

CLEVELAND'S Superior Baking Powder

Insures light, sweet, delicious and wholesome food

Cleveland's baking powder makes the biscuit and cake of finest flavor and quality and renders them more digestible and nutritious.

CLEVELAND BAKING POWDER CO., NEW YORK.

Care must be taken to avoid baking powders made from alum. Such powders are sold cheap, because they cost but a few cents per pound. Alum is a corrosive acid, which taken in food means injury to health.

Delaware and Hudson company, and J. L. Slack, superintendent of motive power, arrived in the city yesterday in a private car. They came here from Wilkes-Barre and are making a tour over the road.

An accident to some of the machinery at the Pine Brook colliery yesterday morning threw over 600 men employed at that mines out of work. It is thought that it will be several days before it can be repaired, and until it is the whole mine will have to be idle.

HIGH SCHOOL NOTES.

The regular meeting of the literary society Thursday promises to be a great treat. The main feature of the meeting will be a 100-Boer demonstration, in which different members of the society will be called upon to make speeches on this interesting topic. As no one knows who will be called upon to speak, every member who intends to be present should look the subject up and come to the meeting prepared to discuss the topic. Besides the discussion of the Boer question, the following numbers are added to the programme: Selection, Glee club quartette; recitation, Miss Beatrice Morris; violin solo, Jesse Rodriguez.

The Sigma Alpha will hold a meeting at the close of the session today, at which meeting Mr. Kingsley will deliver an address on "Iron." As the ability of Mr. Kingsley is well known, and as his subject is one that has, in a certain sense, been under discussion for some time among the members, his discourse will be heard with interest. Arthur Hoover, the school's well-known orator, will deliver an address also. The subject of his discourse will be "Cosmogony of the Universe."

Although Eugene Tropp lost the race at Scranton Lake, Saturday, it turned out as predicted, a race to the finish. As it was, he was beaten only by a few feet by Mr. Deane, who also showed the evidence of good training and practice, a thing which Tropp has not done for some time. One thing was brought out very clearly, that Rhys Powell, who set the pace for Tropp, has the qualities which make a first-class sprinter. If these qualities, which Mr. Powell beyond a doubt possesses, were brought out by training, the result of the foot races at Wyoming seminary might be greatly in favor of the Scranton High school. LIVE NEWS OF THE INDUSTRIAL WORLD

STRIKE OF MINERS AT MT. PLEASANT COLLIERY.

Men in the New Vein Are Dissatisfied with the Scale of Wages Paid. When Superintendent E. G. Russell Returns from Europe He Will Make His Home in This City. Resolutions Adopted at a Meeting of the United Mine Workers at Wilkes-Barre.

The miners employed by the Fuller Coal company at the Mt. Pleasant mine, in what is known as the New vein quit work yesterday morning, and shortly afterward several hundred other men and boys employed in the mine went out in sympathy with them. The trouble has been brewing for some time over dissatisfaction in the scale of wages paid, and may result in the shutting down of the colliery indefinitely.

When the men were ready to begin work yesterday morning they presented a petition to Foreman James Neal for a readjustment of the scale, but he was unable to give them any direct answer and they refused to begin operations. The other employees, learning of the action, also quit work. The demands made were for \$2.25 per yard for cutting breast coal, \$1.15 for each car of coal mined, \$2.50 for counter gangways, \$1.50 for narrow gangways and \$1.41 for cross cuts.

Previous to April 1 the men received \$2.50 a yard for driving an airway 16 feet wide, \$1 for the breast, \$1.05 for each car of coal mined and \$1.41 for driving crosscuts. Since that date they were required to drive a gangway or airway 24 feet wide, instead of 16 as formerly, for the same pay, with an allowance of \$1.50 for rock, instead of \$1.50, as was formerly paid.

The company contends that the men earn a fair day's wages under the present scale, and are not inclined to make any change. The men will hold a meeting tomorrow evening and make

a formal demand on the company for a readjustment of the scale.

To Make Home Here.

E. G. Russell, general superintendent of the Delaware, Lackawanna and Western Railroad company, will become a permanent resident of Scranton when he returns from his present sea voyage, which he started on Saturday last. Some time ago his office force was moved to New York, where they are at present located, but it is not known whether any change will be made in that respect.

Mr. Russell's physicians have advised him to locate in some place more congenial to his health than the metropolis, and he has decided to become a resident of Scranton. During his short stay here, Mr. Russell was a guest at the Jermyn, but when he returns from his present trip it will be to his home.

Mr. Russell was in the city yesterday and in company with a representative of a well-known real estate agent, looked over several houses which are vacant at present, but she has not definitely decided on any particular location as yet. All of the houses visited were thrown open for inspection, but none were just what was wanted. Mrs. Russell left on an afternoon train for her home in Watertown, but it is not definitely known when the family will move to this city.

Resolutions of Mine Workers.

At the request of a committee of United Mine Workers, headed by James Reddington, of this city, the following resolutions, adopted at Wilkes-Barre, on April 10, by District No. 1 of that organization, are printed:

Whereas, The Delaware and Hudson and the Delaware, Lackawanna and Western Coal companies
