

EVENTS OF DAY IN WEST SCRANTON

BRANCH POSTOFFICE WILL SOON BE ESTABLISHED.

Means Much to the Business Interests and Thousands of Others. Street Commissioner Thomas Issued a New Order Yesterday Regarding the Cleaning of Streets. Business Meeting at Jackson Street Baptist Church—Patrolman Lowry Has Returned from the South. Other Interesting Notes.

The exclusive announcement in The Tribune yesterday to the effect that the postoffice department at Washington had passed favorably upon Congressman Connell's recommendation for a sub-postoffice in West Scranton was favorably commented upon by business men and residents in general yesterday, and the establishment of the much-needed branch is awaited with interest.

The sub-station at present located in Decker's drug store will be abandoned when the branch office is established. The new quarters will be fitted up with letter boxes and other equipment similar to the office which was abandoned when the free delivery system was adopted.

More deliveries will be possible and the late mails can be obtained up to 7 p. m., whereas under present conditions they are delivered the next day. Another advantage will be found in the outgoing mails. At present the last collection is made at 2 p. m., and under the new conditions a night clerk will probably be appointed to assort the late mail and stamp it for shipment.

The West Side board of trade deserves congratulations for the good work they did in this movement and the members of that body in turn are heartily thanked by Congressman Connell, Postmaster E. H. Rippe and T. V. Powderly for the rapidity with which they induced the post office department to act favorably in the matter.

Employees of the street cleaning department were engaged yesterday in cleaning the pavements on Robinson and Jackson streets and Main and Hyde Park avenues, and after the work was finished the following notice was served upon the business men along Main avenue:

To Whom It May Concern: You are hereby notified to discontinue sweeping your refuse into the street, after the said street has been cleaned.

The same must be taken care of, as you do your ashes and garbage, under penalty of law. By order of Rowland D. Thomas, Street Commissioner.

The notice caused considerable discussion as to whether or not the street commissioner means to include the dirt swept from the sidewalks in his orders. In that event it will be useless to sweep the sidewalks, as nearly all the dirt which now accumulates on the walks is the result of unclean streets.

WEEKLY SCHOOL DEPOSITS. Only two of the principals of public schools made deposits at the West Side bank yesterday of the collections from the school children. They were Miss Josephine D. pointed to carry on the negotiations for erecting the industrial building on the church. Rev. Thomas de Gruchy, D. D., the pastor, presided and gave an account of his labors in raising funds for the church.

SOUTH SCRANTON NOTES. Fifth Anniversary of St. Aloysius T. A. B. Society Fittingly Celebrated Last Night.

The members of St. Aloysius Total Abstinence and Benevolent society last evening celebrated their fifth anniversary at Pharmacy hall. This prominent organization is composed of some of our best men and the progress made in the past five years is very gratifying to the members as well as to the citizens interested in the welfare of the society.

When the society was organized five years ago each member pledged himself to the spiritual adviser of the organization, Rev. E. J. Melley, to abstain from the use of intoxicants for a term of five years, and last evening all the charter members who were faithful to their pledge during that time renewed their pledge for a like term. Rev. Melley pledged the following members who pledged had expired: John Ward, president; Thomas A. Donahoe, P. Walsh, Dennis Ruane, William Burns, Francis Williams, William Daniels, Martin Walsh, Michael Padden and John Moran.

A very eloquent address was then delivered by Rev. Melley, in which he spoke of the evils of intemperance and urged the members to try to meet their pledges. A smoker followed and a very pleasant evening was spent by all. The programme consisted of graphophone selections, recitations and vocal numbers by several of the members. Cigars and refreshments were served.

DAY'S DOINGS IN DUNMORE BOROUGH

ORGANIZATION OF FIREMEN'S ASSOCIATION PERFECTED.

The Officers Who Will Serve the Organization During the Coming Year—Independents Soon to Celebrate Their Fifteenth Anniversary. Ex-Chief of Police Dierks Claims His Term of Office Does Not Expire Until May 2 and He Intends to Claim Salary Until Then.

The organization of a relief association for the benefit of the borough firemen, which has been agitating the members of the hose companies for some time, has at last been perfected and the following officers have been elected:

President, T. L. Sansenbaugh; vice-president, Albert Butterman; treasurer, Victor Burschell; secretary, M. J. Roman; trustees, William H. McAllister, A. T. Levin, J. E. Melby, W. D. Potter, and Victor Wenzel.

In a borough similar to Dunmore, where the fire department is composed entirely of volunteers, outside of the permanent men taking care of the hoses, the relief association means much, as a member when injured while engaged in fighting fire will receive the sum of \$5 a week until able to again resume his duties. The organization has aroused considerable interest among the fireboys and will doubtless render them efficient aid.

FIFTEENTH ANNIVERSARY. On next Friday evening the fire laddies of the Independent Hose company will celebrate the fifteenth anniversary of their organization as a fire company of the borough. The celebration will be in the form of a banquet and social which will be held at their rooms of South Blakely street, and will doubtless surpass all previous affairs held by this popular company of firemen.

The committee that has been appointed to take charge and manage the affair are: Harry Davers, working to make all the arrangements and details as elaborate as possible and visitors and the friends and wives of the fire boys will find a treat in store for them Friday night.

FUNERAL OF DR. ELKIN. The services over the remains of the late Dr. Philip Elkin, who died at the home of his father-in-law, John Raught, at 422 North Blakely street, Sunday morning, will be conducted by the pastor of the Presbyterian church, Rev. W. F. Tibbons, at 10 o'clock this morning at the residence of John Raught, which will be private, the remains will be taken to the Dunmore cemetery, where they will be interred.

TROUBLE FOR COUNCIL. When Patrick Healey, the new chief of police, and his staff of patrolmen assumed their new duties on Sunday night, ex-Chief of Police Dierks also reported for duty. Asked for an explanation, Dierks said he was employed by the borough council from May 2, 1899, to May 2, 1900, and consequently his services were not finished.

Mr. Dierks contemplates reporting for duty every evening during the month and turning in his bill for his monthly pay as of previous months. Council will evidently have to foot the bill.

BRIEF PARAGRAPHS. The Ladies' Aid society of the Presbyterian church will meet at the home of Mrs. A. D. Blackinton, on Elm street, on Thursday afternoon at 2:30 o'clock. The meeting will be the twelfth annual of the organization and will be of an interesting nature. Miss Genevieve Hopkins, of Buffalo, is a guest at the home of Miss S. Gallena on Butler street.

The school board holds its usual monthly meeting in the central building this evening.

NORTH SCRANTON. The Ladies' Aid society of the Primitive Methodist church will conduct an entertainment and social at the home of Mr. and Mrs. William Wells, of Hollister avenue, on Thursday evening, April 5. A silver service will be taken as the admission. The following programme will be rendered: Piano solo, Mrs. E. J. Owens; recitation, Miss Jessie Wells; quartette, Misses Mattie Huntsman, Anna Sherwin, Messrs. Ben Thomas and Harry Davers; recitation, Miss Millard; bass solo, Mr. Thomas; phonograph selections, Mr. Webb; recitation, Miss Griffin; soprano solo, Miss Huntsman; phonograph selection, Mr. Webb. Ice cream and cake will be served at the close of the entertainment.

AGEING OF THE EYE. An Old Theory Controverted by a Young Chicago Oculist. From the New York World.

All oculists know that, from middle age on, the pupil of the eye grows smaller, until in old age it is no larger than a pin's head. Heretofore they have tried to explain this by saying that the muscles and nerves controlling the pupils become stiff, or weak, sooner than do the other muscles or nerves of the body.

This theory, controverted by a young Chicago oculist, Dr. Norburne Jenkins, who criticizes many old theories in regard to the eyes.

Dr. Jenkins was in New York recently, and was seen by a reporter. "I find," said he, "that advancing age only brings into action certain defects of the eye, and these defects alone are the causes of the small pupil, whether in age or in youth; and the greater the defect the earlier the pupil gets small."

"This is proved," he said, "because the pupil resumes its normal size and activity after the defects are relieved by perfectly fitting glasses. In brief, the small pupil comes from eye strain, and is not present in perfect eyes. As only about one person in a thousand has perfect eyes, the mistake has easily been made of thinking the small pupil came from a natural loss of tone from age, but perfectly fitting glasses show that these defects have existed from youth, and that age only reveals them, and also that when these are relieved, the pupil resumes its youthful action."

"It is not age nor loss of tone of the muscles or nerves that causes the pupils to be small in adults. It is either caused by astigmatism, unlike eyes or far-sightedness. In brief, 'Astigmatism is an eye trouble seldom understood. The apple of the eye and the curtain of the eye are covered in front by a tough, round and clear, saucer-shaped skin, something like a watch-crystal. This is about as wide and thick as a silver half-dime, and the white of the eye frames it. If it is perfect it is more like the side of an egg, or a warped saucer, and blurs the images that pass through it."

"In about half the people the two eyes are not alike in their defects; for astigmatism, far-sightedness or near-sightedness are apt to be worse in one eye than in the other. One eye may be perfect and the other not quite so good, or even very imperfect."

"In far-sightedness the eyeball is too small, or too short; the images come to a focus behind the retina, causing eye strain and a small pupil. The great work of the pupil is to act in harmony with the lens and the focusing muscle to focus perfect images on the outspread nerve, and this smallness of the pupil that attends the advance of age is a sign that the pupil is striving to make-up for shortcomings in other parts of the eye."

"This discovery will prove of importance to spectacle wearers, for it will enable them to tell by the size of their pupils whether their glasses fit, a matter largely of guesswork heretofore."

Art in Millinery

Fine materials do not necessarily make fine Millinery. Women of taste, refinement and good judgment fully realize that fact, but as the only way its truth can be demonstrated is through an appeal to the eye and reason,

We invite the ladies of North-eastern Pennsylvania to attend our opening display of artistic Spring Millinery on Wednesday and Thursday, April 4 and 5,

When the choicest productions of home and foreign artists in ladies' headgear will await their inspection. Extreme novelties that are a little odd will be found along side the more conservative ideas which appeal to women who never want to be conspicuously dressed.

In Addition to Trimmed Millinery

We will show a most complete assortment of everything requisite for making millinery to order, or for the home milliners' use. Nothing that fashion demands has been omitted, and the exhibition will be found well worthy of the most critical attention.
