WOLF SEIDMAN INJURED.

Struck with a Billiard Cue in Hands of a Drunken Man. Wolf Seidman, a brother of Detective "Mike" Seidman, was received at the Lackawanna hospital yesterday afternoon with a good-sized cut in his head, and at about the same time a drunken Poleander was hurled into the central police station as the result of an altercation which had occurred between the two men in a Penn Avenue saloon.

Seidman it seems was sitting in the billiard room, talking with a companion, and watching two Poleanders playing pool. One of these latter was drunk and persisted in making insulting remarks about Seidman, who at last rose and asked him what was the matter with him and why he continued annoying him.

DEADLOCK IS STILL ON.

Olyphant Borough Council Fails to have a Meeting. Owing to the absence of a quorum no meeting of the Olyphant borough council was held last night, and the deadlock in consequence remains unbroken.

The six VanSickle men remained away from the meeting. The law provides that the council shall meet ten successive nights in the endeavor to effect reorganization. The claim is being made that the failure to meet disrupts the council and leaves it to the court to appoint new members, just as if organization was not effected after the ten prescribed trials.

JOHN BRODISH ARRESTED.

Charged with Assaulting His Sister-in-Law, Mrs. Emma Brodish. Brodish and his brother and Emma Brodish, the latter's wife, live together and the prosecutrix in the case alleges that her brother-in-law has frequently slapped and otherwise mistreated her.

After hearing the case Alderman Kason decided on a further hearing, and as Mrs. Brodish claims to be afraid to stay in the same house with the defendant in the case he was confined in the central police station for the night and the hearing will be continued this morning.

BOARD OF HEALTH DID NOT MEET

THREE OF THE FIVE MEMBERS FAILED TO ATTEND.

Report of Dr. Allen Dealt with the Efforts of the Board to Prevent the Spread of Disease During the Month—Mortality from Diphtheria and Scarlet Fever Has Been Very Low—Statistics Contained in the Monthly Report of the Secretary of the Board.

The board of health did not meet last evening in regular session, three of the five members being absent. When 8 o'clock, the time set for its beginning of the meeting, arrived the only member present was Mr. O'Malley. Shortly after 8.30 o'clock Dr. Reynolds put in an appearance and these two, together with Dr. Allen, after waiting until about 9.15 o'clock, decided to adjourn until next Wednesday evening, March 11.

The report of Dr. Allen, which would have been presented at the meeting, gave an interesting resume of the work done in preventing the spread of disease during the month. According to this report there were 160 rooms disinfected; nine school buildings fumigated and 312 houses placarded with contagious disease signs.

The doctor mentioned the fact that the mortality from diphtheria and scarlet fever in this city since the epidemic of these diseases began has been less than that of any other city in the state, according to figures compiled by the secretary of the state board of health.

The secretary's report for the month was as follows: Actual city mortality, 155; deaths from accidents, 11; total deaths, 166; births, 101, 45 females and 56 males; marriages, 26; cases of contagious disease reported, 209, as follows: Diphtheria, 39; typhoid fever, 4; measles, 2; scarlet fever, 204. There were 18 deaths from contagious disease, all from diphtheria.

The report of the food inspector was as follows: Inspections made, 454; lactometer milk tests, 145; Babcock tests made, 38; average per cent. total solids, 1.27; average per cent. butter fat, 3.89; destroyed, 50 pounds of seal, 50 pounds of fish and 25 quarts of milk. Consideration of the milk ordinance will, of course, go over until the board is enabled to meet again.
