Factoryville, May 17,—The "Demorest Silver Medal Contest" held at the Baptist church Vodnesday evening was not as successful in every respect as the W. C. T. U. had anticipated. The dience was a small one; the participants in a contest were very young girls and, while they did well, they showed the lack of training and practice. Miss Agnes Pear Batton essity won the silver medat. The programme consisted of recitations and music, the latter being under the direction of Mr. Walter Manchester. The singing of the Ladies' quartette was a pleasing feature of the entertainment and was encored. Miss Roe, of Laceyville, Ps., was present, and made a few well chosen remarks.

LINEMEN STRIKE.

Entire Delaware and Atlantic Telephone Service Tied Up at Trenton. Philadelphia, May 17.-The strike of the outside linemen of Local union, No 21. Brotherhood of Electrical Workers, according to the strike leaders, began today to assume a serious aspect, and especially with regard to the Bell Tele-

phone company and its allied system. At the union's headquarters word was received that the entire Delaware and Atlantic Telephone company service was tied up by reason of a strike inaugurated this morning by the local union at Trenton, N. J. This strike, the leaders claim, cripples

the Trenton system and all the service tributory to that city, including Bor-dentown, Princeton, New Brunswick and the Belvidere division as far north as Phillipsburg. Every lineman em-ployed between here and Atlantic City is reported to be out, and the strike is now more extensive than at any time since it was inaugurated. The Delaware and Atlantic system is the only telephone service in the Belvidere division.

Manager McCrellish, of the Trenton office, is credited with the statement that the strikers' places have been filled, but the linemen say such a thing is impossible.

In the strike of the girl cigarmakers at the factory of Harburger, Homan & Co., the only incident today was the arrest of one girl, who tas endeavoring to secure recruits to the ranks of the strikers. The members of the firm claim to have employed thirty-five new hands today, while the strikers say they were joined by twenty-three girls this morning. Otherwise, the situation remains unchanged.

There were no developments today in the strike of men employed in the building trades.

WORK OF PARDON BOARD.

Cases Considered-No Interference with Krause Death Sentence.

Harrisburg, May 17.-The board of pardons recommended pardons today for Curtin McClain, of Orbisonia, serving a life sentence in the Western penitentiary for murder; John Kelly, of Susquehanna, voluntary man-slaughter; William H. THE MARKETS.

Wall Street Review.

Wall Street Review.

New York, May 17.—The demand for railroad stocks which has given strength to the market for a number of days past has been attisfied and prices fell back teday, in that department of the stock list. This is accepted in Wall street as confirmation of the view that the demand came from an outstanding short interest in the west and was not based on any underlying condition in the companies whose stocks were affected or in business at large. Rumers which served the purpose of the bulls yesterday continued to circulate, such as that Union Pacific or Pennsylvania was to secure control of Burlington, or Atchison Preferred was to receive its full dividend, or new millionaire interests were to be represented in Missouri Pacific, but all of these stories were heard with languid interest and prices continued to drop. In the industrial list the losses in prices were not such a passive matter. American Tobacco was under severe pressure all day on account of circumstantial assertions of the organization of formidable competition. The stock lest over six points, closing at the lowest. Sugar suffered from reports that the trade war was to assume a more acute stage. People's Gas continued under pressure by the professional element amongst the traders. An advance in the price of copper was responsible for the sharp rise in Anaconda, such had some sentimental effect on the stocks of other metal companies. The stocks in that group were dull and the movement very uncertain, the news executing the iron trade continuing generally unfavorable. Total sales 437,400.

The bond market was decidedly dull, but showed some advances. Total sales par value, 81,645,000.
