Thrift, Convenience and Beauty

The demand for fabrics used in Tailor-made Gowns, brought with it an evil which has vexed many a buyer, and spoiled many a handsome suit. After making the material was apt to shrink, or if shrunk by the old process was almost certain to be marked with shiny patches at different after the Easter vacation. points. For this reason most of the cloths are made up without sponging, and are subject to spotting in rain showers and dragging at the seams through shrinkage.

All of these evils may now be avoided. If you buy the materials here, we will sponge them free of charge by a new steam process, which does not injure the finish or fabric, but renders it unshrinkable and absolutely spot proof from rain or water, which, by accident, may be spilled. Sails made from steam sponged goods look better, wear better and never get out of shape. As already stated, we charge you nothing for the extra service.

She has been a witness of the transformation of the Lackawanna valley from its primitive wooded and uninhabited condition to its present thriving populousness. Her tife has been active, though quiet and unobtrusive. She was interested in many of the church societies of the cathedral and her whole life was characterized by the ger tleness and amiability of the truly Christian sprit. Religion and home were the objects to which here energies were devoted. A week age she was seized with a sudden illness, which eventually proved fatal. All the assistance that medical science could afford was brought into erenely to her final resting place yesterday aft rnoon. Mrs. Taggart is survived by two sons William J.
