PITTSTON.

Special to The Scranton Tribune.

Pittston, March 29.-Police Officers Cummerville and Weather went to the home of a man in Browntown at 5 o'clock this morning with a warrant for his arrest, charged with creating a disturbance in a city salcon. The man was in bed and, refusing to dress and go with the officers peaceably, he was marched to the city lockup, a distance of over a mile, with nothing on but

Mrs. Margaret Bragg, aged 82 years, a resident of West Pittston for the past forty-five years, died this afternoon at 3 o'clock from heart trouble, with which she had been troubled for several years past.

Recent meetings of both branches of Pittston's city councils are characterized by very lively scenes and debates. Last night's meeting of the select was no exception. A bill from Attorney John T. Lenahan, of Wilkes-Barre, for \$400 for professional services in con-nection with the recent trouble with the Taxpayers' association, who sought to prevent the council from purchasing a new city hall lot at an exhorbitant price, almost staggered some of the members, who were loud in objections to the bill. It was finally laid on the table. The ordinance providing for the payment of \$1.465.29 to Sewer Contractor Healey for extra rock work on the William street sewer brought out a debate that assumed a high pitch. It was the discussion of this same ordinance which caused the disturbance at the last meeting of the commoners, and resulted in a law suit by which Contractor Healey was sent to jail for disorderly conduct. The ordinance passed finally last evening notwithstanding the objections. The appointment of a member of the board of health created another uproar, during which Chairman Joyce refused to put a motion, and for which action he was denounced in emphatic terms by Councilman Bowman. The result of this appointment will have considerable weight in the choosing of a health officer by the board, hence the importance as to who receives the ap-

TUNKHANNOCK.

Special to The Scranton Tribune. Tunkhannock, March 29.-A contem-plated change of time on the Valley road may result in giving Tunkhannock a morning train down the road. The company is having new cars built for the Black Diamond Express and the talk is that a through train is to be put on the next schedule passing through here about 10 o'clock in the morning, and using the cars now in use on the Diamond. In connection with this it is proposed to have an early train down from Montrose connecting with this train for New York and Philadelphia. This may result in some changes in Tunkhannock, as the Montrose train in that case will be obliged to lay at Montrose over night instead of at Tunkhannock and the employes,

How to Save Doctor Bills.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep bottle open all the time and when ever any of my family or myself begin to catch cold we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. FINANCE COMMITTEE

Will Consider School Board Estimates Tonight.

The finance committee of the board of control will meet tonight and consider the estimates of the required expenses for the coming fiscal year sent in by the other committees of the board. There are now grave doubts Jayne's promise that the tax levy for the coming year will be reduced, as every estimate received so far is way in excess of the appropriation made

last year. The members of the building committee have been making their annual inspection of the school buildings throughout the city during the past week and last night had inspected all but nine. While there will be no new buildings erected during the coming year, nevertheless the committee has found that many, and in some instances very extensive, repairs will have to be made, more, probably, than have been necessitated for many years past.

ACTION OF THE BAR.

Resolutions Adopted on the Death of terday Morning's Meeting.

The meeting was presided over by James H. Resolved, That a copy of these reso-lutions be conveyed to his bereaved fam-ily, and duly published in the periodicals of this city.

TO CHANGE TIME LIMIT.

Councilmen Want Crossings Blocked

It is known that an effort will be made immediately after the reorganization of councils to amend the ordinance prohibiting railroad companies from blocking the streets of the city. The amendment will be offered in common council and will provide that the time limit shall be five minutes, instead of eight as at present.

It will be remembered that a resolu-tion was recently introduced directing the chief of police to enforce the ordinance as it now stands. This passed common council, but was referred in select to the streets and bridges committee and never saw the light of day thereafter. A similar resolution will be introduced at the same time as the amendment.

The West Scranton councilmen are especially interested in the passage of both the amendment and the resolution, as they are almost daily besieged by their constituents to have some steps taken tending to relieve the present blocking of the West Lackawanna avenue and Scranton street crossings
