#### FACTORYVILLE.

Special to the Scranton Tribune Factoryville, April 3.-The dairy men make smaller profits than most any other producers, and then they are obliged to cart the milk from one to three miles, and up to this time have been obliged to sell it at a price such ar the dairy companies saw fit to dictate, or offer them, which generally runs from about 114 to 2% cents per quart. The purchasers in the city real fize from 6 to 10 cents per quart, and yet set up the claim that they cannot afford to pay the dairymen more for it Now the dairy men have aroused then: selves and are dictating the price to the milk buyers. They will no doubt get it if they are firm and do not waver. They are not quite as well organized yet as they should be, but they will all fall into line, no doubt, in the near future. When the strike was ordered last Saturday there were a few that deliberately went back on their pledge of bonor, and continued to take milk to the condensery, but they were met in the streets by the strikers, and some pretty forcible language was used along with the cries of "scabs" from people along the she has been studying the latest destreets, all of which had their effect, signs in millinery. or two were persunded to prices, and at a meeting of the Luckuwanna and Wyoming Dairymen's association, hold here Monday, the price | offered by the milk buyers was refused, and the committee instructed to but rather fizzled out, owing, it is negotiate with other buyers. # Up Scratch.

itching of the skin which will not be quieted? Scratching is like trying to put out a fire with turpentine-it only adds fresh fuel to the flame. The common cause of skin irritation is found in a diseased condition of the blood. For this reason washes, lotions, unguents, etc., though they may alleviate, cannot eradicate the disease. No medicine will "come up to the scratch" which cannot cleanse the blood of the humors and poisons which corrupt the health of the whole body.

#### "I COULD DO NOTHING BUT SCRATCH."

"I consider your 'Golden Medical Discovery' one of the best medicines on the face of the earth," writes William Floeter, Esq., of Redoak, Montgomery Co., Iowa. "While in the south-west three years ago I got poisoned with poison ivy. The poison settled in my blood and the horrors i suffered cannot be told in words. I thought I would go crazy. I could do nothing but scratch. I would go to sleep scratching, would wake up in the morning and find myself scratching. I scratched for eight months. Had it not been for 'Golden Medical Discovery' I would be scratching yet. I tried different kinds of medicine-tried different doctorsbut all the relief they could give me was to make my pocket-book lighter. I called on one of the leading doctors in a western town. He charged me one dollar; drugs cost two dollars and a half. If I had given that money away I would have been better off, for it did me no good. I then began taking Dr. Pierce's Golden Medical Discovery. four bottles without any relief. Kept taking it. I took in all ten bottles and I got entirely cured. I can say that if people would take your medicine instead of fooling with some of the quacks that infest the small and larger towns disease would flee like chaff before the wind."

The action of "Golden Medical Discovery the blood is marked in two ways: by purifying the blood and so removing the causes of disease, and by increasing the quantity as well as improving the quality of the blood. This increased supply of pure blood, rich with the red corpuscles of health, carries new life to every organ of the body. Weak organs are thus strengthened and are enabled to throw off the diseases which had fastened on them. In scrofulous diseases the use of "Golden Medical Discovery" has time and again worked wonders, caring sores, boils, cruptions, and other painful and disfiguring diseases.

## SIGHT ALMOST GONE.

"My little daughter when seventeen months old became afflicted with scrofula, which affected her eyes," writes Mrs. Agnes L. Duncau, of Mansfield, Sebastian Co., Ark. "She could not bear the light for over a year. We tried to cure her eyes, but nothing did any good. We had our home physician, and he advised us to take her to an oculist, as her eyelids would have to be 'scraped.' They had become so thick he thought she would never recover her sight. As there was no one else to whom we could apply my sank within me. I went to your 'Common Sense Medical Adviser,' read your treatment on scrofula, getting the properties of medicines there advised. With five bottles of Golden Medical Discovery' I have entirely cured my

Scrofula of the lungs is the other name for that diseased condition of the lung tissues which, if neglected, or unskillfully treated, terminates in consumption. The many marvelous cures of "weak" lungs, by Dr. Pierce's Golden Medical Discovery, are effected along the same lines as the cures of other forms of scrofulous disease; by purifying the blood from poisonous substances and increasing the activity of the blood-making glands, so that the blood, on which every organ depends for vitality, is abundantly supplied to each dependent organ.

# A MINISTER'S EXPERIENCE.

"Regarding Dr. R. V. Pierce a distinguished prince among physicians, and the medicines you manufacture valuable re edial agents, I desire to send you this brief, unsolicited testimonial," writes Rev. Joseph H. Fesperman, Barium Springs, fredell County, North Carolina. "In 1898, one of my daughters was suffering on account of a severe cough,

Is there anything more fiendish than the constant Medical Discovery with gratifying success, and she now itching of the skin which will not be quieted? Medical Discovery with gratifying success, and she now enjoys excellent health. This experience caused me to recomniend Dr. Pierce's medicines to my neighbors, who, without exception, used them with favorable results. This being true, I heartily endorse your medicines."

There are certain medicines which are offered as blood-making medicines, but no medicine can make a drop of blood. Blood is made from food. Blood is the vital principle of the body. Strength is built up from blood. Blood and strength are alike the product of the food we eat. Take away a man's food and you take away his life. Take away a man's blood and he dies. Give a man blood and you give him strength. The great fact is that life depends upon food, and on the ability of the stomach and organs of digestion and nutrition to extract the nonrishment from the food and distribute to blood, brain and bone, the salts, phosphates and lime they

"Golden Medical Discovery" cannot make a drop of blood. It can no more add to a man's strength than to his stature. What it can do and what it does is to put the stomach and organs of digestion and natrition into perfect working order so that the nourishment in the food is extracted and assimilated and made into blood and strength.

## ITS WONDERFUL WAY.

"Three years ago," writes Miss Jennie Swearingen, of 1056 Merket Street, Parkersburg, West Va., "I was taken with what our family physician called typhoid fever, and was sick for seven or eight weeks. My stomach was in a dreadful condition and I could neither eat nor sleep. For four weeks I drank only ice-water. I was taken down in the same manner the next year. I suffered for two or three weeks, and again last winter I began suffering with a pain in my side. It kept getting worse and I had to have a doctor, and he pronounced it a kind of malaria and Grippe. What I suffered I could never express to anyone. I could eat nothhad to lie flat on my back and could not rise from the bed. Everyone thought I could not live. I had to be covered with mustard plasters and apply hot irons, etc. I bought two bettles of Dr. Pierce's Golden Medical Discovbought two bottles of Dr. Pierce's ery and a vial of his 'Pellets.' Took the medicines according to directions and began to improve slowly. The way it helped my stomach was just wonderful. I still continue the the medicines, and now have taken not less than sixteen bottles of 'Golden Medical Discovery' and quite a

number of the vials of the 'Pellets.' "For catarrh I have used six bottles of Dr. Sage's Catarrh Remedy, and am cured of that trouble also. I cannot say nor write enough in praise of Dr. Pierce's medicines. know that no other medicine in the world could have benefited me in the way it has. I have had no bad spell of sickness since I began its use, and I feel entirely well."

The wide range of cures performed by Dr. Pierce's Golden Medical Discovery may be attributed to the scientific method of the treatment which cures through the stomach diseases which have their origin in a diseased condition of the stomach and the allied organs of digestion and nutrition. Blood is the life, but blood is made from food, and the conversion of food into nutrition depends upon the health of the stomach and its allied organs, "Golden Medical Discovery" heals the stomach and so removes the contaminating cause of the blood's impurity. It increases the activity of the blood-making glands, so that a stream of pure, rich blood is supplied, adequate to the nourishment of all the organs of the body. It restores the lost appetite and builds up the body with sound flesh instead of flabby fat. induces restful, refreshing sleep, and brightens the mental faculties in correspondence with the physical restoration.

There is no alcohol in the "Discovery" and it is absolutely free from opium, cocaine, chloral and all other narcotics. It can be given with as much safety to the weakest child as to the strongest man,

If you ask your dealer for "Golden Medical Discovery "don't be turned aside from your purpose by any offer of "just as good" medicines. If it's anything else than Dr. Pierce's Golden Medical Dis hectic fever, wasting of flesh and other symptoms of dis-eased lungs. I promptly gave her Dr. R. V. Pierce's Golden does. #### TUNKHANNOCK.

Special to The Scranton Tribune Tunkhannock, April 3.-License court convened here yesterday, President Judge E. M. Dunham presiding and with him Associate Judges F. M. Vaughn and H. W. Bardwell. The list of license applications was gone over and, as no remonstrances were filed to any of the applicants, in all but two cases the bonds were approved and the licenses granted. These two applications were those for the hotel at Pierceville, which has been burned since the filing of the application, and was continued at the request of Mr. Rodney, the proprietor, pending the rebuilding of the hotel. The other was the application for the Hotel Clifton, now building at Lake Winola. This being a new house, evidence was required as to the necessity for the house and the accommodations furnished by it. There being no such witnesses in court, the matter was continued to

# THE MARKETS.

Wall Street Review.

Wall Street Review.

New York, April 3.—The two most potent factors in today's stock market were Federal Steel and Baltimore and Oble stocks. The pressure to liquidate the former had a decidedly unsettling influence on the whole stock market in the morning and the strength of the latter stock served to stiffen prices in the afternoon and to retrieve to a large extent the earlier decline. The opening in Federal Steel was wide and the price was soon carried down to 49, a drop of 45, from yesterday's close. It railied 2 points, but went off again in the last afteen minutes of the market to the lowest, developing renewed signs of weakness in the rest of the list. The selling of the stock was due to the practical admission that the failure to amend the charter yesterday at the annual meeting was equivalent to the abandonment of further dividend distribution this year owing to legal obstacles. The aggressive strength in Baltimore and Ohio developed after the executive committee of the company had convened. It was generally understood that this meeting would consider the granting of additional rights to stockholders. A new rumor found circulation about every five minutes as to what the right would be and the speculation in the stocks of the group was very active.
