Mr. Frick, now in the employ of the Consolidated water company, went from the Delaware and Hudson service to the city's highest salarled office.

Under the old management the street cars ran almost with the same precis-ion as passenger trains, and with rare exceptions one could always tell within a minute or two when the cars would pass, but since the change made in the early part of the month all this has passed away and never in the history of the road has the service been so poor. Everyone who has to patronize the cars are to be heard deploring the change that has taken place.
