IMPROVEMENTS TO BE MADE AT HILLSIDE HOME.

Bids Being Received for the Construction of a New Green House at the Hillside Home—D. L. & W. Board for Today—Improvements at the Baggage Room in the Lackawanna Station—Order Issued by General Passenger Agent T. W. Lee—Other Notes.

Bids are now being received for the construction of a new green house to replace the old one at the Hillside Home. The structure, the plans for which have been prepared by Architect E. H. Davis, is to be complete in every respect. It is to be eighty feet long and thirty-seven feet wide and will have three compartments: a palm house, a rose house and a green house and a room for the raising of various other plants. The estimated cost is about \$2,000.

The green house will be used for the winter culture of the plants and for which in the summer time to form the extensive grounds around the house.

The cold storage building, now in course of construction at the home by Contractor M. J. Ruddy, will be finished and ready for use by April 1, if not before. This building is 2,250 feet in size and will contain all of the most modern improvements now in use in this class of buildings.

Order About Tickets.

The following circular has been issued by General Passenger Agent T. W. Lee to agents, conductors and baggage men on the Lackawanna railroad:

We have supplied agents with new form of book local tickets as follows:
L 11 book, one way.
L 12 book, excursion round trip.
L 13 book, party.
These three forms are to take the place of local forms 43, 44, 45 and 46 respectively.

L 11 and L 12 are emergency forms of one way and excursion tickets and are to be used only to such destinations to which you may have temporarily exhausted your simple form one way and excursion tickets until the supply of L 12 and simple tickets is exhausted, which will be prior to April 1.

L 13 is a party ticket to be used for all party business, at regular party rates, for ten or more people, on or specific orders from this department.

Upon receipt of this, you will please send to the auditor, freight and ticket accounts, together with detailed statement of the commencing and closing numbers of each form, all the above mentioned blank tickets and all of your one way, card local forms, at stations where your sales average less than 150 per month, which you may have on hand.

Such stations as are supplied with card forms, tickets will also return them, and hereafter, in selling tickets for the transportation of a corpse use regular simple tickets and endorse in ink across face of ticket "Corpse."

Improved Baggage Room.

The baggage room at the Lackawanna station has been enlarged and now takes in the room formerly occupied by the Union News company and the railway mail clerks. The interior has been painted and other improvements made and a new Fairbanks scale added. The scales formerly used on the depot platform has been removed.

All baggage is now loaded on trucks in the baggage room and conveyed to the trains without being handled on the station platform, and all trucks and valises taken from trains are conveyed to the baggage room on trucks, instead of being handled on the platform.

This and That.

Ryan & Kelly, of Philadelphia, have been awarded the contract to erect the new locomotive shop at Reading for the Philadelphia and Reading Railroad company, at their bid of \$1,150,000.

It is now a certainty that Mahanoy Plane will be abandoned. Heretofore the empty cars from Port Richmond were brought up the main line to Palo Alto, from where they were taken to Frackville, and thence down the plane for distribution to the collieries. In future they will be diverted from the

main line at Port Clinton and brought up the Little Schuylkill railroad to Tamagong for distribution.

The Lehigh Valley railroad has placed an order with the Baldwin Locomotive works for three passenger locomotives that will be used on the Black Diamond Express trains, the engines to be delivered some time in May. These new engines in a general way will be the same as those now used for the Black Diamond service, except that they will be considerably heavier and more powerful. They were designed by S. Higgins, superintendent of motive power of the Lehigh Valley road.

BLAZE AT BROWN HOLLOW.

Business Portion of the Little Town Destroyed by Fire.

The business portion of Brown Hollow was destroyed by fire at an early hour Thursday morning. The fire originated in a dance hall at the rear of the Brown Hollow hotel, owned and occupied by John G. Orendike. The hall and hotel were quickly destroyed. Mr. Orendike and family barely escaped with their lives. They were obliged to make their escape in their night robes. The flames spread from the hotel to the general store of J. P. Croffat. This building was a large two story structure and was completely destroyed, none of the stock being saved. A clothing store owned by Jacob Postine was the next to go, and both stock and building were consumed. The aggregate loss will foot up \$8,000 with small insurance. A bucket brigade did good service in saving several other buildings.

The fire is thought to have been the work of an incendiary, as there was no fire in the hall. The flames were first discovered at the rear of the dance hall. Brown Hollow is a little village four miles from Peckville, and in Scott township.

Don't Confound Good Tailoring

And honorable methods

With the Promises of the Fakes

Who from time to time infest this city. They offer foreign goods at ridiculous prices, but intelligent men know that the duties on imported goods imposed by the Tariff Act of 1898 would put these goods beyond their reach, even without the original cost of the goods. Consequently, cheap shoddy, from nameless American mills, is palmed off instead. They promise fine tailoring, but get the work done in other cities at factories and sweat-shops, where the work compares with honest tailoring as whitewashing compares with fresco painting.

We continue to do HONEST TAILORING at lower prices than it has ever been done for in Scranton.
