Stroudsburg was robbed by thieves on Sunday morning. They stole the cash register and some bottled goods. Entrance was gained by smashing a rear window in a door in the rear of the bar-room. The sash was cut with a knife, but, as a bolt at the top held the entrance, it was necessary to break the glass. The cash register weighs about 150 pounds and two men are believed to have carried it away. The register was afterward found nearby badly damaged. Today Constable Kinney arrested Andrew Gower, who was held in \$300 bail.

CONNOLLY & WALLACE, WASHINGTON AVENUE THE MARKETS.

New York, March 26 .- Today's stock arket made a remarkable tion of strength in the prices of securities and of absorptive power in the face of the enormous liquidation of profits. Sharp reactions from best prices were made in many stocks and others, which have been the recent favorites among speculators for a risel were heavy in realizing of profits throughout the day, but the general level of prices was decidedly higher on the day and a very heavy aggregate of stocks was marketed. Dealings were more or less congested in the usual leaders of stock exchange movenents, but there was a very broad market for usually dormant stocks, some of which have not made their appearance in the records of transactions for many weeks past. London was an eager buyer in this market, and while there were sales for that account to take profits where recent advances have been considerable, the disposition of the foreigners seemed to be to re-invest their profits in other stocks. They were free sellers of Nor-folk and Western and of Baltimore and Ohio, but the purchases on London account far outbalanced the sales. It was estimated today that London bought fully 60,000 shares on balance. principally among the low priced comnon stocks with preferred ahead of them. The commission houses had large orders to buy what had accumulated over Sunday, and the profes sionals took advantage of this demand to market their holdings. This, coupled with the weakness of the local traction stocks, sugar and people's gas, turned prices back before the end of the first hour, but the buying continued in unabated volume and carried the market upward again. Later in the day, when the buying orders had been executed and realizing developed in the trunk lines, the market went off egain. The final rally did not bring prices back to the best, but it made the closing firm. Baltimore and Ohlo common rose an extreme 5% and at one time crossed the preferred. There was very heavy realizing in the other trunk lines under cover of the rise in Baltimore and Ohio. Special strength and activity was shown by a number of the low-priced southern and southwesterns, the Pacifics, some of the coalers, both anthracite and bituminous. The news of the day did not receive much

ed with games and music, and at 10.30 o'clock a supper was served by the ladies. It consisted of salads, olives, biscuits, cake, coffee and cream The guests came dressed in old-fashloned garments and it was amusing to see them. Those present were: Mr. and Mrs. Pease, Mr. and Mrs. J. Mc. Nulty, Mr. and Mrs. C. F. Kendall, Mr. and Mrs. J. Holgate, Mr. and Mrs. Snyder, Mr. and Mrs. J. T. Griffin, Mr. and Mrs. S. What to Do Until the Doctor Arrives

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany (N. Y.) dairyman called at a drug stor there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in, he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saving the doctor need not come, as the child was much better. The druggist, Mr. Otto Scholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country.
