NORTON'S BULLETIN.

Fine Wall Papers

At Half the Regular Prices.

having finished our annual inventory of stock we find a lot of Remnants and small quatities, enough for one or two rooms of each, which we want to clear out to make room for larger quantities of other patterns, and offer them at half the usual prices while they last. This is a good chance to get real bargains in fine Wall Papers where small quantities are wanted. The variety of patterns and colors is large, but the quantity of each is limited. We want to get them out the store before spring trade

CORONER WAS CALLED IN.

Dr. S. P. Longstreet Declined to Issue a Death Certificate.

Coroner Roberts was called upon yes-terday to issue a burial permit for the interment of Abram Koch, of 337 North Washington avenue, who died the night previous without having had an attending physician.

attending physician.

The coroner issued the permit after satisfying himself that death was due to natural causes. Mr. Koch has been complaining a long time and had been attended by several physicians from time to time. It so happened that in his last illness he failed to call in a physician, he and his family having failed to realize the seriousness of his condition.

When it was apparent that death was approaching Dr. S. P. Longstreet was called but before he arrived the end had come. Dr. Longstreet declined to issue a death certificate under the circumstances and the coroner in consequence was summoned.

The deceased was 52 years of age and a tailor by trade. He is survived by a

SAFE IS STILL LOCKED.

And Employes of Railway Company Are Still Without Their Pay-To Use Electricity on the Safe.

Pay-day is still a thing of the dim, distant future with the Scranton Rallway company's four hundred employes. All attempts of Expert Griggs to throw back the bolts that securely bar the door of the vault containing their pay envelopes and the pay-rolls have proved fruitless, and now it is purposed to cut a hole through the door, as the only means of ever getting inside.

When Expert Griggs gave up all hopes of moving the bolts from the outside, and announced that it was necessary to cut a way through. Chief Engineer E. D. Wildt, of the Providence power station, who, incidentally, is waiting for his pay, with the rest, suggested as a substitute for the slow process of chiseling through the stee door that he be allowed to burn a way through with electricity.

His request was granted and yesterday afternoon a force of men, under his direction, laid heavy feed wires from the "feeders" on Lackawanna avenue to a field of resistance coils located in front of the vault and from these to a single, heavy, insulated copper wire reaching to the vault door. It was figured that by applying the end of this wire to the door a hole would be melted through the outer steel plates in a very short time.

It was arranged to commence the work at 2 o'clock this morning, when the cars had stopped running and the full current supplying the trolley could be utilized. Mr. Griggs marked the place where he wanted the opening made, and asked that it be made large enough for him to insert his hand. Mr Wildt promised to have such an openmade before daylight.

W. C. T. H. MEETING.

Excellent Paper Read by Mrs. J. W. Downing.

Mrs. J. W. Downing read a very excellent paper yesterday afternoon on "The W. C. T. U. of Today" at the meeting of the Central city branch of that organization, held in Guernsey

She pointed out that the glorious record of the association in the past will not avail if the members do no meet with the full measure of their the needs of the present. She urged that the members see that the law which provides that school children be taught the injurious effects of alcohol on the body be not violated and said that it was the little things at hand which should be done first. A committee consisting of Mrs. Taylor, Mrs. C. D. Simpson and Dr. De Graw was appointed to secure financial help for the series of illustrated temperance lectures to be given by Dr. Tracy in Mears' hall, commencing

BIG EJECTMENT SUIT.

Now on Trial Before Judge Albright in Luzerne County.

In Wilkes-Barre, Monday, before Judge Albright, of Lehigh county, the case of the Hillside Coal and Iron company against Henry Zeigler was put on trial. The case is one which involves property valued at two million and is an action in ejectment for 350 acres of coal land in Pittston

Zeigler is an old German, who has lived on the land in controversy for many years and claims title to the property by deeds from various perons to him. The plaintiff claims that the defendant is only a squatter on the ands and has no title whatever, and proposes to show it on the trial. Zeigler has had the company's men arrested for trespass and the company has had Zeigler arrested for fomenting lawsuits, all on account of the disputed

DECISION EXPECTED MONDAY. Supreme Court Has Passed Upon the School Board Case.

Local parties interested in the school board case expect a decision from the supreme court Monday next, and it is figured that the decision will be in favor of the board of twenty-one Justice Brown, it is said, will make the fourth man on the tench to support the contention of those who argue for the board of twenty-one.

MORRIS ENTERED HIS WARM PROTEST

DID NOT LIKE MR. KELLER'S REFERENCES.

They Were About the Board of Bevision and Appeal, of Which Mr. Morris Is a Member-Mr. Keller Said It Ought to Be Abolished. Thinks It Is an Outright Steal. Council Decided to Appropriate More Money to Pay the Board-Ordinances on Third Reading.

Common council had a very exciting meeting last night. The cause of all trouble was the board of revision and appeal. Council went on record as granting that body back salary amounting to \$600, when only a week ago it decided that the board would not get it.

The matter came up when the appropriation ordinance was called on third reading. Mr. Zizelman moved that council go into committee of the whole and the motion being passed Chairman Keller took the floor and gave the chair to Mr. Griffiths, Mr. Zizelman then offered an amendment, taking \$601 from the judgment and incidentals appropriation and making a new item of that amount for the payment of 1899 deficiency in payment of the board of revision and appeal.

WAS CUT OUT ONCE. It must be understood that an item of \$600 was asked for in the estimates submitted for that department for the payment of this deficiency and was cut out by the estimates committee. The ordinance passed select council, as submitted by the estimates committee and at the last meeting of common council an amendment was offered taking out \$600 from judgments and inci-

dentals and creating this new item. The amendment offered last night provides for the taking out of \$601. This \$1 was added on so that the letter but not the spirit of the rule prohibiting the bringing up of a similar amendment twice might be carried out. Mr. Keller at first rose to a point of order, saying that this was the same amendment that had been offered before, but upon being told of the \$1 difference by M. V. Morris he stopped talking along this line and spoke of the board in general. Mr. Keller was very much in earnest

He said: "This board ought to be abolished. It's the biggest outright steal that has ever been placed upon this city. It is yearly taking money out of the city

treasury that shouldn't be taken out of it. I've always contended that this board should meet only during the first three months of the year and I think that that's what the law contemplates, but these men come here twice a week, sitting sometimes only fifteen or twenty minutes at a time, and yet this city pays them \$3 for every time they sit. It's an outrage and there's no reason why it should be

MORRIS ON HIS FEET.

When Mr. Keller had ceased speaking M. V Morris, who is a member of board, was on his feet in a moment. He was very wrathy and his voice also rang out so loudly that the physicians' meeting in the next room was temporarily adjourned so that the doctors could hear what was going on. Mr. Morris said:

"As a member of the board of rethe gentleman who says that the board meets only fifteen or twenty minutes ome days deliberately lies before this body. If he don't like the board, let him go down to Harrisburg and get the law creating it repealed. Let him also read the opinion of the late Judge Gunster, who decided that the board could meet every day in the year if they wanted to and three times a day, It would also be well for the gentleman from the Seventeenth to hink of the traveling around the board has to do, also. I would have preferred to sav nothing, but when he attempts to shove down anything like he has said tonight, I must protest." Mr. Keller said, in reply: "There should never be a councilman appoint ed on the board. If it was composed

of five ordinary citizens, we wouldn't have this deficiency of \$600. I know that with members of the board in councils it's impossible to pass any measure tending to correct any of the abuses growing out of it. I want to say, too, that I haven't a word to take

During all this harangue and argument Mr. Grier had been making desperate but futile attempts to call the attention of the chair to the fact that all the remarks were out of order, but when Mr. Keller had ceased his second speech he insisted that the amendment be put and put it was, being adopted by the following vote:

Yeas-Zizelman, Naegell, Smith, God shall, Watkins, Griffiths, Reese, M. V. Morris, Phillips, T. F. Morris, Norton, Ruane, Monaghan, Grier-14. Nays - Keller, Tewkesbury, Harvey Calpin-4.

DIVISION ORDINANCE KILLED. The ordinance providing for the dirision of the city into four districts. for the ostensible purpose of dividing the ward appropriations more fairly, was called up, but Mr. Grier succeede

The following ordinances passed third and final reading: Providing for sidewalks on Garfield avenue; provid-ing for a sewer system on Meade ave-

The following select council resolu tions were concurred in: Directing the food inspector to furnish a list of dealers licensed to sell oleomargarine; per-mitting the city solicitor to expend \$40 of the judgment and incidentals' appropriation for the purpose of taking testimony in Elmira in the electment suit of the City of Scranton against Randolph Crippen.

THE EIGHTEENTH RECITAL.

Given by the Pupils of the Scranton Conservatory. The Scranton Conservatory of Music

gave its eighteenth recital last night at Guernsey hall. The pupils' work was, as is always the case, exceedingly good. The ensemble effects were among the best numbers. Ralph Williams and Charles P. Kreig furnished the vocal selections, all of which were rendered with fine taste.

Professor Pennington's great talent as a teacher was never more clearly exemplified than on this occasion. A marked improvement is noted from time to time as his pupils appear and the finished technique so swiftly acquired is a prominent feature.

The pianists of last evening were: Misses Florence Peck, Lenore Stetter, Josephine Siebecker, Grace Browning, Mary Flower, Alma Follansbee, Louis Slocum, Bone Hutchinson, Conrad Lohmann, Gisner Gerlock, Wagenhurst and Hessler and Harry Wilkin.

TO BETTER THE SERVICE.

Scranton Railway Company Will Run Through Cars Between Scranton and Carbondale.

Commencing Thursday the Scranton Railway company will run through cars between Scranton and Carbondale every twenty minutes, covering the distance in an hour and fifty minutes and charging 30 cents each way. or 25 cents less for the round trip than is charged by the steam road.

The first car leaving Scranton for Carbondale will start at 5.20 a. m., arriving in Carbondale at 7.10. Twentyminute trips will be made up to 10 o'clock p. m., and after that the service from Mayfield barn to Carbondale will be cut to forty-minute trips. The last car leaving Scranton for Carbondale will start from Lackawanna avenue at 11.20 p. m. and arrive in Car-bondale at 1.10 a. m. All cars will run through to Belmont street in the upper part of Carbondale.

The first car from Carbondale to Scranton will leave at 5.50 a. m. A twenty-minute service will be maintained straight through till 11.30 p. m. when the last car starts for Scranton It will arrive here at 1.10 a. m.

The five large "spliced" cars not used on the Peckville runs and six of the eight-wheel Carbondale Traction company cars will be utilized for these through runs. A four-wheeler will be temporarily brought into service to make out the full complement. Eventuelly special large fast cars will be

supplied to this line.

The Peckville and Olyphant runs will be abandoned, with the exception of the first Olyphant trip at 5.10 a. m.,

Providence. After Thursday there will be a twenty minute through service vision and appeal, I want to say that and a ten minute service to Providence. The through cars will leave on the hour, twenty and forty. The Providence cars will leave at ten, thirty and fifty. The larger size of the through cars, it is figured, will make up for the

decrease in the number of trips. inaugurated in the Bellevue-Stone avenue line, by which a twenty minute service will be substituted for the present half-hour service, from 5.50 s to 9.30 p. m. on the Bellevue end and from 6 a. m. to 9 o'clock on the Stone avenue end. The last car for each terminus will leave Lackawanna avenue at 11.35 n. m., each starting on the return to the central city at 11.50 p. m.

W. E. SMITH ARRESTED.

Grocer Charged with Throwing Refuse Into the River.

W. E. Smith, a South Washington avenue grocer, was yesterday ar-raigned before Alderman Howe on the same charge that W. A. McConnell, another grocer of the vicinity, was arrested on Monday, that of throwing decayed vegetables and other refuse into the Lackawanna river.

The warrant was sworn out by Conrad Lutz, but Inspector Robert Flynn Thomas are back of the movement Smith was dismissed yesterday with payment of the costs of the case. This habit of throwing refuse into the Lackawanna river, it is alleged, is responsible for considerable of the diphtheria and other disease prevalent on South Washington avenue.

GRIMMELL ARRESTED.

Charged by Chief Wilkie with Larceny of Government Checks.

Philadelphia, March 13.-Edward E. Grimmell, formerly employed as a laborer in the Disbursing office of the medical department of the United States army at San Francisco, who was recently arrested here by secret service operatives charged with the larceny of government checks, was today given a hearing before United States Cor sioner Craig. He was held in \$3,500 ball for trial in San Francisco.

Chief Wilkle, of the secret service, was the only witness. Previous to the hearing Grimmell admitted his guilt. Chief Wilkie stated that several checks were missed from the disbursing office last December. Thirty-five were afterwards cashed. About this time Grimmell disappeared and suspicion fell upon him. The defendant admitted swindling numerous banks by means of the checks and it is believed that he realized about \$10,000.

Corporations Chartered.

March 13.—These corporations were chartered today by the state department: McKeesport Brick company, McKeesport, capital \$1.000; Greta Machine works, Reading, capital, \$25.000; Consumers' Gas company, Beigfreids, capital, \$1.000; Lehigh County Electric company, Catasaqua, capital \$1.000; People's Gas company, of Lehigh county, Catasaqua, capital \$1.000.

Pennsylvania Pensions. Washington, March 13.—Pension certifi-cates issued under date of February 27 Increase—John S. Doty, East Smithfield Bradford, \$13 to \$24.

ON OSTEUPATHY

ABSURDITY COULD GO NO FURTHER, HE THINKS.

Paper Was Read at Last Night's Meeting of the County Medical Society-Osteopathy Claims to Cure Nothing, but Only to Restore the Body to a Normal Condition and Let Nature Effect the Cure-Quoted from a Recent Decision of a Kentucky Judge.

A very well attended meeting of the Lackawanna County Medical society was held last night in the select council chamber in the city hall. Dr. W M. Reedy read a paper on "Raynold's Disease," and Dr. J. C. Bateson also read one giving his views on "Osteopathy." Dr. Bateson's paper, which was very well received, was as fol-

The word osteopathy, literally rendas applied to the modern fad of treating diseases, it represents a process of rubbing or manipulation. This is not a new method, since it has been in use for ages, but it is now put under cover of a mis-applied name, making it a "scapegoat" in order to win the title of "doctor" in the easiest way possible, and so avoid the long and rigid course of study and hard work laid down in a medical college curriculum. It has proven to be quite a successful scheme for making money and fame at the expense of deluded peopls.

This rubbing system virtually does away with a four or five years' medical course, including a hospital and laboratory training. The skill and experience of all the great medical scientists and teachers, both past and present, are turned down as failures. The study of anatomy, dissection of the body, physiology, surgery, pathol-

the body, physiology, surgery, pathology, histology, diagnosis, therapeutics, physics, materia medica, chemistry, etc.. are of little consequence to the osteopath. Manipulation is made to take the place of these sciences and is lauded as the currently par excellence. lauded as the cure-all par excellence. According to this pseudo philosophy, all the sick need to do is to pay fancy prices and get rubbed, until restored

ANOTHER CLASS.

There is another class of professionals that should be contrasted in this connection, namely, trained nurses. They are taught how to apply massage, or rubbing, when it is practical. They understand the use of electricity, surgical appliances, baths, and how to prepare food and medicine for the sick, and yet, the members of this noble profession do not pretend to be super-lor to physicians or take their places. In all first-class schools for nurses the study is from two to three years, and the required standard is superior to that of the American school of osteopathy.

It is the rule and privilege of regular physicians to select whatever sys-tem, remedy, or means, is best suited to a given case, but never to make a to a given case, but never to make a cure-all out of any one thing, so that while massage or rubbing may be beneficial in some cases, it would be the height of folly for an up-to-date physician to use such a remedy only, in the treatment of small-pox, diphtheria, typhoid fever, heart disease, consumption, hyperleukocytosis, etc. Nor would a good surgeon expect to succeed by the rubbing plan in the removal of tape-worm, choledocholithiasis, tumors, cancer, piles, corns, etc. which will be continued.

Heretofore there was a fifteen-minute service to Peckville and Olyphant and a seven and a half minute service to providence.

After Thursday there will be a minute service to junctivitis, parenchymatous nephritis, and such diseases as bleparoconjunctivities, parenchymatous nephritis, and such diseases. angina ludoviciechinococcus, endosa pingitis pappillioma, pachymeningitis, or retinitis albuminuriae, and without a study of anatomy he cannot know the origin and distribution of the phrenic nerve, or the structure of the pacinian bodies, or the mode of origin and form of the ventriculous terminalis of the spinal cord, or the brain of

pithecantropus erectus, etc.

The osteopath says that "the human body is a complicated machine, that disease is the creaking of the eccentricities of any or all parts of the ma-chinery," and that "osteopathy claims to cure nothing, but only to restore the body to a normal condition and let nature effect the cure."

WHAT IT IS.

The very fact that the osteopath has never dissected and learned the intric-acies of this wonderful human machine is conclusive proof that his opinion of such subjects amounts to simply a cir-cumlocutory cycle of oratorical sonor-osity circumscribing an atom of identity and lost in a verbal profundity.

Through a recent decision by Judge S. B. Toney, of Kentucky, that state is rid of the incubus of osteopathy. "The state board of health took the trouble to send a commission to Kirkville, Mo., the home of osteopathy, to make an investigation. They showed that out of a faculty of fourteen professors only one was an M. D., and even he seemed to be in ill-repute." The prospectus of that school, discussing osteopathy, ridi-culed the use of drugs and surgical procedures, and yet professed to cure,

203 Washington Avenue.

by manipulation, all diseases not curable by the usual medical and surgical means; and still they claim to be a reputable medical school. Could absurdity go further? Truly we may say, "O consistency, thou are a jewel." As the learned judge says, "How can it be called a reputable medical college when its own professors repudiate and refuse to teach materia medica and thereapeutics and chemistry and an-

refuse to teach materia medica and thereapeutics and chemistry and amatomy and physiology, and confine themselves alone to manipulation." His concluding words are: "It is singular, indeed, that in an enlightened age like this, such humbug schools and ignorant pretenders could find recognition by the laws of any state."

Surely the above-named judge and state board of health deserve to be commended for their strenuous efforts in behalf of the people under their jurisdiction, and their good example and work should spread throughout every state in the Union, and the people educated up to the fact that osteopathy, so-called, is only a form of suggestion plus manipulation.
