N. Y.) dairyman called at a drug store there for a doctor to come and see his child, then very sick with croup. Not him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, child was much better. The druggist, Mr. Otto Scholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. THE MARKETS.

Wall Street Review.

New York, March 5.—Attention in the stock market continued to be largely devoted to the feverish and excited fluctuations of a small number of stocks. Manipulation by the bears was largely responsible for the changes. In the case of Sugar the operations of the professional traders were interrupted by the unexpected action of the directors in declaring a quarterly dividend of 1½ percent, on the common stock. This sudden tearing aside of the veil of mystery rather nonplussed professional traders, who had counted upon a period of uncertainty until Wednesday in which to circulate vague reports and to keep up an excited fluctuation in the stock with opportunities for profit both up and down. The cutting into haif of the dividend was about what Wall street sentiment had settled upon, but coming suddenly upon the half executed plans of speculative contingents, it left them all at sea. The stock opened under pressure, but after failling nearly 2 points encountered very vigorous support and was fallied to 165½ by noon. A 2,000 share lot was taken at that price when the news became known of the dividend action. Enormous selling for both accounts immediately followed and the price slumped by wide breaks with ccasional spasmodic rallies to 37 while fluctuations were wild on the recovery to per. The flood of offering prevented the rise above that, but on the reaction to 38 large buying was in evidence again, which railied to 59½, where it closed at a net loss of 1½. In the half hour after midday transactions in this stock reached the enormous aggregate of 620,000 shares. There were sharp breaks in Tobacco and Tennessee Coal at the same time with the slump in Sugar, but the general market was not affected. In fact the stock market gave evidence of its rejoicing over the set-Wall Street Review.

tiement of this question by a smart rally, many of the railroads rising to the best prices of the day. The market was again unsettled in the late dealings by an attack on Steel Hoop, People's Gas and Consolidated Gas, driving them 2 to 4 points. New York Central reacted 14, but otherwise the railroad list was little affected and retained a fair sprinkling on net gains. Third Avenue, after having risen was forced down to 54 in the late dealings, and Tennessee Coal also yielded to pressure. A quotation of 3½ percent, was made for call money in the coupe of the late bear raid on stock. The money market during the day showed no sign of disturbance and there were no evidences of liquidation being forced by the calling of loans. London was not affected in this market, holding aloof speculation until after the presentation of the war budget to the house of commons. The money market bardened in London and in Berlin and the influences from foreign markets were on the side of depression. Further reports of railroad earnings for January showed extraordinary increases, but the goss earnings for the fourth week in February did not show as striking gains as those for the third week. Total sales, 512,000 shares. The bond market was rather dull and irregular. Total sales, par value, \$1,760,000. United States bonds were unchanged in bid quotations.
