Dr. de Gruchy said:

FIRE HORSES TO BE PURCHASED BY BOROUGH.

This Plan Will Place the Fire Department on a More Efficient Working Basis Than It Has Been in the Past-Miss Bessie Brink Surprised at Her Home-Yesterday Services at the Various Churches-Other Brief News Notes and Personal Mention.

The borough fathers' decision to purchase the teams of the Neptune Independent and Electric Hose compa nies has made the fire laddies of the borough most joyous and has relieved the taxpayers from the strain occasioned by the thought that the teams would be sold and their taxes raised by the insurance companies on account of insufficient fire protection.

During the last year it was found that the teams did not begin to be self-supporting, as the amounts taken in from hauling coal, etc., fell far short from the actual cost of keeping the horses and paying the drivers. deficiency amounted to several hundred dollars. Council was therefore asked to purchase the teams or they would have to be sold and the com-panies would then be badly handicapped in their work.

The teams, when purchased, will place the department on firmer ground and enable the firemen to proceed with their work under more favorable circumstances.
