Warner's Safe Cure

is a scientific vegetable preparation for the restoring to health of tired out kidneys and over-worked livers.

When these great organs are in health there can be no impure blood, headaches or constipation.

Man cannot improve on nature, hence it is amusing to read of medicines which claim to "remove impurities from the blood."

"The kidneys enrich and vitalize the blood," etc. The kidneys, liver and lungs purify the blood and they alone.

Neither medicine nor man can do it. Warner's Safe Cure, by helping nature, is an aid, an assistant—simply that and nothing more.

The twentieth century man or woman is a reasoning, sensible person and seldom deceived by misstatements.
