THE MARKETS. Wall Street Review.

<text>

Wall street still keeps an anxious eye on the situation in the iron and steel trade, but is in-clined to go back to official utterances in forming its opinions. The alarm first created over the cut in prices is mitigated by the well filled ranks of the consumers who are known to be waiting to place contracts at a lower level of prices. Last year's high prices are known to have been made by belated bidders who bid to buy at any price to fill contracts and the dealings at the high level were for only a smail part of the interprise which are known to have been worked off at lower rates. While the reduction in current rates has proved a severe shock to the market and a great disappolatment to holders of the stocks of the steel companies, Wall street is beginning to itsuige the hope that even at the cut prices the year's average for last year. Hall's Catarrh ture is the only positive cure known to the medical raternity. Catarrh being a constitutional dis-case, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the sys-tem, thereby destroying the foundation of the disease, and giving the patient strength by build-ing up the constitutions have as muca faith is its contive powers, that they offer One flundred Bollars for any case that it fails to cure. ACH .-- This is sadly too often the case. So many nauseous nostrum purporting to cure, because they are so loaded with injurious drugs and nar-cotics, in the end do the patient immensely more harm than good and in many cases so destroy the digestive organs that a cure is impossible. Dr. Von Stan's Pineapple Tablets are a purely vegetable pepsin preparation, as harmless as milk. One after cating prevents any disorder of the digestive organs. 18 in a box, 10 cents.
