New York, April 26.—The stock market developed an impressive show of strength during the latter port of today. The principal influence in the rise was a resumption of the upward movement in Pennsylvania and the Baltimore and Ohio stock. The recent reaction in this stock has been accompanied by runner that important speculative interests which have been prominent in the advance had sold out and taken their prefits. The news of the very heavy outlays in prospect for permanent betterments and increased equipments awakened some apprehension of dividend increases being indefinitely postponed not only on Pennsylvania stock but on Baltimore and Ohio, and many others which have been subject to runners of increased dividenties but today the report of ap robable increase in the Pennsylvania dividend rate took form again and was circulated with great explicitness. Bids were tradical the board for the next semi-annual dividend on Pennsylvania on thousands of shares of stock at 25 per cent. compared with 25 per cent. the late rate. The meeting of the directors for the purpose of fixing the dividend rate is fixed for Thesday next. These reports in regard to Pennsylvania had the most direct influence on the Beltimore and Ohio stocks, next to Pennsylvania itself, but the whole ratiroad list responded in varying degree to the influence of this movement.
