SECRETARY PARKER TALKS

States That the Sioux Falls Convention Is Simply an Adjunct to the Democratic Party - The Genuine Populists Will Not Play Second Fiddle to Democracy-They Are Out for Business, and Have No Barrel of Money.

Cincinnati, May 6 .- The advance workers for the national convention of the middle-of-the-road Populists, which meets here Wednesday, arrived today, They are all opposed to fusion. John A. Parker, secretary of the national committee of the middle-of-the-roadirs, who has been here several weeks arranging for the convention, was joined by many others today.

They claim they represent a large majority of the People's party; that in the contests at the state convention the Sioux Falls fusions carried less than 300 of the 975 delegates, and that the convention at Sioux Falls this week will be one of excursionists with a minority of delegates, as they claim that over two-thirds of the delegates were instructed by their states for the Cincinnati convention, which will "keep in the middle of the road." They also claim that their call is in accordance with the Omaha rule of 1892, excluding all officeholders, and charge that the Sioux Falls convention is in charge of Senators Butler, Allen and Pettigrew and other officeholders, the same as Republican and Democratic conventions, Said Secretary Parker;

It is well recognized by all people, whether they be Populists or not, that the Cincfinati convention represents the real Populist move-ment. It is equally well known that the Sioux Fails convention is simply an adjunct to the Democratic party. We are confident of an attendance fully as great as the expandig of our-hall, and it is claimed that Robinson's opera-house will scat 2,800 people.
