According to a local paper, the formation of a new county, to be composed of parts of Lackawanna, Wayne and Susquehanna counties, is again being agitated. The expectant and anxious public can rest assured, how ever, that newspaper agitation is about as far as the matter will ever go. Wayne and Susquehanna counties have not as large a population now as a very medium sized city, and the territory of neither is large enough so that the legislature will think neceasary to divide it. Then, again, the people outside of a town or two that have a bad case of county seat aspirations do not care a row of pins about such a division, and in fact would oppose it. Excluding Carbondale and its immediate vicinity, Lackawanna county does not favor any such scheme, and, more than all these reasons, there are legal impediments to the formation of a new councy that make it almost nesless to wasttime thinking about the matter. This was found out by the people of Hazleton some years ago, and also served to put an effective quietus en a former new county scheme in this sec-

"I have used Peruna for nervous dyspepsia for the last three weeks. I can cordially recommend it to any one suffering from a similar complaint; especially do I feel pleased to speak a good word for it in this particular because dyspepsia or indigestion is quite too common a malady among Americans. It has distinctly benefited me, restoring me to a normal condition of good health when I was utterly incapacitated by a disorder so easily cured by a few doses of really good medicine." The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarri. Hall's Catarri Cure is the only positive cure known to the medical naternity. Cutarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarri Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One flundred Deliars for any case that it fails to cure. Eand for list of testimentals.

told me lots of people come in and call for the medicine that cured me." S. B. Coates, Muncie. Ind., 1332 East S. B. Coates, Muncie, Ind., 1332 East Washington street, writes: "I have just recovered from a very bad case of dyspepsia and owe my recovery to Peruna. I have been troubled with dyspepsia for five years. Doctors did me little or no good. One bottle of Peruna gave me relief and after using two bottles the dyspepsia has all disappeared. I can eat and sleep and feel

peared. I can eat and sleep and feel like a new man."

Mr. H. D. Carew, Brockton, Mass., 1046 Main street, writes: "About ten ten years ago I was greatly distressed by dyspepsia, and took no comfort day or night. I tried everything that phy-sicians prescribed with no relief whatsoever. A friend insisted on my using Peruna. It worked wonders and entirely cured me of the disagreeable disease. I cannot speak too highly of Peruna.'

Peruna."

The symptoms of catarrhal dyspepsia are coated tongue, pain or heavy feeling in the stomach, sour stomach, belching of gas, dizzy head, sometimes headache despondent feelings, loss of appetite, palpitation of heart and irregularity of the bowels.

For this condition Peruna is found.

For this condition Peruna is found to be an admirable remedy. In all cases it brings prompt relief to the painful symptoms, and in a large per cent of the cases it makes a permanent cure. Feruna soothes the inflamed mucous surface and thus strikes at the root of the disease.

Mr Ell Lefevre, Jr., of New Hudson, Oakland county, Mich., Box 52, writes: "I had been troubled with catarrh for a num-ber of years, and

Mr. Eli Lefevre, Jr. for catarrh. Af-ter I had taken only three bottles of Peruna I was Mr. Eli Lefevre, Jr. cured of the catarrh, I now advise everybody troubled with catarrh to take Dr. Hartman's Peruna, as it is a

re cure for catarrh.
"Friends to whom I recommended Peruna, tell me that it is also good for headache, dizziness, and pain in the stomach."

In cases where the inflammation has been so severe and continued as to produce extreme irritability of the stomach, the remedy may be taken in small doses at first, diluted in water, but as soon as the improvement is sufficient to permit the whole dose to be taken undiluted, it is a better way and the cure is much more rapid.

Peruna is also a spring medicine which at once removes the cause of all affections peculiar to the spring season by purifying the blood of all contamination and invigorating the whole system.

# THE MARKETS.

Wall Street Review.

Wall Street Review.

New York, May 18.—The stock market contended successfully against the marked depression of the early dealings and showed increasing strength as the day advanced. Early losses were all retrieved and the close was fairly buoyant with a burst of buying orders in volume and urgency exceeding that for a long time past. Very notable net gains are shown by a number of the specialties and industrials, while the railroads generally are from a fraction to over two points higher. Sugar and Tobacco were both sold down sharply, but they met support of a character which has been lacking for several days past. An unwieldly short interest has been formed and prices, especially in Tobacce in the course of its recent severe decline and when the stock began to move upwards the demand from the bears became precipitate. The aggressive strength developed in some of the New York city stocks added to the confusion of the bears. Brooklyn union gas moved upwards \( \frac{\partial\_{\text{c}}}{2} \) points, and Consolidated Gas \( \frac{\partial\_{\text{c}}}{2} \), to a level far above that touched by this stock for many months past. Even the steel industries were bought and moved upwards generally over the point. The bears abandoned their efforts to keep down prices and rushed to cover all through the list, making the buoyant close. Owing to the failure of last week's money market to reflect the placing of the large loan to the Pennsylvania Railroad cempany said to amount to \$16,000,000 it was expected that this item would be reflected in this week's none account of the banks, but the continued ease of money did not display a loan expansion.
