## CRESTON CLARKE'S LOSS.

### Wagon Load of Bric-a-Brac De stroyed at Water Gap.

Special to the Scranton Tribune. Stroudsburg, May 21.-Creston Clarke, the well-known Shakespearean actor, met with a serious less today. Through the breaking of the whiffle-tree two horses pulling a wagonload of costly bric-a-brac and furniture belonging to Actor Clarke, together with their driver, F. G. Hurst, of the Fairview hotel, became frightened and dashed down a sixty-foot embankment opposite the Water Gap. Hurst is seriously burt. The goods belonging to Clarke, to the value of several thousand dollars, are utterly ruined. As the horses driven by Hurst neared the New York, Susquehanna and Western railroad, the end of the whiffle-tree broke. The frightened animals plunged down the rocky and steep embankment about 60 feet to the railroad track below.

Mr. Hurst was rescued unconscious from the debris by his companions. The horses will have to be shot. Hurst only recently acquired the Farview house and was taking Clarke's goods to the home recently purchased by the actor, which is situated near the Farview house.

Wall Street Review.

New York, May 21.—The stock market was soft from the opening today and yielded readily to the assault of the, hears. There was practically no buying demand of any importance perceptible and prices lost ground pretty steadily all day, even on a light volume of trading. Late in the atternoon Third Atenus made a sudden advance of 6 points and caused some uncasiness ameng the rom shorts, who bought moderately to cover but the rally was insignificant outside of Metropolitan, Brooklyn Transit, Sugar and Tobacco. The sudden upward movement in Third Avenue was unexplained, except by hast week's move to secure the discharge of the receiver and the progress being made in the betterment of the system. The long outstanding short interest in the stock was aimed at by the advance. The heaviness of the market during the day reflected the keen disappointment over the failure of last week's encouraging developments to attract any outside demand. It was soon evident that London secially had been looked to hopefully to take up American stocks, and the early morning from that quarter showed declines for the international stocks was a disappointment. The sales for London account were not in large volume, but their sentimental effect was decisive and soon overcame the strength in the few specialities which attempted to make headway against the tide. It was clear that speculators who bought stocks late last week counted upon London taking them off their hands after that market had aubsided from its hysterical over the relief of Mafeking. But London shared with the continental bourses a mood of depression. International houses in Wall street attributed this to disappointment over the denial of the report that President Kruger had made humble advances for peace and Berlin advices reported fears of an oubreak between Russia and Japan. In the New York market the Grangers and the Pacifica were the first to show acute signs of weakness, but ultimately practically all of the active railroad stocks fell from one to two p making some slight impression on the bond mar-ket. The readers of this paper will be pleased to learn that there is at least one dreaded disease that seicnee has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical trateraity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the Visou and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so manifaith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
