The Fashion Event Of the Opening Spring Season

"I wonder what I shall wear this spring?" How many ladies have already asked that question this year, and how few have been able to answer it, because the new Modes and Fabrics for the approaching season had not been seen or determined on by the leaders of fashion. Well, the guessing period has been passed. All the weaves, makes and colorings to be worn during Spring and Summer of 1900 have passed through the crucial test, which decides selection or rejection, and today correct styles are as well defined as they will be in the month of June, when trade begins to slack off, Under such favorable conditions it affords us pleasure to announce to the Dress Goods Buyers of Northeastern Pennsylvania that

Our First Formal Display Of New Dress Fabrics for 1900

You will find the following among other weaves, in all the new shades, mixtures and color blend effects :
